ELAC is a no smoking campus. All information subject to change without notice.

August 2025

Important Changes

These changes affect registration, course selection, degree selection, graduation, and transfer for California community college students.

More details at www.elac.edu/academics

Payment Fee Policy

Starting Summer 2025, students must pay their fees by the published due date to avoid being dropped from classes.

If you are unable to pay, explore your options at www.elac.edu/cost-tuition/fee-payment-policy

Common Course Numbering

Starting Fall 2025, some course numbers and titles will change to a streamlined statewide system.

Those who've taken courses under their previous name still count and do not need to retake courses.

Cal-GETC: General Education

Cal-GETC is the new general education pathway for students planning to transfer to a CSU or UC.

This only applies to new students starting Summer or Fall 2025.

Associate Degree for Transfer

If you've chosen an AA-T or AS-T major, your program has been updated to an ADT to support CSU transfer.

Meet with a counselor before reaching 15 units to stay on track.

If you changed your major after August 1, 2024, update your educational plan.

Final Exam Schedule

Each examination is scheduled for two hours. Final exams for short-term classes shall be administered during the final two hours of the last class period.

Every instructor is required to give a final examination following the schedule above. Deviations from the final exam schedule are not permitted because of the potential conflict within students' schedules. If students indicate that a conflict is occurring, instructors are advised to contact their supervising dean immediately.

Every student is required to take a final examination. Final examinations are held in the room in which the class is regularly scheduled. In case of a conflict, please consult your instructor.

Withdrawing from a Class

Withdrawing From a Class is a Serious Decision

New statewide regulations are now in effect that change the way students should think about enrolling in, and then withdrawing from classes.

Community colleges get most of their money from the state based on enrollment. Your fees cover only a fraction of the cost. Each class you enroll in results in compensation to the college from the state, and that is how the college stays open.

In the past a student could withdraw from the same course up to 4 times, and in addition repeat the course up to two times to try to improve a grade of D or F. In other words, you could get a "W" in the same course 4 times and complete the course up to three times until attaining a grade of "C" or better.

From now on, a "w" counts as an attempt and you only get three attempts at any one course.

After that, the state won't pay the college for you to take the course again.

What This Means for ELAC Students

If you stay in a course past the "no penalty" withdrawal date and then drop it or are excluded, you receive a grade of "W" and you have used up one of your three attempts.

When you have made three attempts at a class, with any combination of W, D, or F grades, you will not be able to register for the class again. You would have to try to take the class again at a college outside the Los Angeles Community College District.

You may petition for one more try citing "extenuating circumstances;" however, for the most part the only extenuating circumstances that are allowed are military deployment or natural disaster.

If your registration is blocked because of this rule, getting an add permit will not help.

What You Should Do

If you're going to drop, drop before the deadline so you won't get a "W".

Be sure you're academically ready for classes you enroll in.

See a counselor to help you make good decisions about your educational plan.

How to Apply and Register

Student Categories

The faculty and staff are pleased that you chose East Los Angeles College to pursue your higher education. We are committed to help you succeed in accomplishing each phase of your educational program so you can finish your studies in the shortest time possible.

This section explains how you can enroll into the college, how you get your classes, and how much you can expect to pay in fees as well as the fee refund policies. In addition, this section explains the academic standards which the faculty and staff expect you to achieve while you are a student at East Los Angeles College.

For application and registration purposes, all students fall into one of the three categories listed below. It is important that you understand the category which applies to you.

Category 1 – New Students

If you have never attended East Los Angeles College or any other Community College within the Los Angeles Community College District (known as the LACCD).

Category 2 – Returning Students

If you attended East Los Angeles College or any other Community College within the LACCD in the past, but did not attend the last two semesters.

Category 3 – Continuing Students

If you attended East Los Angeles College during the past two (2) regular semesters.

Matriculation Process

Student Success and Support Program

Senate Bill 1456 revised and renamed the Matriculation Act of 1986 as the Seymour-Campbell Student Success Act of 2012. Signed by Governor Brown on September 27, 2012, the program began on January 1, 2013 and will be implemented through stages over a five-year period. The Student Success and Support Program supports the transition of new students into the college by providing services that promote academic achievement and successful completion of degrees, transfer preparation, career technical education certificates, or career advancement.

Effective Fall 2014, based on student responses to the East Los Angeles College application for admission, students will be identified as matriculating or non-matriculating. Students identified as matriculating are referred to core matriculation services: assessment placement, orientation, and counseling. Students must complete the assessment placement, orientation, and counseling (abbreviated Student Educational Plan) prior to their priority registration date and time. Abbreviated Student Educational Plans (SEPs) are provided during the counselor led new student in-person orientations. After registration and sometime during the semester, a comprehensive Student Educational Plan must be completed within a reasonable time period by making an appointment to meet with a counselor. Nonmatriculating students are exempt from participating in the core matriculation services, but are advised to access these services if they plan to pursue a degree or certificate.

Loss of Enrollment Priority

Students, with the exception of foster youth or former foster youth, will lose registration priority at the first available registration after they are placed on academic or progress probation, or any combination thereof for two consecutive

terms or have earned one hundred (100) or more degree-applicable units in the District; however, non-degree applicable basic skills units do not count towards the 100 units.

Appealing Loss of Registration Priority

The college has established a Registration Priority Appeals Committee to review requests from students appealing the loss of enrollment priority. Petition to Appeal Loss of Enrollment Priority can be obtained at Admissions and submitted by the deadline dates (see Class Schedule) along with supporting documentation. A student may appeal on one or more of the following grounds:

- The student has extenuating circumstances. Extenuating circumstances are verified cases of accidents, illnesses or other circumstances beyond the student's control.
- The student applied for reasonable accommodation for a disability, but did not receive it in a timely manner.
- The student has demonstrated significant academic improvement. Significant academic improvement is defined as achieving no less than a 2.0 grade point average in the prior term and completed more than 50% of coursework.

The College's Registration Priority Appeals Committee shall notify the student within ten (10) business days of its decision. The decision of the college Registration Priority Appeals Committee shall be final.

Appealing Loss of Fee Weaver

Effective Fall 2016, students who are on academic or progress probation for two consecutive semesters will also lose their California College Promise Grant (CCPC) formerly known as BOG Fee Waiver. Students may also appeal to reinstate their BOGW Fee Waiver through the "Loss of Enrollment Priority and/or CCPC Appeal" form available at Admissions. The

appeal must be submitted by the appeal deadline (listed in class schedule) along with supporting documents. A student may appeal on one or more of the following grounds.

- a. Student with disabilities who did not receive proper accommodation
- b. Extenuating circumstances
- c. Significant academic improvement
- d. Change in economic situation.
- e. Evidence student was unable to obtain essential support services.
- f. Special consideration as a participant of CalWorks, EOPs, DSPS, and Veteran Student.
- g. Have not enrolled at the college for two consecutive semesters (Fall/Spring) since the student became ineligible for California College Promise Grant (CCPC) formerly known as BOG Fee Waiver.

The College Appeals Committee shall notify the student of its decision.

Admissions

Apply online at www.elac.edu. Submit official high school transcripts and any previous college official transcripts to Admissions (Main Campus, EI-105 or South Gate Educational Center). Submit proof of residency.

Assessment Placement Process

The Assessment Placement Process at ELAC consists of computerized English & Math Assessment tests. The Assessment Check-In Form & Calendar is available in the Assessment Center and online at www.elac.edu. Admission applications must be submitted and processed prior to participating in the Assessment Placement Process. All students planning to enroll in English, Math, ESL (English as a Second Language), and Reading courses and planning to earn a Certificate, AA/AS Degree or higher, must participate in the Assessment Placement Process. Students will not be allowed to retest within one calendar-year from test date. Assessments are offered at the Main Campus (EI-183) and South Gate Educational Center (Room 120). For more information please call the Assessment Center at (323) 415-4141.

Any student with a verified disability may arrange for alternative administration of the Assessment Placement Process (English, Reading and Mathematics) by contacting the Disabled Student Program and Services (EI-160) at (323) 265-8787.

Counseling

All new and returning students must complete a New Student Orientation (NSO). Students may also participate in the online NSO (onlineorientation.elac.edu).

All continuing students are strongly recommended to meet with a counselor and update their Comprehensive Student Educational Plan (CSEP) before registering. For more information on how to schedule a counseling appointment visit counappt.elac.edu.

Follow-Up

Counseling and teaching faculty provide a number of follow-up services to matriculated students. These services are designed to provide information regarding the student's academic progress. Special services are provided to students on academic or progress probation, students in basic skills courses, and students who are undecided about their educational goals. Referrals to students are made to both on and off campus services when appropriate.

Matriculation Exemptions

All new students are expected to participate in the core matriculation services of Assessment, Orientations and Counseling. However, some students may be exempt from these services if one or more of the following apply:

- Student has completed an associate degree or higher.
- Student has enrolled at the college for a reason other than career development or advancement, transfer, attainment of a degree or certificate of achievement, or completion of a basic skills or English as a Second Language course sequence.
- Student has completed these services at another community college within a time period identified by the district.
- Student has enrolled at the college solely to take a course that is legally mandated for employment as defined in section 55000 or necessary in response to a significant change in the industry or licensure standards.
- Student has enrolled at the college as a special admit student pursuant to Education Code Section 76001.

If you meet one of these conditions you will be exempt from the core matriculation services and shall be notified at the time of submitting the admission application.

Student Rights and Responsibilities: (Title 5 Section 55530)

All students shall be required to:

1. Identify an educational and career goal
2. Diligently engage in course activities and complete assigned coursework
3. Complete courses and maintain progress toward an education goal and completing a course of study

Matriculating students must:

- a. Identify a course of study.
- b. Participate in the assessment placement process.
- c. Complete an orientation activity provided by the college.
- d. Participate in counseling to develop at minimum an abbreviated student education plan.
- e. Failure to complete a, b, c, and d (above) may result in a hold on a student's registration or loss of registration priority until the services have been completed.
- f. A comprehensive student educational plan must be completed by the 3rd semester or after completion of 15 semester units of degree applicable coursework (effective Fall 2015).

All students have the right to challenge or appeal any step in the Matriculation Process. If a student feels that the assessment, orientation, counseling, and/or any other component of the Matriculation Process are being applied in a discriminatory manner, please see the Student Success & Support Program Coordinator in EI-183.

All students have the right to challenge any prerequisite or corequisite by the challenge deadline ("Prerequisite or Corequisite Challenge Petition" forms are available in the Enrollment Center, Admissions, and Counseling area).

East Los Angeles College Policy on Academic Honesty

Approved February 28, 2006 by the Academic Senate and Vice President of Student Services

Students, you are expected to refrain from engaging in the following behaviors:

1. Using, receiving, or providing unauthorized information during tests or on any written assignments.
2. Changing answers on assignments after work has been graded.
3. Using unauthorized electronic devices, such as cell phones, PDAs, electronic dictionaries, IPODs, etc.
4. Having another student take an examination for you or taking an examination for another student. Photo identification may be required at the first examination.
5. Plagiarizing or presenting someone else's work as your own.
6. Forging or altering registration documents, grades, or add permits.

7. Bribing or attempting to bribe an instructor or other college official for grade consideration or other special favors.
8. Violating any other standard that an instructor identifies as cheating in that particular course or subject area.

When there is evidence of academic dishonesty, the instructor may issue the student a zero or "F" on that particular assignment or test. The instructor may also initiate student discipline under LACCD Board Rule 91101, which may include the issuance of a verbal or written warning. Pursuant to LACCD Board Rule 91101.11 (a), the Vice President of Student Services will place documentation of such warnings in the student's file.

Any student concerned about the implementation of this policy should review the College Catalog Student Information, where he/she will find references to the Student Grievance Procedure and the relevant Board Rules. He/she may also contact the VP of Student Services.

Continuing Student Registration Process

Priority Registration

Continuing students have priority in the selection of courses over all new and returning students. Priority appointments are based upon the number of units completed at all Colleges in LACCD.

Registration appointments are emailed at least two weeks before their appointment date and time to their email address on record with the Admissions Office. Students may also access the Student Information System at <https://eweb4.laccd.edu/WebStudent/signon.asp> to obtain their registration appointment; failure to register for classes on the scheduled appointment date and time, forfeits priority status.

See a Counselor

All students must complete a Comprehensive Student Educational Plan (CSEP) by the time they complete 15-degree applicable units. Counseling appointments may be scheduled by contacting the counseling department in-person, telephone, or using the online scheduling system. For more information on how to schedule an appointment visit counappt.elac.edu. Plan ahead and schedule your appointment before registration periods begin!

Schedule of Classes

Continuing students will be provided a free schedule of classes at the college bookstore when they present an ELAC student ID card. The schedule is also available two weeks prior to the start of registration online at www.elac.edu.

Prerequisites

All students must clear prerequisites before registering for courses with listed prerequisites. Students currently enrolled in the prerequisite course will be allowed to register for the next level course. If a student drops or does not pass the prerequisite course their enrollment will be swept from the course requiring the prerequisite completion. All prerequisite completion petitions need to be submitted to the Admissions Office before the deadline date listed in the class schedule. Prerequisite challenges are submitted to the respective department.

Enrollment Process for New and Returning Students

1. Admission Application

Complete and submit an admissions application online or in-person

Online: Complete and submit an admissions application online at www.elac.edu. You will receive registration and matriculation information through email within 2 days of submission.

In-Person: Complete and submit an admissions application in person at the Enrollment Center or Admissions Office at the South Gate Educational Center. You will need to bring the following documentation

Required Documentation for Admission:

You will need to bring the following documentation in order to process your admissions application and to determine residency for tuition fee purposes.

- Identification: Driver's License, Photo Identification Card, Passport or any other form of identification.
- Social Security Card: A student's social security number will be utilized for Financial Aid purposes only. A student ID number can be assigned in lieu of the use of social security number.
- Residency:
 - Non-U.S. Citizens will need to provide legal documentation to determine tuition fees. Documents to bring include Permanent Resident Card, Employment Authorization Card, Passport, Visa or other original immigration documentation.
 - Non-CA Residents: if you have lived in CA less than two years, submit proof of California residence.

Minor Students enrolled in grades K to 12th

Additional documentation is required for special admit students enrolled in grades K to 12th:

- Supplemental Application for Admissions of Students Enrolled in grades K - 12th: must be signed by the parent or legal guardian and home school principal or designee.
- If enrolled in grades K to 8th or under 14 years old, approval to attend college is determined by a campus committee. Potential students need to submit the documents listed in addition to home school transcripts, support letter from home school official and personal statement from the student. Supporting documents must be submitted two weeks prior to the start of the college term. Submission of documents does not guarantee admittance.

California Residence Requirement

- A California Resident is defined as one who has established both physical presence and intent to make California and the United States their permanent home, for more than one year from the Residency Determination Date. The Residency Determination Date is defined as the day immediately preceding the opening day of instruction. Physical presence is defined as continuous physical presence within the State of California, excluding temporary absences. Intent to make the United States the permanent home is determined based upon acceptable evidence submitted by the student, showing intent to make the

United States the student's permanent home and evidence showing the student is not precluded from establishing permanent residency in the United States. For minors under the age of 18, residency will be derived from their parent or legal guardian. Check with the Enrollment Center/SPARC regarding your particular status.

- A Non-California Resident student is one who has not resided in the State of California for more than one year and the day immediately preceding the Residency Determination Date or who has shown conduct inconsistent with a claim for United States residence or who is precluded from establishing domicile in the United States. Non-residents, except those who have temporary United States visas, still may attend the college subject to non-resident tuition fees as established by the District's Board of Trustees.

Residence Reclassification

Students who have been classified as non-residents may submit a Supplementary Residency Questionnaire to be reclassified as California resident if their status has changed. The Supplementary Residency Questionnaire is available online or at the Enrollment Center/SPARC and must be submitted prior to the semester start date with the appropriate documentation showing both physical presence and intent to make California their permanent home, for more than one year.

Resident Appeal

A student may appeal the final residence classification determined by the college. The appeal must be made within 30 calendar days of receipt of notification of the residence classification. The appeal must be submitted in writing to the college Admissions Office who will forward it to the District Residency Appeal Officer.

Fees for Non-Resident Visa Holders

- Foreign Residents - Students with visas which require residency in the country granting the visa or who have not applied towards United States residency status for over one year before the start of the semester will be required to pay an enrollment fee of *\$46 per unit and additional non-resident tuition fee of *\$282 per unit.
- Non-California Residents - United States Citizens and Permanent Resident Card Holders who have lived in California for less than one year will be required to pay an enrollment fee of *\$46 per unit and additional *\$282 per unit.
*Fees are subject to change at any time by Board action.

Non-Resident Tuition Exemptions

Certain Non-resident students may be exempt from paying non-resident fees:

- AB540 - Non-resident students who have completed at least three (3) years and graduated from a California High School may be eligible to have non-resident tuition waived. A

student must not be under a nonimmigrant visa status, such as B-2 (tourist) or F-1 (student) visas and must have or are planning to apply for resident status in the United States.

- Non-Resident Fee Waiver – Non-resident students may be exempt from the nonresident tuition fee, if the nonresident has demonstrated a financial need for the exemption.

Non-resident tuition exemption certification forms are available at the Enrollment Center/SPARC or South Gate Educational Center and online at <http://www.elac.edu/admission/forms.htm>.

2. Assessment Placement Process

Effective Fall 2014, based on student responses to the East Los Angeles College application for admission, students will be identified as matriculating or non-matriculating. Students identified as matriculating are referred to core matriculation services: assessment placement, orientation, and counseling.

Participate in the Assessment Placement

The computerized assessment placement tests are not pass/fail tests, but instruments to assist in properly placing students into English, Reading and Math courses. The assessment course placement results will provide guidance and information needed for a successful experience at East Los Angeles College, as well as assistance in selecting classes. Please refer to the Assessment Check-In Form & Calendar (available in the Enrollment Center/SPARC, Assessment Center and online at www.elac.edu) for the assessment lab hours.

3. New Student Orientation (NSO)

After participation in the Assessment Placement Process, students must complete a New Student Orientation. Students may also participate in the online New Student Orientation by going to onlineorientation.elac.edu.

Advisement/Counseling

All new and returning students must complete an Abbreviated Student Educational Plan (ASEP). The ASEP will outline courses students should enroll in and complete in order to achieve their stated educational goal/ program of study. During the in-person NSO, counselors will develop an Abbreviated Student Educational Plan (ASEP) for all students in attendance. Students who complete the online NSO will receive an ASEP after presenting their online NSO confirmation page to the general counseling office.

Other Exams Offered

- LACCD Math 115 Competency Exam – alternative to meeting the math competency requirement for AA/AS graduation purposes only (applicable to all students entering prior to Fall 2009).

For more information please visit or call the Assessment Center (EI-183) at (323) 415-4141.

4. Course Registration

Selection of Classes

Use Section Two of this Schedule of Classes to find the course names and section numbers for the courses you want to take. When choosing your courses, be sure that the meeting day and time of each course does not conflict with the meeting day and time of any other course you are planning to take.

Alternative Course Selection

After you have selected your first choice courses, go through the selection process again and select your second choice courses. If your first selection is full you will have the option to select your second choice. Please consider several alternative choices for class day and times.

Check Prerequisites/Corequisites

Verify that you have met all prerequisites and/or corequisites prior to enrolling in courses. Students who do not meet the requirements will be blocked from course registration.

Counseling

For suggestions on which courses to select, visit the counseling department to schedule an appointment for a Comprehensive Student Educational Plan. Visit counappt.elac.edu for information on how to schedule an appointment with a Counselor.

Registration Options

Students may register for classes on the designated appointment time and make program adjustments through any one of the two options listed below. Students will not be permitted to register before the appointment date and time.

- Online Registration: Don't wait in line register online! Students may register using the internet by logging on to the Student Information System (SIS) at www.elac.edu. To access the SIS the student will need to provide the Student ID number and four digit Personal ID number (month and day of the student's birthday).
- In-Person Registration: Students may register in-person at the Admissions Office. Students will need to bring a photo ID. Students should complete the Course Selection Worksheet prior to registration. Students will be provided a Course Request Card to complete the registration process.

5. Payment of Fees

Fee Waiver

Students may visit the Financial Aid Office to see if you are eligible for a California College Promise Grant (CCPG) formerly known as BOG Fee Waiver, which will pay for enrollment fees. All CCPG eligible students must pay the health fee.

Payment is required to complete enrollment. Students should pay all fees and tuition at the time of registration. Failure to pay all fees will result in restrictive holds to be placed on the student's records.

Payment Options

Students can make payments either online on the students portal or go to the Fiscal Office in G1-107 and present a valid picture ID to pay for all fees. We accept cash, check, money order, and credit cards. Pay for ASU membership and receive a sticker on the back of your student ID. Once all fees are paid for, the registration process is complete.

6. Student Photo ID

New and returning students are required to go to the "Picture Identification Station" to obtain their personalized Student ID Card.

DO NOT lose this card! You will need it for the entire time that you are a student at East Los Angeles College. If you lose your Student ID Card, you will need to obtain a duplicate.

7. Enrollment Fee for California Residents

California residents are required to pay an enrollment fee of *\$46 per unit plus a mandatory Health Fee. For example, if you take 10 units of classes during the fall/spring semester, the cost will be

$$\$460 + \$19.00 = \$479.00$$

Applicants for student financial assistance, who are enrolled in units at more than one college, may combine their unit load from each college to meet the enrollment levels required to receive financial aid. Contact the campus financial aid office for procedural details.

*Fees are subject to change by the California Legislature.

Student ID Number Information

In accordance with state legislation, new students will be issued a student ID number at the time of application. Every student ID will begin with the numbers "88" or "90".

Adding and Dropping Classes

Adding Before the Semester Begins

During the enrollment period prior to the start of classes, students wishing to add classes which have reached the enrollment limit can add themselves to the waitlist. A process will run through-out the day that will automatically enroll students in the class from the waitlist as seats become available. An email will be sent to the student's LACCD email account notifying them of the registration. The last day a student can be added to a waitlist is two days before the first day of the session. Waitlists apply to all regular and short-term session classes, summer and winter intersession.

Adding After the Semester Begins

After classes begin, students actively enrolled in the class who do not show up for the first class meeting MAY be dropped by the instructor who will then add students from the waitlist. If you are not moved into the course from the waitlist during the enrollment period, you must attend the first meeting of class to be considered for late enrollment from the waitlist. If there is space available and you are not at the class, you will lose your place on the waitlist and the next student on the waitlist may be added instead.

Important Details You Should Know

- Being added to a waitlist does not guarantee enrollment in the class.
- All corequisite or prerequisite must be satisfied before you will be enrolled from the waitlist.
- You will not be enrolled from the waitlist if the class conflicts with times on your existing class schedule.
- You can view your waitlist position in your online student portal. Click on Academics Menu and then click on Class Schedule.
- You can remove yourself from a waitlist the same way you would drop a class in your online student portal.
- During the primary terms of fall and spring, students will be limited to enrolling for no more than 19 units, and during the winter and summer will be limited to registering for no more than 9 units district-wide. The maximum number of waitlist units is 12 for fall and spring and 9 for winter and summer.
- You may sign up for multiple waitlists for the same discipline/class; however, if you are moved from the waitlist to an open space, you will be removed from the alternate waitlist for the same discipline/class after acceptance.

No Show

Actively enrolled students who are not present at the first class meeting MAY be dropped by the instructor, and their seat MAY be given to a student on the waitlist.

Add Code

Students who are granted to add a class after the course has started will be given an add code to be used by the student to immediately register online for the course.

Auto-Enrollment from the Waitlist Frequently Asked Questions

Can any student get on a waitlist?

You are eligible to be placed on the waitlist if: there are waitlist openings for a class section, you meet the class prerequisite, you have no repeat errors, you have no holds on your records, or the class units will not exceed your maximum waitlist units allowed.

What is auto-enrollment from the waitlist?

This is a daily process that enrolls students into their classes from the waitlist. Once the class is full it is marked as closed then only students from the waitlist may be enrolled in the course. If one seat becomes available in a course, then student number one on the waitlist is automatically enrolled from the waitlist provided there are no holds, time conflicts, prerequisites, repeat issues, or duplicate course errors.

How does the waitlist process work?

When seats become available in a closed class section, the class remains closed until a process runs that automatically enrolls students from the waitlist. The class remains closed until the waitlist empties or the enrollment capacity has been met, whichever comes first.

If a student does not meet the criteria to enroll in the class (see FAQ #1), the process will select the next student on the waitlist according to their position number.

Students that were on the waitlist and were not enrolled will maintain their position number. Students will have an opportunity to be auto-enrolled the next time a seat is made available, if they resolve the issue that prevented them from being auto-enrolled previously.

If the waitlist process runs and no students are enrolled, then the class will open and other students will be given the opportunity to enroll (even if there are still students on the waitlist that did not meet the criteria to be auto-enrolled).

If there are no students on the waitlist, the class will open as usual when seats are made available.

If an enrolled student drops classes how are students moved from the waitlist into the open seats?

Students are auto-enrolled from the waitlist into the course by their priority ranking on the waitlist. For example, if a class is full, and three students drop, students ranked 1, 2, and 3 will be auto-enrolled from the waitlist. The student who was previously ranked number 4 will now be ranked number 1. If another student drops the course, he or she will be the next student to auto-enroll. This scenario will continue until the waitlist is empty, or the class is full, or the waitlist is closed at 11:59 PST two days before the session begins.

By adding themselves to the waitlist a student is acknowledging that they understand that they will be auto-enrolled and will be responsible for the enrollment fees and/ or dropping the classes if necessary.

How do I know I was moved from the waitlist to the active class?

If you are moved into a class from the waitlist, an email will be sent to the student's LACCD email account notifying them of the registration. It is important that you activate and monitor your LACCD emails during the registration period. If you decide you do not want to be enrolled in the class after you are moved from the waitlist, you must officially drop the class.

When is the first and last day to get on a waitlist for a class?

Students cannot get on a waitlist until their enrollment appointment or open enrollment has begun.

The last day to get on a waitlist for a class will be 11:59 p.m., two days before the session begins.

Waitlists are only available once the class has reached the enrollment capacity. For an extremely popular course the waitlist may be activated very early in the registration period.

How do you know if a class has a waitlist?

The waitlist option is only available once all seats in a class have been filled and the section closes. When a Class Search is performed to include these closed classes, users will notice a yellow triangle beside classes that have available waitlist seats. Once the waitlist capacity has been reached, the waitlist feature is unavailable and the blue closed class icon will display beside the section in Class Search.

Do all classes have a waitlist?

Not all classes have waitlists. If a course is listed as Instructor Consent, a waitlist is not available. Some disciplines do not use the waitlist functionality.

How many units can the student be waitlisted for?

Student may be on 12 units of waitlist in the fall and spring semester and 9 units for winter and summer.

Are the waitlisted units counted into the student's total units for the semester?

No. They are considered as two separate lists: Total units enrolled and total units on the waitlist. For example, if a student may enroll in 19 units districtwide and they are enrolled in 15 units and have 6 units on the waitlist that is fine. Even though $15 + 6 = 21$, which is greater than 19, this is not a problem.

Can the student be waitlisted for more than one section of the same class?

Yes. A student can waitlist multiple sections of the same class. They cannot pick their preference. The waitlist process will enroll the student into the first available seat according to descending class number. If the student is enrolled in a waitlisted class; the remaining waitlist requests for the same class will be automatically dropped.

For example, a student attempts to waitlist English 101 class number 10000 and English 101 class number 20000. If English 101, 10000 has a seat available and the student is eligible for enrollment they will be enrolled into the course and dropped from the English 101, 20000 waitlist. If both classes have seats available the student will be enrolled into the English 101, 10000 course and dropped from the English 101, 20000 waitlist because 10000 is lower than 20000.

If the student is on multiple waitlists and they are enrolled, they will be dropped from all of the other waitlists for that course.

Why wasn't a student enrolled from the waitlist when a student dropped from the active class?

There are several reasons why this can happen.

- The system does not make updates instantly. The processing happens on a prearranged schedule. If a student drops the class in the morning, the waitlist process will automatically enroll the next qualified student when the auto-enrollment cycle is programmed to run.
- The auto-enrollment may have exceeded the maximum number of units for the student's course load. This is 19 units for fall and spring semester, 9 units for winter and summer, but the maximum course load can be less if the student is a concurrently enrolled high school student or on academic or progress probation.
- The course may have prerequisites or co-requisites that have not been met.
- The student has registration holds. This might be caused by outstanding fees, an incorrect social security number, missing documents or other problems. These issues need to be corrected before any auto-enrollment can be completed.
- The class time conflicts with another class in which they are enrolled.
- The student attempted the class three times.

Can a student be both enrolled and waitlisted for different sections of the same class?

Yes, but the student cannot be enrolled into both classes.

- For example, suppose that a student was enrolled in Math 125, 10000 which meets on Mondays. They would prefer Math 125, 20000 which meets on Tuesdays. The student places themselves on the waitlist for Math 125, 20000. They will NOT be enrolled into that class even if they are eligible and there is a seat available. They must first drop themselves from Math 125, 10000 class.
- For classes that are very popular it is in the best interest of the student to remain in the class as enrolled. An attempt to drop the classes to get a better schedule time can often be detrimental to the student because several other students will be competing for the available enrollment seat.

Can a student waitlist for a class that conflicts (in meeting time) with an enrolled class?

Time conflicts will not be checked at the time that the course is added to the waitlist.

At the time of the auto-enrollment, time conflicts will be checked. If there is a time-conflict, the student enrollment will not be processed. They will not lose their place in the waitlist queue, but will remain there until the conflict is resolved. The students of lower ranking, but with no time conflicts, will be auto-enrolled before them.

It is in the student's best interest to not waitlist a course that would present a time conflict. Time conflicts cannot be overridden even if there is a small time overlap.

Can a student change their waitlist classes?

Yes, the student can change the courses in their waitlist at any time. There is a limit to the number of students that can be on a specific course waitlist. If you drop yourself from the waitlist, then want to add yourself back to the same waitlist, your position number will be different. By dropping from the waitlist you will forfeit your placement on the list.

What happens if the student is not auto-enrolled from the waitlist and the session begins the next day?

To try to enroll in the waitlist class, you must attend the first class session and ask the instructor for a permission number. Only the course instructor can provide a permission number. The student will then enroll into the course with the permission number.

Can a student add any classes to their waitlist?

Yes, unless the class is listed as Instructor Consent, or there is a course prerequisite. Any issues related to course requirements will be checked at the time of auto-enrollment, not at the time that the course is added to the waitlist.

The prerequisite requirements for a course will be checked when the student attempts to add the course to the waitlist and at the auto-enrollment time. If a student has not satisfied the course prerequisite they will be blocked. It is presumed that a student concurrently enrolled in a prerequisite class will pass it and therefore satisfy the prerequisite requirement for the next class in the following semester.

- For example, if a student is enrolled in Spanish 1 and they wish to waitlist for Spanish 2 for the next semester that request is permissible. If a student has taken Spanish 1 and received a substandard grade such as an F, they will not be allowed to waitlist Spanish 2 because the student has not satisfied the course prerequisite.
- If the prerequisite is not satisfied after the grades are posted, the student will be dropped from the course.

Can a course be cancelled while a student is on the waitlist?

Yes, at times there may be a need to cancel a course. This means that the waitlist associated with that course will also be cancelled.

How do instructors know who is on the waitlist?

Faculty can view their waitlists by using the Faculty Self-Service in PeopleSoft.

Can students see who else is on the waitlist for a class?

No, a student can only view his or her own status on the waitlist for a class.

Can a student change the grading option for a waitlisted class?

No, this is not supported while the course is in the waitlist. If and when the student is auto-enrolled from the waitlist, they can change the grading basis if the course supports grading options.

Can a student's waitlisted rank be changed after it was created?

If a student on the waitlist is auto-enrolled in a class, the next student will move up on the waitlist and be issued a higher waitlist number.

Can faculty change the waitlist order?

No. The waitlist cannot be modified by an instructor.

If the student hasn't met the prerequisites, can the student register for a class or for a waitlist?

No. The student cannot request to place a course on the waitlist if the prerequisite is not satisfied. If the student has taken the prerequisite course at another college outside of the LACCD, then the student must visit the Admissions and Record's office to complete and submit the prerequisite challenge form. When approved, the online information system will recognize that the prerequisite has been satisfied.

The only exception is if the student is presently enrolled in the prerequisite course. The system assumes that the student will satisfactorily complete the course with a passing grade and therefore be eligible for the next course.

What are the chances of getting into a class if the student is on a waitlist?

It is entirely possible that a waitlist ranking of #1 may still not result in an auto-enrollment for a course. This course may be a very popular course and actively enrolled students might not drop out. Another course may have a good number of student drops and several students on the waitlist could be auto-enrolled.

Students should use the waitlist as a strategy to improve their course selection, but they should not assume they will get their waitlisted course.

If a student is ranked number 1 on the waitlist does that mean that they will be auto-enrolled in the course as soon as a seat is available?

Yes, if there is a seat available and there are no issues related to the auto-enrollment. Problems include:

- Enrollment in another section of the same course.
- Time conflicts
- Student registration holds
- Unsatisfied prerequisites or corequisites
- Exceeding term unit limits
- The student has already taken the class

How often can the student check on their waitlist status?

The student can view their waitlist status at any time that the online student self service is available. Except for scheduled system maintenance, the system is available every day, 24/7.

What if the student does not get into a class for which the student is waitlisted?

The student may attempt to take the class another semester or take a different section of the same course or can attend the first day of class and request a permission number from the instructor.

If an enrolled student drops a full class and a seat opens, do waitlisted students get in first?

Yes, ONLY the waitlisted students may enroll in the course.

Are students required to pay for a class if they are on the waitlist?

No. Students only pay for classes after they are actively enrolled.

Enrollment fees are assessed after a student is officially registered in a class and must be paid by the fee payment deadline. To view the enrollment fee due dates, click on "Student Account" tile on the Student Portal homepage and Charges Due for details.

If students are approved for a California College Promise Grant formerly known as BOG Fee Waiver or have anticipated financial aid your Account Inquiry page will reflect the award.

Enrollment may be cancelled for some or all of your course(s) if payment is not made in full by the fee payment deadline. It is important to remember that placement on a waitlist does not guarantee a seat in the class. Students on a waitlist after classes begin should attend the first class meeting to determine if space is available.

Can a student be dropped from the waitlist?

Yes. A student may drop themselves from the waitlist.

How many waitlist seats are available for each class?

The number of seats on the waitlist is determined by the academic department. The waitlist number can vary by subject and course.

Can students' waitlist for more than one section of the same class?

Students can waitlist for multiple sections of the same class, with the following stipulations:

Students cannot choose their preference for which section they will be auto-enrolled first. The waitlist process will enroll the student in the section that has the first available seat.

Once enrolled in one of those class sections, students will be automatically dropped for the other waitlisted sections for that course.

If students are already enrolled in another section of a class they want to waitlist, the SWAP feature should be used to enroll and waitlist for the closed section.

When should the "SWAP" enrollment feature be used?

If students are already enrolled in another section of the class for which they want to waitlist, SWAP should be used. If students use the ADD enrollment feature to get on a waitlist for a different section of the same class, they must DROP the section in which they are enrolled before they will be moved from the waitlist.

Students may also want to use SWAP if there is a known time conflict between an already enrolled class section, and the section for which they want to waitlist. If students get on a waitlist using the ADD enrollment feature, they will not be auto-enrolled into the waitlisted class until they DROP the class that presents the time conflict or the class.

Finally, students may want to use SWAP if they are already enrolled in the maximum number of units for a term and want to still get on a waitlist. If a student gets on a waitlist using the ADD enrollment feature, they will not be auto-enrolled into the waitlisted class until they DROP a class that would allow the waitlisted class to fall within the maximum number of allowable units to be enrolled in for a semester.

If students are not enrolled from the waitlist due to any of these issues, they will be passed over and the next eligible student on the waitlist will be auto-enrolled.

Can students get on a waitlist if there is a time conflict with a class section in which they are already enrolled?

The self-service enrollment process does not check for a time conflict when a student is placed on a waitlist. At the time the auto-enrollment process runs, students will not be enrolled in the class if the time conflict still exists. Students will need to drop the class that prevents the time conflict if they want to be moved from the waitlist.

Ideally, students should use the SWAP feature when getting on a waitlist for a section that presents a time conflict with an already enrolled class. That way, if a seat opens in the close section the student will be automatically dropped from the previously enrolled section.

Course Drops and Withdrawals

20% of the term – No record: Students who drop or withdraw from a course by filing the appropriate drop card with the Admissions Office before the end of 30% of the term will not have the course recorded on their transcript.

75% of the term – W is recorded: Students who drop or withdraw from a course between 20–75% of the term will have a notation of “W” (withdrawal) recorded for the dropped course on their transcript. Effective Fall 2009 Title V limits the enrollment in the same course in which a student has received four (4) “W’s”.

After 75% of the term – Grade required: Students who remain in a course beyond 75% of the term shall be given a grade by the instructor for that course: THE GRADE CANNOT BE a “W” (withdrawal). The grade given by the instructor must be one of the following: A, B, C, D, F, INC., Pass or No-pass.

Short-term Courses:

All short-term classes have shorter deadlines than a Full-Term course. Please consult with Admissions or your instructor about specific deadline dates.

Student Fees

A picture ID must be presented for all Fiscal Office transactions, except when a student is picking up a Financial Aid check or any student loan checks when two legal IDs are required.

Enrollment/Tuition Fees

It is the student’s responsibility to pay for all tuition and fees at the time of class enrollment.

- California Residents: California residents are required to pay *\$46 per unit.
- Non-California Residents: Non-California residents are required to pay non-resident tuition fee of *\$359.00 per unit, in addition to enrollment fee of \$46 per unit.
- Non-U.S. Residents: Non-U.S. Residents will pay *\$359.00 per unit.

*subject to change by Board action

Non-Resident Tuition Payment Policy

It is the student’s responsibility to pay all tuition and fees at the time of class enrollment.

Concurrent Residents (K to 12th Grade Students)

Enrollment fees are waived for special part-time concurrent resident students taking 11 units or less, but required for special full-time concurrent resident students taking 12 units or more.

*Enrollment fees are \$46 per unit.

*Fees are subject to change by Board action

Concurrent Non-California and Non-U.S. Residents (K to 12th Grade Students)

Concurrent non-resident students will be required to pay non-resident tuition fee of \$359.00 per unit.

*subject to change by Board action

Health Fee

The Los Angeles Community College District charges a \$19.00 per Spring or Fall semester (and \$16.00 per Winter or Summer sessions) mandatory Health Fee payable to one LACCD campus only to cover costs of the Student Health Center. Students may be exempt from paying the Health Fee if they are enrolled in off-campus classes, or for religious reasons. Contact the Student Services Office (for exemption procedure.) (323) 265-8742.

Parking Fee

Students, visitors, and unclassified staff are not permitted in faculty/staff designated stalls. Violators are subject to citation.

Spring and Fall Semesters

- Regular Student parking is \$20. This entitles you to park in the Stadium Parking Lot, Avalanche Way, and South Gate A and B lots.
- ASU permit is \$27. This entitles a student to park in the non-faculty and staff parking spaces at parking structures P3 and P4, the Stadium Parking lot, Avalanche Way, and South Gate A, B and Main lot.

Summer and Winter Sessions

- Regular parking permit is \$7. This entitles a student to park in the Stadium Parking Lot, north and South Avalanche Roads.
- ASU permit is \$10. This entitles a student to park in the non-faculty and staff parking spaces at parking structures P3 and P4, the Stadium Parking lot, Avalanche Way, and South Gate A, B and Main lot.

One-Day Permits – \$2

- One-day permit machines are available at the middle section of the Stadium Lot, the 6th floor of Parking Structure 3, and the 3rd & 5th floor of Parking Structure 4. One-day permits are only valid in the stadium lot and top levels of parking structures 3 & 4.

The Fiscal Office is NOT responsible for parking citations given to students. All parking citations/appeals are handled by the ELAC Sheriff's Department located on the stadium concourse (323) 265-8800. Students are responsible for understanding where they are allowed to park. Due to ongoing campus construction, information is subject to change. Please read all posted signs. Lost or stolen permits cannot be replaced. A new permit must be purchased while supplies last. There is a one week grace period at the beginning of each semester.

ASU Membership Fee

The Associated Student Union Fee for Spring or Fall semesters and \$7.00 for Summer or Winter. Students are strongly encouraged to join ASU and become active in student activities and student government. Membership privileges include Student Government; ASU parking benefits; discounts to ELAC sports and other on-campus events; amusement park discounts such as Magic Mountain, Aquarium of the Pacific, and Universal Studios; off-campus discounts to participating stores.

Instructional Materials Fee

Students may be required to pay for instructional and other materials required for some courses. Such materials shall be of continuing value to a student outside the classroom setting and shall not be solely or exclusively available from the District.

Audit Fee

Students are required to pay a fee of \$15 per unit to audit a class. Students enrolled in ten or more units of for-credit classes will not be charged a fee to audit three or fewer units per semester.

Auditing can only be authorized by the class instructor once the class has started. Audit classes cannot be dropped and no academic credit will be received.

Fee Refund Policies

A picture ID must be presented for all refunds.

Full-Term Courses

A student will receive a full refund of the enrollment fee up to the refund deadline (see refund deadlines for enrolled classes on the Student Portal).

Thereafter, no refund is authorized, except when college action to cancel or reschedule a class necessitates the drop. Please note that after the refund deadline there will be absolutely no refunds.

Short-Term Courses

Please consult your instructor or Admissions Office regarding drop dates. Dates may vary; therefore, please make a note of the dates given. There will be no refunds after that time, unless a class was canceled or rescheduled by the college administration.

Non-Resident Tuition

Refunds of non-resident tuition fee paid by non-resident students enrolled in full-term or short-term courses are governed by the same policies, indicated above.

Parking Fee

Refunds for parking permits are given for permits returned to the Fiscal Office on or before the refund deadline. Deadline date is the same date as the last day to drop without having to pay fees. It is the student's responsibility to be aware of all deadlines. Please check the student portal for specific deadlines.

Health Center and Associated Student Union Fees

Refunds for the health center and/or associated student fees are made only for students who drop all their active units by the refund deadline (see refund deadlines for enrolled classes on the student portal).

Students who withdraw after the refund deadline will not be given a refund. Once the ASU sticker issued it is non-refundable.

Attendance Policies

Regular Attendance

The student is expected to attend every meeting of all classes for which he or she is registered. Attending a class without being registered is contrary to the Los Angeles Community College District rules and cannot be used as the basis for a petition to add a class. Students who have enrolled for a class and who do not attend or who are late or absent from the first meeting of the class forfeit their right to a place in the class.

Mitigating circumstances may be considered by the instructor. Whenever absences "in hours" exceed the number of hours the class meets per week, the student may be excluded from class by the instructor.

1. If a student stops attending a class, it is the student's responsibility to officially drop the class.
2. It is the student's responsibility to consult with his or her instructor regarding any absences that could result in exclusion.

3. Concurrent enrollment in more than one section of the same course during a semester is not permitted. Violation of this regulation will result in exclusion from class and denial of course credit in both courses.

Tardies

Three tardies will be considered the equivalent of one hour of class absence. Continued tardies may result in exclusion.

Prerequisite, Corequisite, and Advisory Definitions

Prerequisite

A prerequisite is a measure of readiness for a course or program that a student is (required) to meet as a condition of enrolling in a course or program. A prerequisite may be a course, activity, audition, test or similar measure of readiness. Prerequisites in many disciplines are now checked by computer and are strictly enforced.

Corequisite

A corequisite is a requirement that (MUST) be satisfied at the time a particular course is taken; usually a corequisite is concurrent enrollment in another course, but may, in certain situations, be completed at an earlier time.

Advisory

An advisory is a measure of readiness for a course or program that is (RECOMMENDED) for students. May be a course, activity, audition, test, or similar measure of readiness.

Registration Limitation

All students need to demonstrate they meet the prerequisite or corequisite requirement in order to register for the course. If a student meets the requirement through satisfactory completion of a course at East Los Angeles College or through Assessment placement, you will automatically be cleared for course registration. If you meet the course prerequisite or corequisite through other methods, you must submit a "Student Prerequisite or Corequisite Completion Petition" to Admissions by the deadline date, with supporting documents.

Student Prerequisite or Corequisite Policies

It is the student's responsibility to know and to meet all course prerequisites. These requirements are indicated following the course name and number. If prerequisites have been met at another college, students must file a "Prerequisite Completion Petition" with an unofficial transcript or assessment results.

Students who wish to challenge prerequisites or corequisites must file a "Prerequisite or Corequisite Challenge Petition" by the deadline date with documentation sufficient to support the challenge. In keeping with requirements and provisions of Section 55201(f) of Title 5 and Section I.B 1-3 of the Los Angeles Community College District Model Policy, East Los Angeles College has an established procedure by which any student who provides satisfactory evidence, may seek entry into a course according to the college's challenge process.

The Grounds for Student Challenges

(According to Section 55201(e) of Title 5)

1. Student has the appropriate documented knowledge or experience or ability to succeed in the course for which the prerequisite or corequisite is specified.
2. Requirement (prerequisite or corequisite) was not established by adopted L.A.C.C. district process, or was established in violation of Title 5.
3. Requirement is unlawfully discriminating or applied in an unlawful discriminatory manner.
4. Student will be delayed in completing their educational objectives by a semester or more in fulfilling the requirements for a degree or certificate because the prerequisite course has not been made reasonably available.

Student has specified an educational goal after having completed 15 units of college work with a GPA of C or better, have filed an educational plan 90 days after completing the said 15 units, and Alternate course to fulfill degree or certificate requirements are not available.
5. Student has the appropriate documentation to show that they do not pose a health or safety threat to others or myself in course for which a health or safety prerequisite is specified.
6. Student will be delayed in completing my educational goals by a semester or more in fulfilling the requirements for a degree or certificate because course enrollment was limited to students judged more qualified in intercollegiate competition, honors, or public performance or enrollment was limited to a particular cohort of students. Student filed an Educational Plan and specified an educational goal after having completed 15 units of college work with Satisfactory Academic Progress.

Student Prerequisite or Corequisite Process

1. A student must file proof of completion or challenge a course prerequisite or corequisite with either the "Prerequisite Completion Petition" or "Prerequisite or Corequisite Challenge Petition" form. These forms can be obtained from the Office of Admission and Counseling (E1 Building) or on-line at www.elac.edu.
2. The completed petition and any and all appropriate documentation (e.g. unofficial transcripts, verifications of experience, etc.) must be filed no later than 10 working days before a semester or session begins with the Office of Admissions.
3. The petition will be processed within 10 working days of its receipt, and the student will be notified accordingly.
4. If the petition is found to be justified, and no space is available in the course at the time the petition is filed, the student shall be permitted to enroll for

the next term. Enrollment will be permitted only if space is available when the student registers for the subsequent semester, or summer session.

5. In the event the petition is denied, the student may appeal the decision on the completion petition to the Dean of Admissions and the challenge petition to the Dean of Academic Affairs (GI 207).
6. Notification of the appeal decision will be sent to the student within five working days after its receipt by the Office of Admissions or Academic Affairs.

Unit Load

The normal class load for full-time students in the Fall or Spring semester is from 12 to 19 units per semester. Students who will be employed while attending college should reduce their programs accordingly. A college program of 15 units is equivalent to at least a 50 hour work week for most students. A student who desires to take more than 19 units must obtain approval from a counselor in EI Building.

Programs that Require a Minimum Number of Units

- International Students: 12 units
- Student Body Officers: Day 9 units, Evening, 6 units
- Athletes: 12 units including a Physical Education course or courses
- Social Security Program: 6 units
- EOPS Students: 12 units
- Financial Aid Students: At least 6 units

College Catalog

The current college catalog is available in the College Bookstore, online and Fiscal Office.

Classes Open to the Public

It is the policy of the District that, unless specifically exempt by statute, every course, course section or class, the average daily attendance of which is to be reported for state aid, wherever offered and maintained by the District, shall be fully opened to enrollment and participation by any person who has been

admitted to the college(s) and who meets such prerequisites as may be established pursuant to Chapter 2, Division 2, Part IV, Title 5 of the California Code of Regulations, commencing with Section 51820 (Adopted by Board action April 6, 1977).

Classes Subject to Change

The Los Angeles Community College District and East Los Angeles College have made every reasonable effort to determine that everything stated in this class schedule is accurate. Courses and programs offered, together with other matters contained herein, are subject to change without notice by the administration of the Los Angeles Community College District or East Los Angeles College for reasons related to student enrollment, level of financial support, or for any other reason, at the discretion of the District and the College. The District and the College further reserve the right to add, amend, or repeal any of their rules, regulations, policies, and procedures.

Privacy Act/Students' Rights

Congress has provided in the "Family Education Rights and Privacy Act" that students have certain rights.

- Right to inspect and review their educational records.
- Right to request amendment of records a students believes to be inaccurate or misleading.
- Right to consent to disclosure of personally identifiable information from education records by an educational agency or institution.
- Education records and directory information (address, telephone number) may be disclosed to school officials (administrator, faculty and staff) without prior consent, unless a student wishes to refuse the release of directory information.
- Under federal law, the military is entitled to receive directory information for recruiting purposes. A student can refuse the release of directory information by completing a "Release of Directory Information" form and submitting it to the Admissions Office.
- The Los Angeles Community College District is committed to protecting student privacy and currently uses collection and storage systems to eliminate the use of social security numbers as the primary method of student identification.

Grading and Academic Standards

Pass/No-Pass

The grade of P Pass will be given if the student's performance in class is equal to a "C" grade or better. The grade of "NP" (no credit) will be given if the performance in class is equal to a "D" or "FAIL" grade. Students may petition only those classes listed in the Catalog on a Pass/No Pass basis by the deadline date (see class schedule calendar).

Once a student's petition to take a course on a Pass/ No Pass has been approved, the student is not permitted to receive a letter grade in the approved course.

The symbol P or NP must appear on the student's permanent transcript for that course. "Pass/No-Pass" and "Credit by Examination" courses are listed in the College Catalog.

Credit by Examination

The College President may designate courses in the College Catalog which a student may challenge if the student meets the following requirements:

- a. Currently enrolled with a minimum cumulative grade-point average of 2.0.
- b. Completed 12 units of coursework within the Los Angeles Community College District.

- c. Not currently enrolled in, or have completed, a more advanced course in that discipline.
- d. The maximum number of units for which a student may petition for credit by examination at the College shall be 15 units.

Grade Request Procedures

Students will be able to receive information on their grades through the Student Information System online. If you need a copy of your grades, you can obtain a one semester grade printout from the internet. This printout is NOT a Transcript or a Verification of Enrollment. If you need an Official Transcript or a Verification of Enrollment, you may order them from the Admissions Office.

Incomplete

An "INC" (incomplete) must be made up by the deadline established by the instructor. The deadline may not be any later than one year following the end of the term in which it was assigned.

Scholarship Standards

A student is expected to maintain at least a "C" average (2.0 grade point average on a 4.0 scale).

Scholastic Probation and Dismissal

Students shall be placed on academic probation, if after attempting a minimum of 12 units, any of the following occur:

- a. Low Grade Point Average. The student has a GPA less than a "C" (2.0).
- b. Transfer Student. The student has transferred with a GPA less than "C" (2.0).
- c. Progress Probation. When the percentage of all units in which grades of "W" (withdrawal), "INC" (incomplete), and "NP" (no credit) reaches or exceeds 50%.

A student on academic probation shall be dismissed from the college if:

- a. The cumulative GPA is less than 2.0 in all units attempted in two consecutive semesters.
- b. If the cumulative percentage of "W", "INC", and "NP" grades are 50% or greater in two consecutive semesters. Dismissal from one college in the Los Angeles Community College District shall disqualify a student from admission to any of the other eight colleges within the District.

California College Promise Grant

Loss of Eligibility

A student eligible to receive a CCPG shall lose eligibility if they are placed on academic or progress probation for two consecutive semesters. Loss of eligibility shall become effective at the first registration opportunity after such determination is made. Foster youth, or former foster youth under the age of 24, are exempt from the loss of fee waiver due to academic or progress probation.

Appeal of Probation and Loss of Fee Waiver

A student who is placed on academic or progress probation may submit a written appeal in compliance with regulations issued by the Chancellor. A student who has lost the CCPG due to academic standing may submit a written appeal of that standing in accordance with existing regulations issued by the Chancellor.

Zero and Low Textbook Cost Sections

Zero Textbook Cost

Zero Textbook Cost sections are designated with the ZTC symbol in the class schedule, and do not require students to purchase a textbook. These sections may use free, openly licensed teaching and learning resources, such as Open Educational Resources (OER) or resources that are provided by the institution (like library eBooks) but for which students incur no cost. ZTC sections may require items such as lab supplies, calculator, test forms, etc. that incur a cost for students, but they do not have conventional textbook fees.

Students can learn more about these options, including how to search for Zero Textbook Cost (ZTC) and Low Textbook Cost (LTC) courses by visiting <https://bit.ly/SearchZTCatELAC>.

Low Textbook Cost

Low Textbook Cost sections are designated with the LTC symbol in the class schedule. The total cost of books, textbooks, and/or other instructional resources for this section will not exceed \$50.00.

Removal from Probation and Reinstatement of Fee Waiver

A student shall be removed from academic or progress probation and have their fee waiver restored when his/her cumulative grade point average is 2.0 or higher or when the percentage of units for which entries of "W" (Withdrawal), "I" (Incomplete), "NC" (No Credit) or "NP" (No Pass) are recorded drops below fifty percent (50%).

Notification

East Los Angeles College and the LACCD shall notify students placed on academic or progress probation of their status no more than 30 days after the end of the term that resulted in academic or progress probation. The notice shall clearly state that two consecutive primary terms of probation will lead to loss of the CCPG.

The college shall make reasonable efforts to provide counseling and other support services to help students on probation overcome academic difficulties. Colleges should also help mitigate potential loss of the CCPG and ensure that students have the opportunity to receive appropriate counseling, assessment, advising, or other services on a timely basis.

The college shall make reasonable efforts to notify a student of removal from probation, reinstatement after dismissal, and restoration of CCPG within timelines established by the District in consultation with the campus Academic Senate. Probation, dismissal and loss of CCPG policies and procedures shall be published in the college catalog.

Academic Renewal

Students who have a 2.5 grade point average in their last 15 units or 2.0 in their last 30 units completed at any accredited college or university may petition to have up to 30 units of "D" or "F" grades removed from cumulative grade point average consideration provided such course work was completed one year prior to effective date of petition. The grade point average will be based on the most recently earned grades for the first 15 units of repeated work. After these first 15 units the grade point average will be based on all grades assigned and on all attempted units.

Note: Graduation honors and awards are based on full cumulative grade point average.

Dean's Honor List

Students with outstanding scholastic achievement are given public recognition through the Dean's Honor List.

Consideration is given to all students who have completed no more than 70 units and is awarded by semester.

To qualify, a student must earn a grade point average of 3.5 or better in 12 or more units in degree applicable courses, excluding an "INC", "P", and "RD's".

Part-time students must earn a grade point average of 3.5 or better in 9 or more units degree applicable courses, excluding an "INC", "P", and "RD's" in courses leading to a degree.

Repetition of Courses

Non-Passing Attempts

Academic credit courses taken at East Los Angeles College or another campus within the Los Angeles Community College District in which a final grade of W, D, F, or NP was received may be repeated up to three times. Students can petition for a 4th attempt of the same course with three unsuccessful attempts (W, D, F or NP) under special circumstance consideration through the office of Admissions. Please see the semester calendar for deadline petition dates.

Passing Attempts

Student who receive a passing grade (A, B, C, P) for a course may petition to take the course again under recency requirements for certain medical professions. At least 36 months must have passed since the previous course was completed and any new grade earned will not be counted in G.P.A. Students may also repeat a course with a passing grade, if it is necessary for a student to meet a legally mandated training requirement as a condition of continued paid or volunteer employment, such courses may be repeated for credit any number of times, and the grade received each time shall be included for purposes of calculating the student's grade point average. The college shall establish policies and procedures requiring students to certify or document that course repetition is necessary to complete legally mandated training pursuant to this subsection.

A student with a disability may repeat a class any number of times, if such repetition is required as a disability-related accommodation for that particular student.

Federal & State Financial Aid

Dollars for Scholars! – FAFSA Financial Aid Program

How to Apply

Complete the FAFSA application online at www.studentaid.gov. Many students qualify but never apply for Federal and State Financial Aid. The Financial Aid and Scholarship Office processes Federal and State financial aid applications. The applications and processing are free. You do not have to pay back the grants. The grants will pay for the costs to attend college if you qualify.

It takes less than 30 minutes to apply for federal and state grants. They will pay your education costs in addition to the fee waiver, needed to attend college. The Free Application for Federal Student Aid (FAFSA) is available on the web at www.studentaid.gov.

When You File a FAFSA, You Will Be Considered For:

Grants: Funds that do not require repayment. (PELL, FSEOG, CCCG)

CAL Grants A, B, C: For California residents only.

Work-Study: Enables students to earn a portion of their financial aid award through a part-time employment either on or off campus.

Loans: Aid that you must pay back.

CCPG: Tuition fee waiver.

Enrollment Fee Sweeps

Students are required to pay fees immediately at the time of enrollment or apply for FAFSA financial Aid/fee waiver. The college may sweep enrollments for non-payment at any time.

Register at More Than One College!

Students registering for classes through the college's web-based registration system will also have the opportunity to register for classes at any of the other colleges in the Los Angeles Community College District – East L.A. College, L.A. City College, L.A. Harbor College, L.A. Mission College, Pierce College, L.A. Trade Technical College, L.A. Southwest College, L.A. Valley College, and West Los Angeles College. Students can also register for Instructional Television (ITV) classes as well.

Search for Classes on the Web!

Using the college's web registration system, students can search for available classes at any college in the Los Angeles Community College District. They can even search for a particular course by time and days of the week!

12,000 Classes to Choose From!

The opportunity to enroll at multiple colleges gives students access to over 12,000 classes throughout the nine colleges in the Los Angeles Community College District.

Web Registration

You may register via the internet! Log on to the ELAC website www.elac.edu Register at home or use the computer in the campus library.

Paperless Report Cards

Student Report Cards are no longer mailed. To access grades you may print a copy from the internet via the District website: <http://www.laccd.edu>.

Reminders!

Open enrollment for available classes can be viewed on the registration website.

It is the student's responsibility to pay all fees and tuition immediately after course enrollment.

If you have questions regarding registration, contact the Admissions Office

(323) 265-8966; (323) 265-8801; (323) 265-8712

Monday – Thursday, 8:00 am – 7:00 pm

Friday, 8:00 am – 4:00 pm

How to Login to the New SIS Portal

Logging in

1. Go to the new portal URL at: <https://mycollege.laccd.edu>

2. For Students, enter your Student ID in the "Student ID or User ID" textbox.
3. Enter your password in the "Password" textbox.

Student Default Password

Student default passwords will consist of:

88@ + the first character of your last name (capitalized)
+ the month and day of your birthdate (MMDD)

For Example, Jane Doe, who was born on July the 4th, her default password would be: 88@D0704

How to Update Your Password

You will be asked to update your password when you login for the first time.

Enter your old password and new passwords in their respective textboxes.

New password must contain at least seven alphanumeric characters: numbers, uppercase and lowercase alphabetical characters, and at least one special character.

Additionally, you may not use your prior three passwords as your new password.

After successfully updating your password, you will be redirected to the password registration page.

How to Access Your Office 365 Email

Login and you should be redirected to your Office 365 account.

If you are taken to the SIS Portal, click one of the email links, as seen below.

Career and Academic Pathways (CAPs) & Academic Maps

ELAC's degree and certificate programs are organized into eight Career and Academic Pathways (CAPs) based on interest areas, similarities in coursework, and career pathways. Explore our eight CAPs that lead to rewarding careers or preparation for transfer.

- Business, Law, and Information Technology
- Arts, Media, and Design
- Health Sciences
- Social and Behavioral Sciences
- Administration of Justice and Fire Technology
- Language and Communication
- Science, Technology, Engineering, and Mathematics
- Exploration and Preparation

Details about each CAP are available on the college website, where students can see which programs fall under each CAP, watch orientation videos, learn about upcoming CAP events, and discover which programs offer Zero Textbook Cost options.

Listed on each CAP webpage are academic maps for each degree, certificate, and program of study. Each map includes a recommended course sequence, as well as information about careers, course schedules, student support services, and advising notes. Students are encouraged to use the academic maps as a supplementary tool and work closely with their career and academic counselors.

An open access Canvas Course resource is available for all students on their Canvas Dashboard. The course, titled "ELAC Career and Academic Pathways", shares an introductory module into CAPs, maps, and career exploration.

For Faculty, there is a Canvas course for CAPs that can be imported into any class from the Canvas Commons. The course has a module for each of the 8 CAPs, with area specific information, videos, and slides, followed by a list of support service resources for all students.

AFRO AM 019 • Introduction to African American Studies (UC/CSU) • 3 Units

Requirement Designation: Meets Cal-GETC-4 or 6

This ethnic studies course introduces students to the field of African American studies. It investigates how African American studies came to be a discipline of study and the shapes it took in its initial formations. Students explore the ways that various community members, activists, students, teachers, scholars, artists, musicians, poets, and filmmakers have contributed to thinking about Black experiences both historically and contemporarily. Finally, students consider current Black struggles for freedom, for justice, and for humanity through an ethnic studies lens.

AUTOMO 301 • Manual Drive Train Axles (CSU) • 5 Units

This course presents the theory and skills needed to diagnose and repair manual transmissions, transaxles, and drive-line components. Topics include: Clutches, drive-lines, half-shafts, transmissions, differentials, transfer cases, and related four-wheel-drive systems. Theory and hands-on experiences are utilized and at least one rear wheel drive and one front wheel drive transmission are disassembled, inspected, and reassembled.

AUTOMO 401 • Suspension, Steering, And Wheel Alignment (CSU) • 5 Units

This course presents the theory and skills needed to diagnose and repair worn suspension components, steering components, drive axles, CV joints, and power steering components. Wheel alignment and wheel balancing on the latest computerized equipment is practiced. Upon successful completion of this course, students learn the theory and acquire the skills needed to pass the ASE examination.

AUTOMO 501 • Automobile Braking Systems (CSU) • 5 Units

This course studies the theory, operation, inspection, repair and diagnosis of the modern automotive brake system. Extensive hands-on training includes replacing worn brake components, turning drums and rotors, bleeding and adjusting brakes, and the diagnosis and repair of the anti-lock brake system. Upon successful completion of this course, students are able to perform a complete brake job and they have the skills and knowledge necessary to pass the Automotive Service Excellence (ASE) Brake Examination.

AUTOMO 701 • Automobile Heating And Air Conditioning (CSU) • 5 Units

This course is designed to provide instruction in the operation and repair of the modern automotive heating and air conditioning systems. With modern equipment students get hands-on experience testing, servicing, and repairing the automotive heating and air conditioning system as well as converting R-12 systems to R-134a system. In addition, the Mobile Air Conditioning Society (MACS) license exam is covered and the test administered during this class.

BIOLOGY 003 • Introduction to Biology (UC/CSU) • 4 Units

Requirement Designation: Meets Cal-GETC-5B or 5C

This course for non-majors examines the fundamental principles of biology with laboratories emphasizing hands-on investigations. Topics include an introduction to evolutionary theory, basic biological chemistry, cell function and reproduction, cellular respiration and photosynthesis, classical and contemporary genetics, gene expression and an introduction to animal structure and function. Meets UC/CSU GE requirement of natural science with a lab.

BIOLOGY 006 • General Biology I (UC/CSU) • 5 Units

Requirement Designation: Meets Cal-GETC-5B or 5C

Enrollment Requirement: Chemistry 065 OR Chemistry 060

This is a general biology course designed for life science and many pre-health majors. It examines basic cellular biology, metabolism, genetics, molecular biology, and the relationship between form and function of living organisms. Note: Some 4-year institutions prefer that Biology 6 and 7 be taken at the same college.

Biotechnology

BIOTECH 100 • Foundations of Laboratory Science • 4 Units

This introductory Biotechnology course provides theoretical knowledge and practical skills required in laboratory science. Lecture topics explain the structure of biotech companies, basic lab and manufacturing equipment, standard operating procedures (SOP), good laboratory practice (GLP), good clinical practice (GCP), and good manufacturing practice (GMP) according to OSHA and FDA regulations. Fundamental Biology topics include basic chemistry, macromolecules, organismal classification, cell types, cellular structures, cell division, DNA replication, transcription, translation, and gene regulation. Biomolecular topics cover of bacterial cloning, protein expression, as well as plant, animal, medical & forensic Biotech with discussion on bioethics and bioremediation. The laboratory component provides practical skills to prepare students for entry level work in biotech industry, including proper documentation, proper PPE and manufacturing gowning, scientific method, aseptic technique, laboratory math, metrology, light microscopy, centrifugation, solution and media preparation, culturing, isolating, staining, and identifying the morphology of bacteria.

17664	LEC 3:30 pm – 6:40 pm	M	Nguyen, T T	G5 209
Note: This is the first course in the series required for completion of the Biotechnology Program. Questions? Please email: biotech@elac.edu

BIOTECH 101 • Biological Molecules: Proteins and Nucleic Acids • 5 Units

Enrollment Requirement: BIOTECHNOLOGY 100 OR BIOLOGY 006

This course focuses on protein and nucleic acid chemistry. Both lecture and lab components provide the skills to prepare students for entry level work in biotech industry, including lab notebook maintenance, proper preparation of lab materials such as solutions, DNA gels, protein gels, and nutrient agar plates, primer design, DNA isolation, RNA isolation, restriction enzyme digest, DNA ligation, DNA gel electrophoresis, Polymerase Chain Reaction, RT-qPCR, bacterial transformation, protein production, protein isolation, column chromatography, enzyme-linked immunosorbent assay (ELISA), Sodium Dodecyl Sulfate Polyacrylamide (SDS-PAGE), Western Blot, Thin Layer Chromatography (TLC), and High Performance Liquid Chromatography (HPLC).

17666	LEC 3:30 pm – 4:55 pm	TTh	Nguyen, T T	G5 230

BIOTECH 103 • Quality Control and Regulatory Compliance in Bioscience • 2 Units

Enrollment Requirement: BIOTECHNOLOGY 100 OR BIOLOGY 006

This course provides foundational knowledge of quality control and regulatory compliance in the field of biotechnology as related to bioscience industries. Topics will include the product lifecycle, history of quality and regulations; Food and Drug Administration (FDA) regulations for the biotechnology, pharmaceutical, medical device, and food industries; good manufacturing practices (GMP); quality systems; quality assurance and quality control; ISO (International Organization for Standardization) 9000 standards family; continuous improvement tools and strategies; types of regulated documents and good documentation practices; resume/CV building and interview skills.

Business

BUS 001 • Introduction To Business (UC/CSU) • 3 Units

Students engage in a multidisciplinary examination of how culture, society, economic systems, legal, international, political, financial institutions, and human behavior interact to affect a business organization's policy and practices within the U.S. and a global society. The course demonstrates how these influences impact the primary areas of business including: organizational structure and design, leadership, human resource management, risk management and insurance, organized labor practices, ethics and social responsibility, marketing, organizational communication, e-business/technology, entrepreneurship, legal, accounting, and financial practices, and the stock and securities market; and therefore how they affect a business's ability to achieve its organizational goals.

BUS 015 • Business Statistics (UC/CSU) • 3 Units

Requirement Designation: Meets Cal-GETC-2

This course covers topics in regression, correlation, experimental design, sampling methods, and other statistical methods with emphasis on their application to problems in practical business administration operations. The students learn to apply the above statistical methodologies to business decision making and risk assessment.

Chemistry

CHEM 051 • Fundamentals Of Chemistry I (UC/CSU) • 5 Units

Requirement Designation: Meets Cal-GETC-5A or 5C

Chemistry 51 is a descriptive course in general, organic and biological chemistry designed for nursing and Allied Health students. Topics include: the metric system of measurements, chemical symbols, formulas and nomenclature systems, chemical equations and physical and chemical characteristics for all states of matter. Other topics include acids, bases, buffers and pH. Organic topics focus on functional group identification including hydrocarbons, organic halide, alcohols, ethers, ketones, aldehydes, amines, carboxylic acids, esters and other acid derivatives, carbohydrates, lipids and proteins are also surveyed.

CHEM 065 • Introductory General Chemistry (UC/CSU) • 4 Units

Requirement Designation: Meets Cal-GETC-5A or 5C

This course is a survey of basic chemistry topics. The course is intended as preparation for chemistry, some allied health majors, or for students completing their general education. Topics include atoms and elements, nomenclature, chemical bonds, chemical reactions, stoichiometry, energy and states of matter, gas laws, aqueous systems, solutions, and acids, bases and salts. Laboratory activities will support the range of topics covered in lecture including chemical laboratory safety, qualitative and quantitative experiments.

CHEM 101 • General Chemistry I (UC/CSU) • 5 Units

Requirement Designation: Meets Cal-GETC-5A or 5C

Enrollment Requirement: Chemistry 60 OR Chemistry 065

This is the first semester of a one-year course in general chemistry intended for majors in the natural sciences, (chemistry, biochemistry, biology, nutrition, physics, pre-medicine), mathematics and engineering. Topics presented in This course include chemical nomenclature, atomic structure, quantum theory, bonding theories and molecular geometries, chemical equations, oxidation-reduction, stoichiometry, thermochemistry, solid, liquid and gaseous states and related forces, gas laws, solutions and colligative properties, periodic relationships, and acid-base theories. Lab work involves both qualitative and quantitative analysis.

Requirement Designation: Meets Cal-GETC-5A or 5C

Enrollment Requirement: Chemistry 102

This course is the first part of a two semesters organic chemistry course sequence. Students are introduced to organic molecular structures, bonding, nomenclature including conformational analysis, potential energy plots, hybridization, stereochemistry and functional group chemistry, with emphasis on reactions and reaction mechanisms. It also includes the applications of instrumental methods in functional group analysis and identification of molecular structures. In the laboratory students learn the essential skills and techniques of preparation, isolation, purification, and analysis of organic compounds by employing standard and modern instrumental methods. This course also emphasizes the use and interpretation of Nuclear Magnetic Resonance (NMR), Infrared (IR) Spectroscopy and Gas Chromatography (GC) in the analysis and identification of organic compounds. This course is part of the transfer sequence for careers in the physical, biological, and health sciences and a requirement for the Associate of Sciences degree in Chemistry.

CHEM 212 • Organic Chemistry For Science Majors II (UC/CSU) • 5 Units

Requirement Designation: Meets Cal-GETC-5A or 5C

Enrollment Requirement: Chemistry 211

This course is a continuation of Chemistry 211 with emphasis on the remaining functional groups and aromaticity. Emphasis is put on reactions and reaction mechanisms, stereochemistry, multi-step synthesis of a variety of organic compounds such as aromatic compounds, alcohols, phenols, amines, heterocyclics, aldehydes, ketones, carboxylic acids and their derivatives. The structures, formation and reactions of enoles and enolate anions are also studied. The structures and functional group reactions of biological molecules such as carbohydrates, amino acids, polypeptides, lipids and nucleic acids are discussed. The laboratory work presents more techniques of multi-step synthesis, isolation, purification, and analysis of organic compounds using conventional and modern instrumental methods. This course also emphasizes the use and interpretation of Nuclear Magnetic Resonance (NMR), Infrared (IR), Mass Spectroscopy (MS), Ultraviolet (UV), and Gas Chromatograph (GC) in the analysis and identification of organic compounds. The Chem. 211 and 212 sequence satisfy the one year organic chemistry requirement for careers in the physical, biological, and health sciences and a requirement for the Associate of Sciences degree in Chemistry.

CHEM 221 • Biochemistry For Science Majors (UC/CSU) • 5 Units

Requirement Designation: Meets Cal-GETC-5A or 5C

Enrollment Requirement: Chemistry 211

The course is designed to provide an introduction to the principles, concepts and terminology of biochemistry, with an emphasis on the structure and function of biomolecules, the role of intermediary metabolism in energy production and common biochemical laboratory techniques. Topics include the chemistry and properties of three groups of biological macromolecules (proteins, carbohydrates and lipids) and their building blocks, protein structure and function, enzyme catalysis, and the details of the central metabolic pathways (glycolysis, glycogenolysis, the citric acid cycle, electron transport, and oxidative phosphorylation) including their regulation and integration. Throughout The course the organizing principles of biochemistry and the distinctive characteristics of the living state will be emphasized. The laboratory exposes the students to a variety of biochemical techniques and how they are used to evaluate biomolecules and biochemical systems. These techniques include spectrophotometry, various types of chromatography, enzyme assays, protein purification and others.

ELECTRN 121 • Cisco Essentials: Part1 CompTIAs A+ Hardware Certification (CSU) • 3 Units

Enrollment Requirement: Corequisites: Electronics 122 AND 126

This is course 1 of 2 for CompTIAs A+ Hardware Essentials Certification examination. This training covers all five-course objectives identified in the CompTIAs A+ Essentials Certification examination. This training helps students to successfully pass the A+ Essentials Certification examination. This IT certification is the stepping-stone for individuals seeking an IT career. The course covers the areas of PC hardware, networking, laptops, printers, and operational procedure. Also, students will have access to a NETLAB+ system, a virtual system that allows topology configuration via online, and upon online completion; students physically configure the topology in class.

13510	LEC 8:00 am – 9:05 am	T	Villanueva, E	E7 302

All textbooks/readings will be provided free of cost.				

ELECTRN 122 • Cisco Essentials: Part2 CompTIAs A+ Software Certification (CSU) • 3 Units

Enrollment Requirement: Corequisites: Electronics 121 AND 126

This is course two of two for CompTIAs A+ Software Essentials Certification examination. This training covers all five-course objectives identified in the CompTIAs A+ Essentials Certification examination. This training helps students to successfully pass the A+ Essentials Certification examination. This IT certification is the stepping-stone for individuals seeking an IT career. The course covers the areas of PC hardware, networking, laptops, printers, and operational procedure. ELECTRN 125 • CompTIA Network+ Certification Training (CSU) • 3 Units

This course introduces the fundamental building blocks that form a modern network, such as protocols, topologies, hardware, network architecture, and network operating systems. In-depth coverage of the most important concepts in contemporary networking includes TCP/IP, Ethernet, wireless transmission, network administration, support, troubleshooting WANs (Wide Area Networks), and security. Students develop the skills to implement the best network topology, hardware, and software for their environment, develop skills to build a network from scratch, and maintain, upgrade, and troubleshoot an existing network. Finally, Students are well prepared to pass CompTIA's (The Computing Technology Industry Association) Network+ certification exam.

ELECTRN 126 • Installing, Configuring & Administering a Microsoft OS (CSU) • 3 Units

Enrollment Requirement: Corequisites: Electronics 121 and 122

This course maps directly to Microsoft's Exam 70-680 & 70-698 Configuring Windows 7 & 10. This course provides students with the technical foundation in current operating system technologies. It covers PC architecture, preventive maintenance, and troubleshooting. It covers operating system installation, configuration, administration and performance optimization. This course also gives students a solid grounding in the fundamentals of computer security like access control, file and folder permissions, auditing and encryption. Students learn how to harden operating systems to repel attacks. This course prepares students to perform operating system support tasks including operating system batch and Windows script file programming. Also, students have access to a NETLAB+ system, a virtual system that allows topology configuration via online, and upon online completion; students will physically configure the topology in class.

13514	LEC 8:00 am – 9:05 am	W	Villanueva, E	E7 302

Engineering Graphics & Design

EGD TEK 102 • Engineering Graphics with CAD and Introduction to GD&T (UC/CSU) • 3 Units

This introductory course covers the fundamentals of traditional drafting, descriptive geometry, orthographic projection, graphical communication of technical engineering information and Computer-Aided Drafting (CAD). Topics include freehand sketching, lettering, and theory of orthographic and multi-view projections as well as Coordinate dimensioning and geometric dimensioning and tolerancing (GD&T). An introduction to CAD software package is presented to enhance visualization, instruction includes fundamental tools to create and edit basic drawings/parts by learning the Graphical User Interface (GUI) of the software. Essential skills developed include creating templates, creating basic geometric objects/parts, and dimensioning.

Engineering Support

ENG SUP 201 • Introduction to Engineering Technologies for Land Surveyors (CSU) • 2 Units

Enrollment Requirement: Engineering Support 121

This is an advanced computer applications course for land surveyors, civil engineers and technicians. The course teaches the development of geographic information system (GIS) maps, usage of global positioning system for data collection, terrain modeling for both transportation and flood control purposes, surface analysis and as-built surveys using 3D scanners, least square analysis for coordinate adjustments, the usage of a robotic total station, and photogrammetry and remote sensing data acquisition and analysis including the usage and practical application of unmanned aerial systems (UAS's).

Engineering, Elect Technology

EET 123 • Introduction To Arduino (CSU) • 2 Units

In this course, students gain new skills in programming and electronics engineering. Arduino is a groundbreaking, open-source electronics prototyping platform based on flexible, easy-to-use hardware and software. The Arduino board can read sensors, control motors and lights, and upload your hand-built code that interacts with the real world. Students learn the Arduino programming language, which is based on C/C++.

ENG GEN 101 • Introduction To Science, Engineering And Technology • 2 Units

This course explores the branches of engineering and engineering technologies, the functions of an engineer and a technologist, and the industries in which they work. Explains the educational pathways and effective strategies for students to reach their full academic and career potentials, by thorough understanding of academia and academic success strategies. Presents an introduction to the methods and tools of engineering problem solving and design including the interface with society, professional and engineering ethics, and lifelong learning. Develops communication skills pertinent to the engineering and engineering technologies professions, through hands-on project(s) and teamwork in diverse environments.

ENG GEN 122 • Programming And Problem-Solving In Matlab (UC/CSU) • 3 Units

Enrollment Requirement: Mathematics 261

This course utilizes the MATLAB environment to provide students with a working knowledge of computer-based problem-solving methods relevant to science and engineering. It introduces the fundamentals of procedural and object-oriented programming, numerical analysis, and data structures. Examples and assignments in The course are drawn from practical applications in engineering, physics, and mathematics.

ENG GEN 131 • Statics (CSU) • 3 Units

Enrollment Requirement: Physics 001 OR Physics 101 AND Mathematics 262.

This is a first course in engineering mechanics. Students will learn about two and three dimensional analysis of force systems on particles and rigid bodies in equilibrium. Topics also include static analysis of trusses and beams, and determination of center of gravity, centroids, friction, and moments of inertia of area and mass.

ENG GEN 212 • Introduction To Engineering Design (UC/CSU) • 3 Units

Enrollment Requirement: Engineering Graphics & Design 121

This is an introductory course in Engineering Design covering the engineering design process, step-by-step. Students achieve basic Engineering Design Core competency through hands-on, team-based, open-ended design projects. The project work is enhanced with lectures and reading on design theory and methods, and using manufacturing techniques and processes to build prototypes.

ENG GEN 220 • Electrical Circuits I (UC/CSU) • 4 Units

Enrollment Requirement: Prerequisite: Mathematics 263 AND Physics 003 OR 102

Corequisite: Mathematics 275

This course covers electric circuit analysis in time and frequency domains, transient, and steady state solutions. Topics include linear circuit analysis techniques, Kirchhoff's Laws, Network Theorems, mesh and nodal analysis, OP amps and amplifiers, Thevenin/Norton equivalents circuits, natural-forced-complete response of RLC circuits, AC circuits, phasors, three phase power, and frequency response and resonance. The laboratory includes experimental verification of the laws of AC and DC circuits, Kirchhoff's laws, and Thevenin's theorem using instruments such as multimeter, oscilloscopes, and signal generators. Laboratory will use National Instruments Laboratory Virtual Engineering Workbench (LabVIEW) with ELVIS II.

ENG GEN 225 • Digital Circuit Analysis (UC/CSU) • 4 Units

Enrollment Requirement: Mathematics 262 AND Physics 003

This course is an introduction to digital circuit analysis. Topics covered include the following: Number systems, computer arithmetic, and binary codes; binary logic, Boolean algebra, and logic gates; combinational circuits, analysis and design, including adders, MUX's, decodes, etc.; and sequential circuits analysis and design. In the lab students design, implement, and debug a combinational circuit; and perform implementation of combinational circuits using logic gates and programmable logic devices and design sequential logic circuits using gates, ROMs, and PALs. Students in the laboratory use National Instruments Laboratory Virtual Engineering Workbench (LabVIEW) with ELVIS II.

ENG GEN 231 • Dynamics (UC/CSU) • 3 Units

Enrollment Requirement: General Engineering 131

This course covers fundamentals of kinematics and kinetics of particles and rigid bodies. Topics include kinematics of particle motion, Newton's second law, work-energy and momentum methods, kinematics of planar and three-dimensional motions of rigid bodies, work-energy and momentum principles for rigid body motion, and an introduction to mechanical vibrations.

ENG GEN 241 • Strength Of Materials (UC/CSU) • 3 Units

Enrollment Requirement: Prerequisite: General Engineering 131

Corequisite: General Engineering 242

Plane stress-strain, axial, torsional, bending and shear stresses are studied, including combined loads, Mohr's Circle, principal stresses and strains, and pressure vessels. Generalized Hooke's Law, material properties, allowable stresses, factor of safety, statically indeterminate members, shear and moment diagrams; moment-area, and slope by double integration, singularity functions, superposition, moment-area, and Castigliano methods are also studied. Topics include thermal expansion, indeterminate forms and column buckling.

ENG GEN 242 • Strength Of Materials Laboratory (UC/CSU) • 1 Unit

Enrollment Requirement: Corequisite: General Engineering 241

This course is the experiment based exploration of the mechanical properties of engineering material through tensile test, torsion, shear, bending, compression, buckling of columns and metallography. This hands-on laboratory provides opportunities to directly experiment the behaviors discussed in the lecture course, General Engineering 241, to operate testing equipment, to analyze experimental data, plot and graph data and to prepare reports.

ENGLISH 101Z • College Reading and Composition I Plus 3-Hour Lab (UC/CSU) • 4 Units

Requirement Designation: Meets Cal-GETC-1A

English 101Z is a course in critical reading and prose writing designed to refine the student's skills in thinking logically, reading carefully, and writing effectively. Stress is placed on the organization and composition of objective expository essays, including the research paper. Course content is identical to ENGL C1000 with three additional lab support hours for students whose MMAP placement suggests such support is needed.

Management

MGMT 013 • Small Business Entrepreneurship (CSU) • 3 Units

This course provides a systematic approach to developing and operating a successful small business. The areas of study include: personal qualifications for starting and managing a small business, determining the market opportunity, legal procedures, planning and marketing the business, location factors, capital requirements, protective factors to provide for risk, and personnel management. Students gain experience through the development of a business plan.

Mathematics

MATH 173 • Object-Oriented Programming And Design (UC/CSU) • 4 Units

Enrollment Requirement: Mathematics 260

This course covers major programming concepts including theory, applications, and object-oriented programming, primarily in C++. Variables and basic data types, operators, bitwise arithmetic, control structures, input and output, arrays, multidimensional arrays, strings, an introduction to the Standard Template Library, functions, an introduction to recursion, structures, pointers, references, dynamic memory management, file handling, casting operators, namespaces, operator overloading, preprocessor directives, and exception handling are discussed in detail. Classes and object-oriented programming, including constructors and destructors, inheritance, virtual functions, polymorphism, interfaces through abstract base classes, and data encapsulation and modeling principles are also covered in detail. Differences between the Java language and C++ are discussed. Commenting of code and debugging are emphasized throughout the course. Examples from mathematics are included as well as a significant project requiring object-oriented design. Students gain practice in utilizing outside code via practice with a graphics API.

MATH 229 • Statistics for Data Science (UC/CSU) • 4 Units

Requirement Designation: Meets Cal-GETC-2

This course examines fundamental concepts that are the building blocks for data science work, include gathering and summarizing data (descriptive statistics) and relationships between variables, probability techniques, and distributions such as conditional probability and Bayes Theorem, and hypothesis testing to facilitate decision-making (inferential statistics). This course will analyze the pros and cons in decision theory through the exploration of sampling and control limits. Students will study correlation and regression analyses such as linear models for data science and multivariate regression and the application of technology for statistical analysis including the interpretation of the relevance of the statistical findings to data science. The course will examine applications using data from disciplines including engineering, business, natural and social sciences, and psychology. There will be a hands-on approach to statistical analysis using the tools (statistical software) of choice, such as Python and R.

MATH 270 • Linear Algebra (UC/CSU) • 3 Units

Requirement Designation: Meets Cal-GETC-2

Enrollment Requirement: Mathematics 262

Math 270 develops the techniques and theory needed to solve and classify systems of linear equations. Solution techniques include row operations, Gaussian elimination, and matrix algebra. Investigates the properties of vectors in two and three dimensions, leading to the notion of an abstract vector space. Vector space and matrix theory are presented including topics such as inner products, norms, orthogonality, eigenvalues, eigenspaces, linear transformations, and diagonalization. Selected applications of linear algebra are included.

12957	LEC 8:50 am – 10:15 am	TTh	Mohanty, S	G5 010
All textbooks/readings will be provided free of cost.				

MATH 272 • Methods Of Discrete Mathematics (UC/CSU) • 5 Units

Requirement Designation: Meets Cal-GETC-2

Enrollment Requirement: Mathematics 262

Math 272 introduces sets, relations, functions, and logic along with formal methods of proof such as contradiction, contrapositive, induction, diagonalization, recursion, and the Pigeonhole Principle. These ideas and methods are developed by looking at problems from combinatorics and counting, elementary number theory, and graph theory. Topics from map coloring, complexity, and cryptography are also discussed.

MATH 273 • Introduction To Data Structures And Algorithms (UC/CSU) • 4 Units

Enrollment Requirement: Mathematics 173

Math 273 is an introduction to the study of data structures and algorithms as well as an introduction to software development primarily in C++. The course begins with a short review of object-oriented programming, emphasizing utilizing and extending existing code through inheritance and interfaces. The review leads into more advanced topics including multiple inheritance, virtual inheritance, the diamond problem, templates, and multithreading. Complexity analysis, including Big-O notation, best case, worst case, average case, and amortized analysis are covered in detail. Data structures and algorithms are covered in a language-independent manner. Linked lists, stacks, queues, trees, heaps, and graphs are covered in detail along with associated implementation and memory management techniques. Algorithms for searching and sorting, including hashing, are covered in detail. Recursion, which was introduced in the previous course, is analyzed rigorously. The Standard Template Library is discussed in reference to each data structure and algorithm covered in the course. Software development is explored in the contexts of event-driven programming and video game programming. A large scale project requiring significant planning, collaboration, and documentation is required.

MATH 275 • Ordinary Differential Equations (UC/CSU) • 3 Units

Requirement Designation: Meets Cal-GETC-2

Enrollment Requirement: Mathematics 263 OR Mathematics 267

Math 275 provides the student with a basic understanding of the theory and content of ordinary differential equations. Various methods of solving these equations, especially first and second order, are emphasized as are solutions to physical applications problems. Other topics covered include existence and uniqueness theorems, systems of linear differential equations, numerical and graphical methods using computers, and the Laplace transform.

MEDIART 101 • Introduction To Digital Film Production (UC/CSU) • 3 Units

This course is a comprehensive overview of all aspects of digital film production from script concept to finished project, centering on basic theory and its application via exams, demonstrations, and hands-on experiences with digital media exercises. Legal aspects, such as releases and permits, related to video production are also covered. NOTE: Students will be required to provide instructional materials to complete class assignments. Additional out-of-class or lab time may be required to complete projects.

MEDIART 106 • Introduction to Smartphone Photography & Media (CSU) • 3 Units

Learn to use light, design, and storytelling to make smartphone photographs and video you take every day look amazing. Increase your control and creativity by understanding features of your device you may not even know exist. Course work is getting to know your phones camera and mic, strategizing ways to avoid mistakes, and analyzing the images you and your classmates make as they improve with every assignment. Your assignments are taking pictures and making videos. No previous experience in media or photography is needed.

MEDIART 111 • Intermediate Digital Film Production (CSU) • 3 Units

Enrollment Requirement: MEDIART 101

This intermediate course builds on the skills and techniques learned in Introduction to Digital Media Production. More advanced film/video cameras, lenses, lighting equipment, as well as cinematography techniques, and aesthetics, are covered. Camera support such as Steadicam and drones are introduced, as are advanced editing and post-production techniques such as effects, time remapping, color correction, and nonlinear storytelling. Formats such as feature films, television series, documentaries, and reality TV are explored. This course uses project-based hands-on learning to prepare students for entry-level work in production and post-production for news and entertainment.

Microbiology

MICRO 020 • General Microbiology (UC/CSU) • 4 Units

Requirement Designation: Meets Cal-GETC-5B or 5C

This course examines microbiological principles related to the morphology, metabolism and genetics of bacteria and distinguishing characteristics of viruses, protozoa, fungi, and multicellular parasites, with applications to human disease and immunology. The labs include microscopy, aseptic technique in the handling of bacteria, and isolation, cultivation, staining, identification, and control of bacterial populations. It is intended principally for allied health majors with 3 hours of lab each week.

PHOTO 123 • Photo-Discovery: Aesthetics, Craft, and Creativity (UC/CSU) • 3 Units

Requirement Designation: Meets Cal-GETC-3A

In this course, students explore the key personalities, commentary, technologies, and creative achievements in the history of photography and relate them to current craft and creativity in photography. The course examines how artistic choices and characteristics of photographic technology, both contemporary and historic, contribute to the meaning, design, storytelling, and beauty of photographic images. Students analyze the creative principles applied to making photographic images, including: Subjects and genres, choosing cameras and formats; composition, lighting, and the manipulation of tonality; the perspective effects of long lenses and short lenses; the focus effects of small apertures and wide apertures; the filter effects in black-and-white and color photography; the motion effects as a result of shutters speed; and other creative tools.

PHYSICS 021 • General Physics I With Calculus (UC/CSU) • 4 Units

Requirement Designation: Meets Cal-GETC-5A or 5C

Enrollment Requirement: Physics 11 OR Physics 17 OR Physics 20 AND Mathematics 261

Physics 21 is the first of a two-semester, calculus-based, sequence of general physics courses. (Physics 22 completes the sequence.) This sequence is recommended and designed for pre-medical students, life science students and other students that require a two-semester, calculus-based, sequence of physics courses. Topics covered in Physics 21 include mechanics, waves and fluids, with an emphasis on applications to the life sciences.

Transfer Assistance and Graduation Requirements

Overview

This section contains information about programs and services designed to help you transfer and/or graduate. It also lists the courses which will meet the graduation requirements for East Los Angeles College, and the courses which meet the transfer requirements of the University of California and the California State University.

East Los Angeles College services several programs which are specifically aimed at assisting students to transfer to the University of California (UC), the California State University (CSU), and to other four-year colleges and universities. These programs include:

- The Honors Program
- The Transfer Center
- Adelante
- Puente
- Mesa

Graduation Requirements

Following the transfer program summaries, this section goes on to list the major and general education requirements which must be met by students who wish to graduate by earning the Associate of Arts Degree or the Associate of Science Degree. There are two ways to meet the AA or AS degree requirements—by Plan A or Plan B—and the required coursework for each plan is described. Obviously, students who wish to earn the AA/AS degree should read these requirements carefully. If the requirements seem complicated or even confusing, please consult with a counselor to get them clarified.

Transfer Requirements for UC and CSU

Following the East Los Angeles College graduation requirements are two pages which list different ways you can meet the general education requirements for transferring to UC or CSU.

The first listing of transfer course requirements is known as the "IGETC" pattern. The letters stand for Intersegmental General Education Transfer Curriculum. The page lists

all the courses offered at East Los Angeles College which satisfy the general education transfer requirements for both the University of California and the California State University. The course information that is presented is no more than a simple listing of what courses will transfer. You should consult with a counselor and read the applicable pages in the College Catalog to obtain further information that you should know in regards to how to transfer.

The second listing of courses applies only to students who plan to transfer to the California State University, and who wish to complete their "General Education" requirements at East LA College. Students who meet the requirements, as listed, may petition the college for certification — certification means that after transferring, the student will not have to take any other lower division general education courses to meet CSU graduation requirements for the Bachelors Degree. Again, students should consult a counselor when planning a transfer program and read the applicable pages of the College Catalog to ensure that other important transfer requirements are met.

Transfer Center

Requirements

Scholarship Requirement

A "C" (2.0) grade average or better in all work attempted in the curriculum upon which the degree is based. Effective for all students admitted for the Fall 2009 term or any term thereafter, each course counted towards the major requirements must be completed with a grade of "C" or better or a "P" if the course is taken on a "pass-no pass" basis. (6201.11)

Competency Requirements

(Administrative Regulation E-79) The following courses and examinations are approved to meet the competency requirement for the Associate Degree as defined in Board Rule 6201.12:

For all students entering prior to Fall 2009:

- a. Mathematics Competency
(May be met by completion of one of the following)
- Completion of one of the following courses (or its equivalent at another college) with a grade of "C" or better:

Mathematics 115 or any higher level mathematics course with a prerequisite of Mathematics 115 or its equivalent.
Electronics 10, 12, 14
General Engineering Technology 121
 - Achievement of a score of 15 or higher on the District Mathematics Competency Examination.
- b. Reading and Written Expression Competency
- Completion of one of the following courses (or its equivalent at another college) with a grade of "C" or better:

English 28, English 61, English 62, English 63, English 65
English 101
Journalism 101
 - In meeting the Reading and Written Expression competency requirement, course work is the primary measure of competency. However, competency may be met through credit-by-examination, as determined by the individual colleges.

For all new/returning students entering beginning Fall 2009:

- a. Mathematics Competency
(May be met by completion of one of the following)
- Completion of one of the following courses (or its equivalent at another college) with a grade of "C" or better: Mathematics 120, 123C, 124A&B, 125, 127&128 or any higher-level mathematics courses with a prerequisite of at least mathematics 125 or its equivalent.
 - A score of 3 or higher on one of the following AP Exams: Calculus AB, Calculus BC or Statistics
 - Complete the college assessment exam in mathematics and achieve a score determined comparable to satisfactory completion of intermediate algebra (Mathematics 120, 123C, 124A&B, 125, 127 and 128). Students who place into a mathematics course above the level of intermediate algebra have met the competency requirement (BR 6201.12, Title 5, CCR, 55063).

Completion of a course that meets CSU GE Area B4 or IGETC Area 2A shall meet the Mathematics Competency.

- b. B. Reading and Written Expression Competency
(May be met by completion of one of the following)

- Completion of English 101 (or its equivalent at another college) with a grade of "C" or better.
- A score of 3 or higher on one of the following AP Exams: English Language and Composition or English Composition and Literature
- In meeting the Reading and Written Expression competency requirement, course work is the primary measure of competency. However, competency may be met through credit-by-examination, as determined by the individual colleges.
- Complete the college assessment exam in English and achieve a score determined comparable to satisfactory completion of English 101. That is, students who place into a English course above the level of English 101 have met the competency requirement.

Completion of a course that meets CSU GE Area A2 or IGETC Area 1A shall meet the reading and written expression competency.

Unit Requirements

A minimum of 60 semester units of course credit in a selected curriculum with at least 18 semester units of study in a major or area of emphasis and at least 18 semester units of study in general education. (6201.10)

Students must complete no fewer than 12 units at the college conferring the degree. Exceptions to residence requirements for the associate degree may be made through the colleges' petition process when it determines that an injustice or undue hardship would be placed on the student. (6201.13)

LACCD Associate Degree Requirements:

Minimum of 18 units in a single or related field. Effective for all students entering Fall 2009 or later, each course counted towards the major or area of emphasis requirement must be completed with a "C" (2.0 or equivalent) or better or a "P" if the course is taken on a "pass-no pass" basis.

General Education Requirements:

Minimum of 21 semester units. This plan may not be used for the Associate Degrees for Transfer (ADT's). ADT degrees require completion of either CSU GE or IGETC.

- a. Natural Science: 3 units
- b. Social & Behavioral Sciences and American Institutions: 6 units
- c. Humanities: 3 units
- d. Language & Rationality: 6 units
- e. Physical Education: 3 units

Check the college catalog for specific courses that meet these areas or see a Counselor for advisement.

What is EOPS?

EOPS is a state funded program that serves educationally and financially challenged students. Our program is designed to go above and beyond other services offered on campus and provide services to students who have the potential to succeed in college. We at EOPS assist students in completing a certificate, an Associate of Arts/Science Degree (A.A., A.S.) and/or transferring to a four year university. Our professional, friendly EOPS staff provides a great support system to students, which facilitates their personal growth and helps them accomplish their educational goals.

How Do I Qualify?

What About Financial Aid?

EOPS students should apply for financial aid each year. East Los Angeles College Financial Aid offers four basic types of financial assistance. These types are: scholarships, grants, loans, and/or part-time employment (Federal Work Study). In addition, EOPS students may receive grants.

What is the Care Program?

The Cooperative Agencies Resources for Education program (CARE) is for single parents who are receiving public cash assistance (TANF, AFDC, CalWORKS). The program assists students in achieving their academic goals and personal success. We understand the overwhelming

feeling of trying to balance the responsibilities of an education and parenthood. The program assists qualified students balance those responsibilities by offering additional financial assistance and support services.

Who is Eligible?

Students may be eligible for the CARE program if they satisfy the following requirements:

- Eligible and in good standing with the EOPS program
- Single parent head of household
- Receive public cash assistance (TANF, AFDC, CalWORKS)
- Have at least one child under 14 years of age

Monday - Thursday, 9:00am - 6:00pm

Friday, 8:00am - 12:00pm

The Financial Aid and Scholarship Office processes two types of financial aid. The office processes federal and state aid programs for low-income students.

The applications and processing are free. The federal application for financial aid is the Free Application for Federal Student Aid (FAFSA) and can be completed in less than 30 minutes.

The state applications for financial aid are the California College Promise Grant (CCPG), and the California Student Aid Program (Cal Grant). The CCPG can be completed in less than 10 minutes.

The applications are available in the Financial Aid and Scholarship Office. You can apply for federal financial aid at www.studentaid.gov. You can apply for state aid in the Financial Aid and Scholarship Office.

For faster processing it is highly recommended that the application be reviewed and submitted to Financial Aid and Scholarship Office in person.

Federal Financial Aid

You do not have to pay back the grants below.

- PELL Grants
- FSEOG Grants
- Federal Work Study

The loans below have to be paid back.

- Federal Direct Loans

The federal government uses a formula to determine the amount you will receive. The formula includes the cost to attend college based on the poverty level in the country. The formula is used for part-time and full-time students.

It is very important to apply early. You should apply six months (January to March) before the fall semester begins. You can apply at anytime during the academic (Fall and Spring) year. It may take two months to process by the government and campus. The PELL Grant is available throughout the year, but other grants have limited funding and may not be available if you apply late.

The U.S. Department of Education produces a Financial Aid - Student Guide.

State Financial Aid

You do not have to pay back the grants below.

- CCPG
- Cal Grants
- Child Development Grant
- CHAFEE Grant

The CCPG waives the registration fee for classes. The enrollment fees are waived for students who are low income or receiving public assistance (welfare), or determined by the federal financial aid formula. All students who qualify for CCPG must pay the mandatory health fee each semester.

The 2024-2025 income standards are based on 2023 income.

Family Size (2023 income)

1 (\$22,590)	2 (\$30,660)	3 (\$38,730)
4 (\$46,800)	5 (\$54,870)	6 (\$62,940)
7 (\$71,010)	8 (\$79,080)	
Each additional family member (\$8,070)		

Effective January 1, 2004, California College Promise Grant (CCPG) are available for dependents of a Congressional Medal of Honor recipient or a dependent of a victim of the September 11, 2001 terrorist attack.

The Cal Grant has an application deadline of March 2. Students applying for a Cal Grant need grade point average verification.

The Los Angeles Community College District produces a Financial Aid - Student Guide.

Parking Regulations

The Board of Trustees of the Los Angeles Community College District, in compliance with the laws of California, have established regulations regarding traffic and parking on campus, including, but not limited to, the following:

1. Any motor vehicle parked at East Los Angeles College between the hours of 7:00 a.m. and 10:30 p.m. must display a valid parking permit either suspended from the rear view mirror (facing out) or on the driver's side of the dashboard (facing up). Failure to display a valid parking permit will result in the issuance of a citation pursuant to California Vehicle Code (CVC) Section 21113(A).
2. It is the responsibility of the student/ instructor to properly display their permit.
3. Purchasing a permit does not exempt a student from receiving citations.
4. Board Rule #7401 “The Board of Trustees or the District will not be responsible for damage, loss of vehicle or its contents unless the District is liable under the Government Codes 810 to 966.6 inclusive.”
5. Vehicles parked in violation of campus or CVC regulations may be cited and/or towed away at owner's expense.
6. Parking permits must be obtained at the Fiscal Office and are presently \$20 per semester. Preferred Parking Permits also known as “ASU” parking permits are \$27.00 (\$7 ASU Fee + \$20.00 Parking Permit).
7. Students who have paid the ASU fees are allowed to purchase an “ASU” parking permit, which allows them to park in the P3 and P4 parking structures, Stadium Lot, and on the west end of the Access Road (Student stalls only). Students purchasing “Student” parking permits may only park in the Stadium Lot, and on the west end of the Access Road (Student stalls only). Purchasing a permit does not guarantee you a parking space, as spaces are on a first-come first-serve basis. Failure to display a valid permit will result in the issuance of a parking citation (CVC 21113[A]).
8. Handicapped students are allowed to park in all student lots. There are designated handicapped parking stalls in every one of these parking areas. To park in these stalls, vehicle must display a valid handicapped placard, along with a valid parking permit. Any vehicle parked in a handicap stall without displaying a handicapped placard will be fined (CVC Section 22507.8(A)).
9. All Faculty/Staff lots are restricted to Faculty and Staff only. Students are prohibited from parking in these designated lots (excluding handicap students displaying valid handicap permits).
10. The following permits are accepted on the Access Road:
 - Guest permit
 - Faculty/Staff Permit
 - Student Permit (ASU or Student)
11. College fire roads are restricted from any vehicle traffic or parking unless authorized by the College Police.

12. Parking along city streets is subject to regulations of the City of Monterey Park. Residential parking permits are issued by the City of Monterey Park for residents of the immediate vicinity of the college. Regulations are strictly enforced by the Monterey Park Police Department.

13. Lost, stolen, or damaged permits will not be replaced. Students are responsible for their permits.

Replacement Parking Permits are charged at full price:

- \$20 for Stadium Parking
- \$27 for ASU Parking

To Avoid Parking Citations Students Must Simply:

- Properly display a valid permit
- Park in the appropriate lot
- Legally park in a designated stall

Helps students with all writing assignments. Our tutors are highly trained to help students develop and organize their thoughts, enhance their writing, and improve their grammar. We provide quality service to all students who wish to strengthen their writing and critical thinking skills. This assistance is available for all subjects including the Social Sciences, Nursing, Child Development, and English. Our tutors are dedicated to enhance student learning with guided personal input, and we encourage students to take advantage of the Writing Center's one-on-one tutoring. We also offer group workshops, which cover topics such as brainstorming, developing and organizing ideas, writing thesis statements, analyzing texts, using proper punctuation, writing research papers, and researching in general.

Our purpose is to help students become stronger and more independent writers. However, the responsibility of making changes rests with students. During a tutoring session, tutors help students focus on their essay content while involving them in the learning process by having them reflect on their own work. When tutors read students' essays, they primarily take a holistic approach by first concentrating on thesis development, paragraph structure, overall essay clarity, close reading of the text (if applicable), and then review grammar/syntax/punctuation error patterns. Tutors do not proofread; instead they patiently guide students through the writing process, offering detailed advice and explanations on the essay structure and grammar.

Because students are our priority, we open early in the morning and close late at night. The Writing Center also offers grammar support programs, which aid students in strengthening their grammar skills.

Since the Writing Center is a free and helpful campus resource, it is highly recommended that students visit at least once a week. Please make an appointment.

Academic Advisement

The MESA program has its own STEM counselors to help students develop their educational plans and provide transfer guidance. The STEM counselors also assist students with personal statements, scholarship applications, and resumes. Appointments and drop-in advising is available. You may call (323) 780-6730 to schedule an appointment with the STEM counselors.

Meeting with Mesa Director

MESA students may need or be required to meet with the MESA Director for different reasons including Research Opportunities, Grade Point Average, Recommendation Letter and/or Advisement. You may call (323) 780-6730 to schedule an appointment with the MESA Director.

Tutoring Services

The MESA program provides tutoring services by MESA students or alumni in the fields of mathematics, engineering, chemistry, physics, biology, and computer science. The tutors schedules and information is available in the MESA Study Center.

Access to the MESA Loan Program

The MESA Loan Program provides MESA students the opportunity to borrow school materials for the academic semesters. These materials include text books and scientific/graphing calculators. According to availability, there may be a limit of materials a student may borrow and the loan program is first come first served.

Access to the MESA Study Center

The MESA Study Center is a place where MESA students come to study in a unique environment provided by a family oriented setting and the on-site staff. MESA students are able to focus on their academics by using the study center as location to study with other MESA students and to take advantage of what the study center has to offer. The MESA Study Center has computers, white boards, tables, a couch, and a television. MESA students are provided with dry erase markers, erasers, and scratch paper during their study sessions. The study center is a privilege to MESA students, and there are a set of rules the students must follow in order to use these services.

Scholarships, Internships, and Research Opportunities

Weekly emails inform the students about scholarships, internships, and research opportunities. If the student would like more information regarding a particular opportunity, they are encouraged to contact the MESA staff at (323) 780-6730. MESA staff is continuously looking for

opportunities for students. Whenever there are scholarships, internships, or research opportunities, MESA students are promptly informed via email or phone calls. The S-STAR Scholarship program accepts applications each fall and provides scholarships for ELAC STEM students.

Email and Information Updates

MESA students are notified about campus events, transfer information, student services, and other related information through weekly emails. MESA students have the advantage of knowing what services are offered throughout the campus ahead of time by through emails. It is the student's responsibility to provide the staff with an accurate and up to date working email address. This will facilitate the weekly emailing process for the advantage of the student. If the student does not receive emails, it is the student's responsibility to notify the staff about the issue.

Science Transfer Day

During the fall semester, MESA hosts a group of representatives from local universities who come and share information about majoring in mathematics, science, or engineering at their institution. This event is a great opportunity to learn about different schools and what they have to offer. All MESA students are encouraged to attend this event. Whether you are applying to transferring during the same academic year or in the future it is a great opportunity to learn about your major and local schools.

Field Trips and MESA Retreat

MESA students are invited on educational field trips with the MESA staff as well as other staff on campus. University field trips to local campuses as well as field trips to laboratories, industry sites, museums, and other locations are provided. In addition, once a year, MESA students are encouraged to participate in the MESA Retreat. The retreat is an opportunity to develop leadership skills, get to know fellow MESA members, interact with STEM faculty, and see how STEM skills are applied outside of the classroom. In collaboration with the California Connects Chancellor's office and The Foundation for California Community Colleges (FCCC), East Los Angeles College Math, Engineering, Science Achievement offers students of good standing with a free laptop, provided by the Department of Chamber Grant. Students are committed to expand computer literacy in the East Los Angeles region by volunteering and teaching computer skills to family and community members. In addition, MESA is collaborating with Computer Applications & Office Technologies (CAOT) and the Information Technology (IT) departments at ELAC in order to provide students with important computer skills through our IT Academy and a certipoint Microsoft examination certification.

Women/Gender Studies, Associate in Arts Degree

Overview

Women/Gender Studies at East Los Angeles College is an interdisciplinary academic program which aims to expand students' understanding and appreciation of women's lives and experiences both historically and in contemporary societies worldwide. In the Women/Gender Studies curriculum, students are exposed to the scholarship

and theoretical framework of Women/Gender Studies and learn how the application of a gendered lens has challenged traditional, historical, and cultural assumptions.

Listed below are the courses required for the major. Not all courses are offered every semester.

Check the current schedule for availability.

Prohibited Discrimination and Harassment

Summary of the Policy

This is an excerpt. The specific Rules and Procedures for reporting charges of Prohibited Discrimination and for pursuing available remedies are incorporated in the Board Rules in Chapter 15, Board Rules 1501-1522.

Copies of the policy and procedures may be obtained from the LACCD Office of Diversity Programs and campuses Websites, the Compliance Officer at each location, by calling the Director of Diversity Programs at 213/ 891-2315.

SEPTEMBER 2007

Los Angeles Community College District

770 Wilshire Blvd. Los Angeles, CA 90017 213/891-2000

Any member of the college community which includes students, faculty and staff who believes, perceives or has actually experienced conduct that may constitute Prohibited Discrimination or Harassment, has the right to seek the help of the college. Every employee has the responsibility obligation to report such conduct to the Compliance Officer (CO).

What Can You do About Prohibited Discrimination And Harassment?

Talk to the Offender

Often problems will stop once the offender realizes the conduct is unacceptable.

Put It in Writing

Let the offender know that you don't like being treated this way and will report him/her unless it stops.

Keep a Record

Record the date, time, place and names of witnesses and describe the exact nature of the incident.

Don't Ignore It

Ignoring Prohibited Discrimination and hoping it will not be repeated is the most common reaction, yet it is the most ineffective way to deal with such incidents.

Contact the Compliance Officer

Prohibited Discrimination should be reported immediately to the Compliance Officer or to another college administrator who will work with the Compliance Officer.

The Compliance Officer is always available to confidentially discuss any possible discrimination or sexual harassment complaint.

You Have the Right!

To work and study in an atmosphere free of harassment & discrimination

To be judged by the same criteria as all others, not by standards that are less demanding, or more rigorous, or different in any way.

To complain, free of retaliation Discrimination may include, but is not limited to the following type of behavior:

- exclusion from employment opportunities such as training, transfer or promotion
- allocation of poor grades based on one's protected class
- denial of reasonable accommodation because of a disability
- decisions based on stereotypes or assumptions about ones abilities, traits or performance

Sexual harassment may include, but is not limited to the following type of conduct:

- making unwelcome, unsolicited contact with sexual overtones (written, verbal, physical and/or visual contact)
- unwelcome pressure for dates
- display of sexually suggestive objects, cartoons, posters
- request for sex in exchange for grades, recommendations, job opportunities

The Policy

It is the policy of the Los Angeles Community College District to provide an educational, employment and business environment free from Prohibited Discrimination. Employees, students, or other persons acting on behalf of the District who engage in Prohibited Discrimination as defined in this policy or by state or federal law shall be subject to discipline, up to and including discharge, expulsion or termination of contract.

Academic Freedom

The Board of Trustees reaffirms its commitment to academic freedom, but recognizes that academic freedom does not allow Prohibited Discrimination. The discussion of ideas, taboos, behavior or language which is an intrinsic part of the course content shall in no event constitute Prohibited Discrimination, though such ideas may cause some students discomfort. It is recognized that academic freedom insures the faculty's right to teach and the student's right to learn.

Definition of Prohibited Discrimination

Prohibited Discrimination is defined as discrimination or harassment in violation of state or federal law on the basis of actual or perceived ethnic group identification, race, color, national origin, ancestry, religion, creed, sex (including gender-based sexual harassment), pregnancy, marital status, cancer-related medical condition of an employee, sexual orientation, age, physical or mental disability, or veteran status.

Definition of Sexual Harassment

Sexual harassment is unwelcome sexual advances, requests for sexual favors, and other verbal, visual or physical conduct of a sexual nature, made by someone from or in the workplace or in the educational setting.

Retaliation

Retaliation against anyone who makes a complaint, refers a matter for investigation or complaint, participates in investigation of a complaint, represents or serves as an advocate for an alleged victim or alleged offender, or otherwise furthers the principles of this policy.

False Allegations

Anyone who files a complaint in which he/she knowingly makes false allegations of fact shall also have violated this policy and shall be subject to disciplinary action.

Confidentiality

All persons involved in investigation of complaints shall have a duty to maintain the confidentiality of the matters discussed, except as may be required or permitted by law, which include the rules and regulations of the District. A complete record of each complaint and investigation shall be kept by the Director of Diversity Programs. The Written Decision or any Settlement Agreement regarding the results of the investigation shall be placed in the personnel file of each employee involved as an alleged offender, alleged victim or complainant.

Complaint Procedure

General Provisions

The Director of Diversity Programs is responsible for receiving complaints and coordinating investigations from within the District, from other governmental agencies, and from outside sources. Each College President shall designate a CO for the campus, not a faculty member, and the Chancellor shall designate the CO for the District Office. Each College President, in consultation with the ASO President, shall designate an employee who shall serve as Advocate for Students (AFS). All Supervisors shall be responsible for maintaining a work environment consistent with this policy. Any supervisor who becomes aware of a situation which could be reasonably perceived to be a violation of this policy must report it to the CO for his or her work site. All employees are responsible for maintaining an educational environment consistent with this

policy. Any employee who becomes aware of a situation which could reasonably be perceived as a violation of this policy should refer it to the CO for his or her work site. A summary of the policy shall be published in each college catalogue and class schedule. A copy given to new employees. The entire policy posted prominently. Complaints may be filed by persons other than the person who is the recipient of unwanted conduct. Complaints may also be filed with the State Chancellor's Office. The CO shall receive the complaint, and notify the complainant, alleged offender, the College President or District administrator, and the Director of Diversity Programs, within 5 business days of a potential violation of this policy. During the process of the investigation, the complainant/ victim and the alleged offender have the right to be represented.

Investigation

The CO shall promptly investigate all potential violations of this policy of which he or she becomes aware. The CO shall notify both the College President or, at the District Office, the Deputy Chancellor, and the Director of Diversity Programs that an investigation is being conducted. Such an investigation may be initiated on the basis of a Complaint, a referral from a Supervisor or employee, or any other information indicating a potential violation of this policy from any other source. In the absence of a complaint form and/or a formal complaint, the CO shall conduct a preliminary investigation, which shall be completed within 30 days after the CO becomes aware of a

potential violation. If, as a result of the preliminary investigation, there is a prima facie case of Prohibited Discrimination, the CO shall sign a formal complaint. A "prima facie" case means that there is evidence which, if unexplained or uncontradicted, would be sufficient to make a finding that discrimination had occurred. The formal investigation and Written Report shall be completed by a CO from another worksite. If there is not a prima facie case of Prohibited Discrimination, the CO shall advise the complainant and alleged offender in writing, with a copy to the College President or Deputy Chancellor, which may be appealed in accordance with these rules.

Informal Procedure

The CO shall undertake efforts to informally resolve and investigate the charges. This process is limited to 30 days. If a resolution is reached, the CO shall draft a Settlement Agreement to be signed by the alleged

victim/ complainant and the alleged offender. The CO shall monitor the situation to insure that the resolution is properly implemented and maintain records.

Complaint Procedure

A written Complaint must be filed on the prescribed Los Angeles Community College Complaint form. The CO will have 60 days to investigate the complaint. Employment based Complaints shall be filed within 180 days. For a

Complaint not arising from or related to employment, the Complaint shall be filed no later than one year from the date when the complainant knew or reasonably should have known of the facts underlying the Complaint.

CO's Report

Within 60 days after becoming aware of a potential violation of this policy, the CO shall complete the investigation and make a Written Report to the College President, or Deputy

Chancellor. The College President, or Deputy Chancellor, shall independently assess whether the "preponderance of the evidence" establishes a violation and shall determine

what action is to be taken, if any. Prior to making the decision, the alleged offender and alleged victim shall have the opportunity to make an oral statement, within 15 days

from the receipt of the CO report. Within 90 days from the start of the investigation a Written Decision shall be mailed to the complainant/victim and the alleged offender.

Disciplinary Action

If appropriate, the College President, Deputy Chancellor, or the Chancellor shall initiate the applicable disciplinary process within 10 business days of receiving the Written Decision. Disciplinary action shall include, without

limitation, verbal warning, probation, suspension, expulsion, letters of reprimand, Notices of Unsatisfactory Service, suspensions, demotions or dismissals.

Appeals

If the complainant/victim is not satisfied with the Written Decision, he/she may appeal to the District's Board of Trustees by submitting a written appeal to the Chancellor's Office within fifteen (15) days. The Chancellor shall present the written appeal, the Written Decision and the investigative report to the Board of Trustees in closed session. If the 45 days

elapse without further action, the Written Decision shall be the final decision of the District. In non-employment cases the complainant has the right to file an appeal with the State Chancellor's Office within 30 days after the Board decision is issued, or the 45 days have elapsed, whichever comes first.

Additional Remedies

The complainant or alleged victim may pursue independently civil law remedies, including but not limited to injunctions, restraining orders, or other orders. An individual who believes that he/she is the victim of Prohibited Discrimination may also file a complaint with the Department of Fair Employment & Housing at (800) 884-1684, the Equal

Employment Opportunity Commission at (213) 894-1000, for employment based complaints; and the Department of Education, Office for Civil Rights at (415) 556-4275, for non-employment complaints whether or not the complainant chooses to utilize the District's internal procedure.

Accuracy Statement

The Los Angeles Community College District and East Los Angeles College have made every effort to make this publication accurate and may, without notice, change general information, courses, or programs offered. The reasons for

change may include student enrollment, level of funding, or other issues decided by the district or college. The district and college also reserve the right to add to, change, or cancel any rules, regulations, policies and procedures as provided by law.

Accreditation

Accredited by the Western Association of Schools and Colleges.

A member of the American Association of Community and Junior Colleges and the California Association of Community Colleges.

Non-Discrimination Policy

All programs and activities of the Los Angeles Community College District shall be operated in a manner which is free of discrimination on the basis of race, color,

national origin, ancestry, religion, creed, sex, pregnancy, marital status, sexual orientation, age, disability, or veteran status. (Reference: Board Rule 1202)

The lack of English language skills will not be a barrier to admission and participation in the College's CTE programs.

Política de Antidiscriminación

Todos los programas y actividades del Distrito de Colegios de la Comunidad de Los Angeles se llevan a cabo sin ninguna clase de discriminación en cuanto a raza, color, nacionalidad,

ascendencia, religión, creencia, sexo, embarazo, estado civil, orientación sexual, edad, incapacidad física o estado como veterano militar. (Referencia: Reglamento del Consejo 1202.)

Sexual Harassment Policy

The policy of the Los Angeles Community College District is to provide an education, employment and business environment free of unwelcome sexual advances, requests for sexual favors, and other verbal or physical conduct or communications constituting sexual harassment. Employees, students, or other persons acting on behalf of the District who engage in sexual harassment as defined in the policy or by state or federal law shall be subject to discipline, up to and including discharge, expulsion or termination of contract. The specific rules and procedures for reporting charges of sexual harassment and for pursuing available remedies are incorporated in the Board Rules in Chapter 15.

The Los Angeles Community College District has a policy which provides formal and informal procedures for resolving complaints. Copies of the policy and procedures may be

obtained from the Sexual Harassment Compliance Officer in EI-136, the Advocate for Students at the South Gate Educational Center, or by calling the Office of the Vice Chancellor of Instructional and Student Support Services at (213) 891-2279, or the Office of Diversity Program at (213) 891-2315.

Any member of the College Community - student, faculty, or staff - who believes he or she has experienced conduct that may constitute sexual harassment has the right to seek the help of the College. Every employee has the responsibility to report such conduct when it is directed toward students to the Sexual Harassment Compliance Officer.

Potential complainants are advised that administrative and civil law remedies, including but not limited to injunctions, restraining orders or other orders may be made available.

Política Sobre Hostigamiento Sexual

Es la política del Distrito de los Colegios de la Comunidad de Los Angeles mantener un ambiente educativo, de trabajo y de negocio sin avances sexuales, de solicitudes de favores sexuales, de cualquier otro comportamiento verbal o físico o de comunicaciones que constituyan hostigamiento sexual según

tal se define y prohíbe en reglamentos estatales y federales. Consúltase a la Sr. R.C. Williams III, oficial de conformidad de la Política Sobre Hostigamiento Sexual, (323) 265-8779.

Access to Vocational Programs

The College provides classes for students who are beginning to learn English. Minimal English language skills do not keep students from participation in vocational programs.

El Colegio ofrece clases para estudiantes que están empezando a aprender inglés. Entendimiento mínimo de inglés no impide a nadie la participación en ningún programa vocacional.

Smoke-Free Environment Policy

Smoking is prohibited in all buildings. The designated smoking areas are limited to smoking outside the buildings. Individuals who smoke should make provisions to do so on their breaks in the designated areas.

Drug-Free Schools and CAMPUS

East Los Angeles College adheres to, supports, and is in full compliance with requirements that maintain our college as a drug-free institution of higher education.

Standards of Conduct

On April 20, 1989, the District Board of Trustees adopted Rule 9803.19, which prohibits:

Alcohol and Drugs. Any possession of controlled substances which would constitute a violation of Health and Safety Code section 11350 or Business and Professions Code section 4230, any use of controlled substances, the possession of which are prohibited by the same or any possession or use of alcoholic beverages while on any property owned or used by the District or colleges of the District. "Controlled substances," as used in this section, include, but are not limited to the following drugs and narcotics:

- a. opiate, opium and opium derivatives
- b. mescaline
- c. hallucinogenic substances
- d. peyote
- e. marijuana
- f. stimulants and depressants
- g. cocaine

The Board's policy on the drug-free Workplace, adopted on March 22, 1989 restates these prohibitions.

On September 5, 1990, the Board of Trustees adopted the following standards of conduct:

Students and employees are prohibited from unlawfully possessing, using or distributing illicit drugs and alcohol on district premises, in district vehicles, or as part of any activity of the Los Angeles Community College District.

9803.25-Conduct that may be considered disorderly includes: lewd or indecent attire or indecent attire or behavior that disrupts classes or college activities; breach of the peace of the college; aiding, or inciting another person to breach the peace of college premises or functions.

Emergency Procedures

Get Prepared with East Los Angeles College

Be alerted in case of emergency on campus.

Where do you go if there's a fire on campus!

What to do if there's an active shooter on campus.

As part of East Los Angeles College's continuing effort to ensure a safe college environment, the college has implemented a new rapid emergency communication system known as RaveMobile. This system allows East Los Angeles College to convey time-sensitive information within minutes, through a single communication to our students, faculty and staff.

ELAC students and employees can sign up for emergency notification announcements via email and text message(s). In case of an emergency at the college, such as earthquake, gas leak, active shooter, power outages,

ELAC can immediately notify students and employees about the situation and properly direct them to the safest areas

For more information about how to register for the RaveMobile notification system please go to the following website:

Information subject to change without notice.

This bulletin is an abbreviated summary of emergency procedures for possible campus emergencies. If you would like access to the emergency preparedness plan, please contact the Office of Administrative Services at (323) 265-8690.

Emergency Procedures

Fire Alarms

The fire alarm or evacuation order is signaled by a continuous bell. When the alarm is activated, gather up all your personal belongings, turn off any source of gas and leave the building. The last person to exit the room should close the door behind them. Proceed to the nearest Evacuation Assembly Point (EAP) as shown on the Emergency Evacuation Zones map. Do not use the elevator. Wait at the E.A.P. until receiving further instructions from a Safety Marshal or via ELAC emergency notification systems.

Earthquake

At the first indication of a major Earthquake, drop to the floor and cover your head. When it is determined safe to do so, exit the building to the Emergency Assembly Point (EAP). Be aware of falling debris from buildings, downed power lines, broken gas lines, and any other overhead danger. Do not use elevators. Wait at the EAP for further instructions.

Campus Violence

Once you become aware of a campus violence situation, call the Sheriff's Office at (323) 265-8800 or call 911. Try to ascertain if it is safer to evacuate the building or barricade yourself in the room. Attempt to remain calm and, if possible, wait for law enforcement instruction via ELAC's emergency notification systems. Please register for RoveMobile text notifications at <http://alertme.elac.edu>.

Gas Leaks or the Threat of Explosion

Designated staff and/or the Sheriff's Office personnel will contact each building, office, classroom or laboratory via ELAC's emergency notification systems to advise specific areas of the need to evacuate to a safe location. No bells, cell phones, radios or bull horns will be used to announce the need to evacuate due to the possibility of detonation or explosion. The individual advising you to evacuate will direct you to a safe evacuation area. Once at the evacuation area, wait for further instructions from either the assigned Safety Marshal or responding emergency personnel.

- a) The order to close the campus will originate from the highest ranking administrator / employee on campus at the time of the incident in consultation with the Office of the LACCD Chancellor
- b) You will be advised that the area is clear of all potential hazards and that you can return to your work station or classroom via ELAC's emergency notification systems.
