VOC ED 801CE- Non-Traditional Leadership (Repeatable) - 0 Unit

Non-traditional leadership is a social change metaphor intended to draw attention to individuals whose

leadership skills emerge from cultural, social, and political conditions that shape their community. They are community connectors working below the grassroots; driven by enormous hearts and gifts to bring people together to actualize a community enhancement vision. This course is designed to increase the capacity of non-traditional leaders to make a difference in their community by enabling them to identify common values, strengths, hidden assets, existing resources and leadership formations below the grassroots; so that they may design a common vision and take strategic action to enhance their community using the opportunities of the civic process.
