LAMC Empowers Academic Success Thru Transfer: Grads Succeed at USC and CSULA

Whitney Pulupa knew early in life she would have to work hard to reach her goals. She prepared her way while attending Bishop Alemany High School where she took three advanced placement courses and an honors British literature class. She then moved on to LAMC where she took advantage of the resources and opportunities available to all students. After graduating with her A.A. in Spring 2009, Pulupa transferred to the University of Southern California where she was accepted into the Gordon S. Marshall School of Business where she is busily enjoying her second semester as a business major.

Regarding her work at LAMC, "My experience at Mission College was wonderful. Counselor Madelline Hernandez worked with me to plan and organize my path for college," says Pulupa. "I knew from the beginning I wanted to graduate within two years so establishing a relationship and having open communication with my counselor was important."

In addition, Pulupa says Mission College professors like Richard Rains and Margie Long teach with passion and really care about their students. "They will provide you with the foundation and preparation needed to succeed at any university." With the support of counselors, instructors and staff at LAMC, Pulupa made the Dean's and President's Lists, was President of the Alpha Gamma Sigma Honor Society, was selected as Co-Valedictorian of her class, and introduced the McNair Postbaccalaureate Achievement Program to Mission College.

In August 2009, Pulupa was crowned Miss San Fernando. The competition was rigorous as contestants were judged on personality, community involvement, future aspirations, and skills in writing and speaking. The scholarship she received from the pageant will be used for furthering her education. She managed to accomplish all these academic achievements, including a 4.0 grade point average, while working at LAMC as Program Assistant in the Articulation Office and volunteering her time as a Girls' Head Coach for the American Youth Soccer Organization.

When asked what advice she would give to students, Pulupa says: "My time spent at Mission College was incredible and the opportunities are endless. Mission will provide you with the tools necessary to advance your academic career. It'll be up to you to take advantage of the opportunities and resources. Visit with your professors during office hours and establish a rapport, and get to know faculty and staff." ▲

At first, college didn't come easily for Mission College alumna ***Blanca Garcia***. Growing up, she was raised by her mother and lived in subsidized housing. She understood the importance of education – yet, she soon learned she would have to rearrange her priorities to overcome obstacles she was facing.

After graduating from Reseda High School she attended La Sierra University, a private college in Riverside. At the end of her first semester at La Sierra Garcia realized she was not prepared for college. She lacked study skills, time management and organizational skills, was unfamiliar with test taking techniques and didn't have self-confidence or self-discipline. She was placed on academic probation and eventually was disqualified from attending La Sierra.

At the advice of her mother, in 2005 she decided to enroll at Los Angeles Mission College. "Mission made me feel as if I were at home. Classes were smaller in size and the hours were flexible," explained Garcia. She loved Mission College so much she would arrive on campus early in the morning and often left late at night. "I just loved the atmosphere and beauty of the campus." Garcia credits her success to the many passionate and a caring instructors at Mission. She particularly credits Biology Professor Angela Echeverri for not only providing her with the skills necessary to succeed, but the motivation she needed to become confident. She had enough confidence to eventually take on leadership roles such as serving as President of the Associated Student Organization at Mission.

Then, like many students with financial concerns, in 2006 Garcia put her studies on hold and decided to work full-time. She realized this wasn't getting her anywhere and made sacrifices to re-enroll full-time at Mission so she could finish her studies. Garcia received an Associate of Science degree in Health Science from Mission College in 2007 and transferred to California State University Los Angeles in 2008 to study nutritional science. Garcia believes that Mission prepared her academically to face the new challenges of university study.

"I believe all high school graduates should consider attending Mission College," she said. "Why spend more money on general education courses when you could take the same class for less. Your dream of earning an A.A. degree can become reality – it's up to you to make the choice." ▲

UCLA's Dr. Mike Fenton Joins Mission College and Promotes Chemisrty Studies

An expert in research, chemist ***Mike Fenton*** has now dedicated his career to motivating, inspiring, and enriching the lives of the students of Mission College. Fenton began working full-time as a Professor of Chemistry in Spring 2009. Prior to Mission he taught as an adjunct professor at Pierce College and a Teaching Assistant in Biochemical Methods at UCLA.

Fenton received his B.S. in Biochemistry in 1997 and his Ph.D. in Biochemistry and Molecular Biology from the University of California Los Angeles in 2003. He's is the first author of six publications and was primary author and co-principal investigator of the Shared Equipment Evaluation Program (ShEEP) research grant. He has also lectured on a variety of topics.

"I actively engage my students and challenge them to do their best in the classroom," says Fenton. "It's all about collaboration and teaching through learning communities." Fenton strongly believes student interaction is a key to success. He created a social network specific to his Chemistry class on Facebook. This allows him to hosts active discussions with his students and answer questions immediately, but most importantly, it gives students the opportunity to interact with peers.

Fenton says that his passion for teaching in the classroom has contributed to his success. "If a student has a difficult time comprehending a specific lesson my strategy is to include opportunities to learn new material by incorporating real-world experience wherever possible." He went on to explain that students attending Mission are unique – they too have a passion for learning. They're appreciative of the help they receive from their instructors. "My job as faculty is to empower students to do their best." In addition to teaching, Fenton is involved in a variety of campus activities at Mission. He's currently the Honors Program Director and the Title V HSI Grant Science Advisor.

There are many career options after obtaining a chemistry degree. Some fields students may explore are research and development, education, law, medicine or business. If you're interested in taking a chemistry course, consider enrolling in one of Fenton's classes. He teaches Fundamentals of Chemistry and General Chemistry. For questions or additional information, please contact Dr. Fenton at 818.364.7888 or fentonms@lamission.edu ▲

New Instructor Gloria Daims Nurtures Students to Become Child Development Professionals

After teaching as an adjunct instructor for over five years at various Los Angeles Community College District campuses, ***Gloria Daims***, M.S., was recently appointed to a permanent faculty position in the Child Development Department. A native of Spain, Daims earned degrees in Special Education teaching children with special needs and Early Childhood Education, and she has been teaching in these fields for over twenty-three years.

Daims is committed, passionate and energetic in her work with children, families and students alike. She believes students deserve chance to have a better life through education and that instructors must respect students' academic and professional goals. Her classroom philosophy in sharing knowledge with students is that all students have the ability to learn and to be motivated to become leaders in their fields. "I provide a learning environment where students feel challenged in a positive way," said Daims, and she dedicates herself to inspiring her students to reach their highest potential.

Currently there is a great demand for early childhood professionals. If a student is ready to explore the field of Early Childhood Education, he or she should consider obtaining a certificate in Child Development at LAMC. This certificate prepares students to meet the demands of today's child care centers including the ability to work with infants, toddlers and/or preschool children and after school programs. College credits earned with the certificate may then be applied towards an Associate of Arts degree preparing students for diverse careers and transfer studies including teaching, social work, pediatric physical therapy, occupational or speech therapy, foster care, mental health paraprofessional studies, or health care or child welfare advocacy.

The Child Development Department offers a variety of bilingual courses and Daims is one of the Department's bilingual instructors. For more information, visit www.lamission.edu/childdevelopment or contact Professor Gloria Daims, M.S. at 818.364.7860 or daimsgs@lamission.edu ▲

As the Population Ages, Gerontology Booms

"The interests and needs of older people will, in part, depend on the dedication of those who choose to work in the field of Gerontology."

– Professor Eloise Cantrell

Professor ***Eloise Cantrell*** is vigilant and caring, sensitive yet strong, and is committed to doing what she loves to do best – teaching. After 37 years, she continues to teach with great enthusiasm and passion. When asked what she enjoys most about teaching she says it's the stimulation the students give in her classroom. The "privilege of imparting knowledge and the joy of seeing how the students grow is most rewarding," says Professor Cantrell.

Cantrell received her B.S. in Home Economics from San Fernando Valley State College; Master in Family and Consumer Science with an emphasis in Gerontology from California State University Northridge; and her Doctor of Education in Administration in Higher Education from Nova Southeastern University in Florida. She is a recipient of numerous awards including the Governor's School to Career Taskforce Award presented by the Chancellor of the California Community Colleges, the Private Sector Initiative Award presented by President Ronald Regan, and the Los Angeles Chamber of Commerce Distinguished Service Award presented by the Mayor of the City of Los Angeles.

One specific field in which Cantrell would like to make a difference is through training those caring for the aging population. Through the Gerontology program offered at Los Angeles Mission College students will study the processes associated with aging such as the physical, mental and social changes that take place as a person grows older. Upon completion of the program students will have an understanding of the opportunities and challenges presented by an aging population and the expertise to support this populations needs.

The field of Gerontology is an ideal choice for students seeking a career that is growing rapidly, is exciting and will provide the opportunity to make a difference in the lives of others. As the aging population increases, the twenty-first century will see a growing demand for professionals who understand issues related to the aging process. "The interests and needs of older people will, in part, depend on the dedication of those who choose to work in this field," says Dr. Cantrell.

The program provides students with networking opportunities and internships to help students prepare for a career. After receiving a certificate in Gerontology students may immediately seek employment in hospitals or community clinics, state rehabilitation agencies, new service or product development, retirement communities, adult day care, education, and policy development to name a few.

Cantrell invites students to come join them and get careers started in this exciting and growing field of Gerontology. For more information, contact Dr. Eloise Cantrell at cantreef@lamission.edu or 818.364.7625. ▲

Demetria Perez Fulfills Her Dream through the Child Development Program

Demetria Perez began her path to becoming an Associate Teacher in Early Child Development when she enrolled in Child Development and ESL classes. She took an average of 15 units every semester though she had five children at home and many responsibilities. With great dedication and commitment to her dream of working with children, Perez has now completed ESL 5 and earned an Associate Teacher Permit for Early Childhood Education through the California Commission on Teaching Credentialing.

Perez recounts that "When I started in the program I was extremely shy. Attending college seemed like an unattainable goal. But as I attended classes and worked with the Child Development Program, my confidence grew stronger. I was exposed to several professionals in the field who helped me realize that I too could fulfill my dream of dedicating my life to children. I got so much help from the program in every possible way." She feels empowered to "earn a competitive salary" that will allow her to offer a better future for her family.

For more information on the Child Development Program, contact Lilamani De Silva at desilvlp@lamission.edu or 818.364.7673. ▲

Around the Campus

People to Know and Getting Involved: A key element of student success is that students utilize the many support services on our campus. Counselors, advisors, and others who work as specialists in serving particular groups of students will help you with important decisions regarding your courses, careers, particular learning needs and many other topics that can help you not only do well in your classes but also make your dreams and goals a reality. Here are just three people on our campus that help our students succeed. Another key element in student success is that students involve themselves in the campus. Our last article on Robert Crossley includes a complete list of clubs and organizations for you to consider.

From *Robert Schwartz*, Disability Specialist, Disabled Students Programs and Services (DSP&S)

I have an M.S.W. (Masters of Social Work) from Augsburg College and B.A. from Macalester College. I have an L.C.S.W. (Licensed Clinical Social Worker) and have worked the last 10 years with college students with disabilities.

Many in my family are in the counseling or higher education fields, so I grew up surrounded by a passion for helping and learning. I have always liked hearing people talk about their situations and their story. I also liked being an ally and helping people solve problems. It was when I went to a counselor at my college that I realized I could do both and didn't have to choose just one. However, it was a long time before I was able to make my lifelong dream of college counseling happen. I am very grateful to have this opportunity at Mission College.

I work with students with disabilities in DSP&S who are hard to characterize not just because they come from diverse backgrounds. Although many students with DSP&S have a learning disability, there are many types of learning disabilities. Similarly, there are numerous different psychiatric and physical disabilities which can be complex and require experience with the condition to handle appropriately. For example the irreverent counseling approach that is the standard for certain psychiatric conditions could lead to violent behavior in other conditions. However, one generalization that can be made is that DSP&S students are like other students in that they deserve and usually appreciate being treated with respect.

What I try to do in DSP&S is ensure our students get reasonable accommodations and feel their concerns are handled professionally and respectfully. As a Disability Specialist my job is to do many different things for DSP&S students, one of which is counseling. However, my main role is to determine if a student warrants accommodations and to ensure the accommodations are made to help the college meet its ADA obligations. As part of this, I also coordinate ASL interpreting, adaptive equipment, supervise tutors, teach a class, proctoring and many other tasks.

Regarding respect, having grown up with a number of my own family members having disabilities, I myself feel very comfortable with students with disabilities. Students tell me they feel like I understand them which is the first step to identifying what they need. The most rewarding part of my job is helping students and later seeing their confidence increase as they progress through their education.

If you feel you may be eligible for or might benefit from the wide range of services that DSP&S can offer, please go the DSP&S Office in the Instructional Building, Room 1018, or call 818.364.7732, or, go to www.lamission.edu/dsps/default.aspx for more information on the many services DSP&S provides. Please know that all services, questions and counseling information is confidential, and that DSP&S staff and counselors are committed to making you feel comfortable and providing you with access to everything you need to help you succeed.

From *Afri Walker*, Counselor and UCLA Transfer Alliance Honors Program (TAP) Advisor

I work with new and returning students as a general counselor, and I am also the advisor for the UCLA Tap Honors Alliance Transfer Program. I am committed to providing an educational path for students to follow that will help them reach their goals. I enjoy helping to foster self-motivated thinkers, ensuring students success in present and future endeavors. It is rewarding to me to see the smiles and looks of accomplishment on students' faces once they have accomplished their academic goals.

If you are interested in the UCLA TAP Honors Alliance Transfer Program, please visit www.lamission.edu/honors/default.aspx for complete information, or contact Afri Walker at 818.364.7647 or WalkerAG@lamission.edu. For general counseling on course requirements, General Education, and meeting your academic goals, call 818.364.7655 to make an appointment with our knowledgeable and caring counselors. You can also stop by the Admissions Office to make an appointment.

From *Adriana Martinez*, Teacher Prep and Transfer Center Counselor

I received a Masters Degree in Educational Counseling from Cal State Dominguez Hills in Carson, California. I always knew I wanted to help people and because of a few negative experiences in school I realized I didn't want others to experience what I had. I then decided I wanted to become a counselor. I work with two programs at Mission college. The first is the Teacher Prep Program, which is geared toward students who want to become K-12 teachers. The second is the Transfer Center, which is geared toward students who wish to transfer to a four year university to earn a bachelors degree in any Major.

I try to help students who come to our office explore the different university options that they have as well as inform them about the general education requirements and major requirements needed to attend their universities of choice. We can also connect students with university representatives as well as set up appointments with representatives who visit our campus. On occasion we offer field trips to universities for our students. There are always programs and events offered by different universities so we try connect our students with the ones that fit. There is always something going on at the Transfer Center and we encourage students to look at our calendar of events at www.lamission.edu/transfercenter

The most rewarding part of what we do is when a student comes in to our office with acceptance letters from their first choice university and they have a grin on their faces from ear to ear.

If you are interested in becoming a K-12 Teacher, or would like to learn about transfer to a particular university, please visit the Transfer Center in the lower level of the Campus Center. Adriana can also be reached at 818.364.7600, ext 700 or MartinezAF@lamission.edu. For online information on Teacher Prep, the Transfer Center, and events, go to www.lamission.edu/transfercenter

From *Robert Crossley*, Associate Students Organization (ASO) Advisor

I hold a Master of Arts in Educational Leadership Policy and Studies from Cal State Northridge. The Associate Student Organization (ASO) focuses on students who want to participate in student government or leadership roles whether it is on campus or in the community. ASO builds positive leadership skills and provides interactions with faculty, staff and administrators. My daily interactions with students consist of assisting the ASO senators to become more acclimated to their ASO roles/duties. As the Advisor, I provide oversight for the student government. I assist the ASO with planning and organizing activities/events. The most rewarding part of my job is knowing that am a vital component of the students learning process and success. I also help to facilitate an active Student Club culture on campus. Please see the list of some of our clubs below.

If you have an interest in a new club or other organizations, please contact me at the ASO Office, Lower Level Campus Center, 818.364.7820, CrosslR@lamission.edu

A Biology degree is appropriate for students who want to pursue careers in the life sciences and allied health professions such as medicine, dentistry and pharmacy. In the 21st century, no field of science can compare to the biological sciences in terms of major discoveries that directly affect society and individuals. The disciplines are endless and new ones arise annually: genetic engineering, forensics, biochemistry, veterinary medicine, pathology, botany, zoology, marine biology, forestry, microbiology, conservation biology, ecology, environmental studies, and bioinformatics. An Associate of Science Degree in Biology will transfer to most colleges and universities.

An English degree is appropriate for all students who want to improve written and oral expression. It also affords you the opportunity to expand your comprehension of diverse literary texts. This degree is not only for students who are interested in teaching, but it is also for students who plan to continue with graduate work in programs ranging from liberal arts to law. Consider the English major alone or as a double major with another field of study such as business. A degree in English will give you the cutting edge, no matter which field you plan to enter because English is the international language of the world. Remember, businesses are looking for English majors because they are the most competent researchers, writers and communicators. With a degree in English you will be able to find employment all over the world as editors, writers, teachers and entry level business managers.
An Associate in Arts English degree will transfer to most UCs and CSUs.

PACE - Program for Accelerated College Education

Open to ALL Mission College Students

PACE Office: 818.364.7684
Located in the lower level of the Campus Center
PACE Director, Mark Pursley: 818.364.7677

PACE classes are also listed in the Fall schedule.
For up-to-date information, go to **www.lamission.edu/pace**

PACE students often combine PACE courses with other online, hybrid and short-term classes. Work with your counselor and the PACE Director to put together a schedule that meets your needs.

New Pace Students: Attend the PACE Orientation the Saturday before classes begin, ***August 28 9-10 AM, CMPC 5***. Call the PACE Office for more information.

Who: PACE courses are offered in an accelerated format convenient to students' work schedules. Some students participate in the complete PACE program (see "Why" below for program features). However, **PACE courses are open to ALL Mission College students,** so anyone can sign up for a PACE course while taking traditional, online or other course formats.

Why: PACE offers convenient scheduling, quality instruction, and a supportive staff. PACE features collaborative learning, field trips, artistic performances, and social events to enhance your educational experience.

What: PACE has five tracks (Elementary Teaching, Business, Social Science, Health Science, and General Studies) to help students meet their transfer requirements while earning an A.A. degree. All PACE courses are fully transferable to CSU and UC.

Where: Currently all PACE courses meet on campus.

When: Most courses in PACE are offered in an accelerated eight week format. Students attend class one evening a week and every other Saturday for eight weeks. A student can earn 12 units per semester by taking two courses in the first eight week session and two more in the second eight week semester. Each PACE course is paired with another PACE course so that students may earn six units in session A, and six more in session B. (Go to the college website for complete PACE schedule information)

A Sample Schedule For Paired 3-Unit Courses:
Course 1: Tuesday 6-8 PM and scheduled PACE Saturdays 8-12 (Student must attend both days. Courses do not meet on all Saturdays – see schedule.)
Course 2: Tuesday 8:10-10:10 PM and PACE Saturday 12:30-4:30 (Student must attend both days. Courses do not meet on all Saturdays – see schedule.) Students may take one or both courses.

4-Unit Science Courses and 5-Unit Business and Math
Courses meet per the evening schedule indicated and ***every*** Saturday, and some are 16 weeks long.

Hybrid PACE Courses:
Students attend only four Saturday sessions and complete the remainder online.

PACE Basic Skills in Math and English: These courses, called bridge courses, are generally offered on Monday evenings or on Saturdays- see schedule

Courses in bold meet the first eight weeks, 8/30 - 10/23
(Session A- Saturdays: 9/11, 9/25, 10/9 & 10/23)
Courses in plain type meet the second eight weeks, 10/26 - 12/18
(Session B - Saturdays: 11/6, 11/20, 12/4 & 12/18)

Levels and Classes

The ESL program at Mission College consists of seven levels of instruction. Research in language acquisition advises that skills not be taught in isolation. Consequently, some ESL classes are combined, and other ESL classes have corequisites. Students receive maximum benefit by taking all classes in each level concurrently.

Level 1: ESL 1 integrated (combined skills) -12 units MTWTh
Level 2: ESL 2 integrated (combined skills) -12 units MTWTh
Levels 3,4,5 and 6 have A, B, and C components:

ESL 3B, 4B, 5B, 6B: Reading/Vocabulary, 3 units, TTh
ESL 3C, 4C, 5C, 6C: Listening/Speaking, 3 units, TTh
Level 7: ESL 8: Advanced ESL Composition–6 units, MW
ESL 8 is equivalent to English 28 and satisfies the prerequisite for English 101.

Assessment - Which Level Should I Take?

All new students must take the Mission College ESL Placement Test. The results of this test will indicate which level you should enroll in. Mission College does not accept assessment test results from other colleges or adult schools.

Once enrolled, students who believe they were incorrectly placed should confer with their instructor and the ESL Department Chair.

ANNOUNCEMENT: Title 5, section 55035, prohibits students, who have completed 30 units of "remedial" (basic skills) course work, from enrolling in any additional credit basic skills courses. Starting with the Winter 2010 registration cycle, this requirement will be reinforced by DEC. If a student, who has exceeded the 30 unit limit, enrolls in a credit or noncredit ESL course, the student will be permitted to enroll in additional basic skills courses. Also, Title 5 exempts students with learning disabilities. The DSPS Office can authorize a system override for these students. The actual override functionality is in A&R so the DSPS Office will have to coordinate this effort with the Admissions Office. This restriction does not apply to noncredit basic skills courses. Students, who have exceeded the 30 unit limit, should be encouraged to enroll in non-credit basic skills courses.

Prerequisites, Corequisites & Advisories

Prerequisite: A requirement that must be satisfied before enrolling in the target course.

Corequisite: A requirement that must be taken simultaneously with the target course. However, in some instances the corequisite may be satisfied before enrolling into the target course.

Advisory: A course or condition that a student is advised (but not required) to meet prior to enrolling in the target course.

Registration Limitation

All students need to demonstrate meeting the prerequisite or corequisite requirement in order to enroll into the target course.

- If the student satisfies the requirement by completing a class with a grade of "C" or better at LAMC or through the assessment process, he/she will be cleared for registering into the target course.
- If the student has satisfied the prerequisite or corequisite and/or placement at another college or through another method, he/she must submit the appropriate documentation (i.e. an unofficial transcript and/or placement results) to the counseling office located in the Instructional and Student Services Building (818.364.7655).

Once a counselor reviews the documents and finds that the prerequisite or corequisite has been satisfied, the counselor will issue a course placement authorization form. This form, once signed by the counselor, needs to be turned into the Admissions office along with the necessary add slip by the student for processing.

Prerequisite Challenge

Students without transcripts or other proof of meeting the specified prerequisite or corequisite but believe that they have other clear and reliable evidence that they are adequately prepared to take the target course may go through the prerequisite or corequisite challenge process.

Prerequisite or corequisite may be challenged based on the following:

1. The student has the knowledge or ability to succeed in the target course despite not meeting the prerequisite or corequisite. (Criteria for challenging based on knowledge or ability to succeed will be determined by each Academic Department.);
2. The prerequisite or corequisite is not valid because it has not been established in accordance with the District's policy;
3. The prerequisite or corequiste is being applied in an unlawfully discriminatory manner; and
4. The prerequisite or corequisite has not been made reasonably available causing the student undue delay in completing his/her educational goal.

Prerequisite Challenge Process

1. Pick up the challenge form at the Counseling Office. It is recommended that a student seeking to go through the challenge process meet with a counselor to discuss the process in further detail.
2. All challenge forms must be processed prior to the add deadline as stated in the Schedule of Classes (please note: the challenge process takes five working days to complete). Challenges filed after this deadline will be considered for the following semester. If space is available in a course when a student files a challenge to the prerequisite or corequisite, the student will be allowed to enroll into the course during the challenge process. If the challenge is approved or the college fails to resolve the challenge within 5 working days, the student shall be allowed to remain in the course. If the challenge is denied, the student will be notified and dropped administratively. If no space is available in the course when a challenge is filed and approved, the student shall be permitted to enroll for the following semester.
3. Students need to complete the challenge form, attach appropriate documentation and take the form to the Chair and/or Vice Chair of the department through which the course in question is being offered.
4. The Department Chair and/or Vice Chair will approve or deny the challenge. If the Chair and/or Vice Chair is the instructor of the course that the student wishes to enter, then the Chair and/or Vice Chair will identify another faculty member in the discipline to review and approve the challenge form.
   - Once the challenge is approved/denied and signed, the Chair and/or Vice Chair of the department or designated faculty member will return the form to the Matriculation Coordinator.
   - The Matriculation Coordinator will contact the student of the results of the challenge.

4. Fees are not automatically refunded. Fee refunds must be requested from the Business Office if you drop classes or withdraw by the end of the second week.
5. In order to do a complete withdrawal by mail, your request must be sent by Certified Mail with a receipt.
6. You may also withdraw by using the telephone system on or before the 11th week or before 75% of the course is completed. Students in PACE or other special programs must check withdrawal deadlines with the appropriate program director.

Access to Records

The California Legislature passed S.B. 182 (Stull), which codifies provisions of the Education Code and the Federal statutes implementing the Family Education Rights and Privacy Act of 1974 (Buckley Amendment). This permits students to inspect their personally identifiable records maintained by the college, and permits access to these records only upon the student's request (other than to certain specified categories). Information on these laws and college procedures in implementing them may be obtained from the Associate Dean of Admissions, who serves as the College Records Officer. Copies of pertinent State and Federal legislation are available for inspection.
Los Angeles Mission College considers the following information relating to a student to be directory information: student's name, city of residence, date of birth, major field of study, participation in officially recognized activities and sports, weight and height of members of athletic teams, dates of attendance, degrees and awards received, and the most recent previous educational agency or institution attended by the student. Students who do not wish any or all of the above categories of information to be given out should so indicate on their application at time of enrolling. Students are asked to voluntarily provide their student identification number for this purpose.

Family Educational Rights and Privacy

Act (FERPA) Notification The Family Educational Rights and Privacy Act (FERPA) affords students the following rights with respect to their educational records:
1. The right to inspect and review the student's education records which includes discipline records, within 45 days from the date the College receives a request for access.
• Students may submit to the College Admissions Office written requests that identify the specific record(s) they wish to inspect. Within 45 days, the College Admissions Office will make arrangements for access and will notify the student of the time and place where the records may be inspected.
• Education records are those records that are directly related to students and are maintained by the College. Students may not inspect education records pertaining to parents' financial records and certain confidential letters or recommendations.
2. The right to request an amendment of the student's educational records which the student believes to be inaccurate, misleading or otherwise in violation of the student's privacy rights.
• With the exception of grade grievances which are handled through Administrative Regulation E-55, students may ask the College

President, or his/her designee to amend a record that they believe is inaccurate, misleading, or in violation of their privacy rights. A student seeking to amend an educational record should write to the College President and clearly identify the part of the record he/she wants changed and specify why it is inaccurate, misleading, or in violation of his/her privacy rights.
• If the College President, or his designee, decides not to amend the record as requested by the student, the College, in accordance with section 99.21 of the Code of Federal Regulations and section 76232 of the Education Code, will notify the student of the decision and of his/her right to a hearing.
3. The right to consent to disclosures of personally identifiable information contained in the student's educational records, except to the extent that FERPA and California law authorize disclosures without consent.
• If a student authorizes the release of his/her education record to a third party, he/she shall provide a dated written consent to the College Admissions Office authorizing said release with a specific list of the information to be released.
• Federal and California law authorize certain disclosures of personally identifiable information without a student's written consent. One such exception is the disclosure of personally identifiable information to school officials with legitimate educational interests. School officials with legitimate educational interests are employees or agents of the Los Angeles Community College District who need to review educational records in order to fulfill their professional responsibilities.
4. The right to restrict disclosure of personally identifiable information that the College has designated as directory information which may be released without the written consent of the student.
• Directory information may be disclosed without a student's consent unless the student has notified the college that he/she does not want all or portions of the directory information released. To do so, the student must submit the appropriate District form to the College Admissions Office requesting that some or all of the categories of directory information not be released without his/her consent. This form must be submitted in accordance with College policy.
• Pursuant to Board Rule 5201.10, the Los Angeles Community College District has designated the following student information as directory information:
(a) the student's name, city of residence, participation in officially recognized activities and sports, weight and height of members of athletic teams, dates of attendance, degrees and awards received, and the most previous educational agency or institution attended by the student;
(b) student employee records may be released in order to comply with collective bargaining agreements;
(c) the names, addresses and telephone numbers of students or former students may be released to the foundation for each college for college-related activities at the discretion of the College President, unless the student or former student has informed the College that such information should not be released. (d) at the discretion of the College President, the names, addresses and telephone numbers of students from the College may be released to heads of private and/or public institutions of higher education, or their designees, for the purpose of providing information to student regarding transfer opportunities to those institutions, unless the student has indicated that such information should not be released. The release of this information will be conditioned upon the institution's agreement that student privacy rights under federal and state law will be protected and that information will not be released to third parties.
5. The right to file a complaint with the U.S. Department of Education concerning alleged failures by the College to comply with the requirements of FERPA. The name and address of the office that administers FERPA is:

Student Right-to-Know Disclosure

In compliance with the Student Right-to-Know and Campus Security Act of 1990 (Public Law 101-542), it is the policy of the Los Angeles Community College District and Los Angeles Mission College to make available its completion and transfer rates to all current and prospective students. Beginning in Fall, 1996, a cohort of all certificates, degree, and transfer-seeking first-time, full-time students were tracked over a three-year period. Their completion and transfer rates are listed below. These rates do not represent the success rates of the entire student population at all California Community Colleges, nor do they account for student outcomes occurring after this three-year tracking period.
Based upon the cohort defined above, 28.2 percent attained a certificate, degree, or became "transfer-prepared" during a three-year period from Fall 1997 to Spring 2000. Students who are transfer-prepared have completed 56 transferable units with a GPA of 2.0 or better.
Based upon the cohort defined above, 29.8 percent transferred to another post secondary institution (CSU, UC, or another California Community College) prior to attaining a degree, certificate, or becoming transfer-prepared during a five semester period from Spring 1998 to Spring 2000.
Further information about Student Right-To-Know Rates and how they should be interpreted can be found at the California Community Colleges Chancellor's Office Student Right-To-Know Disclosure Website located at http://srtk.cccco.edu/index.asp

Student Grievance Procedure

The purpose of the Student Grievance Procedure is to provide a prompt and equitable means for resolving student grievances. The grievance procedure may be initiated by a student or group of students who reasonably believe he/she/they have been subject to unjust action or denied rights that adversely affect his/her/their status, rights, or privileges as a student. It is the responsibility of the student(s) to submit proof of alleged unfair or improper action. Grievances pertaining to grades are subject to California Education Code Section 76224(a) which states:
"When grades are given for any course of instruction taught in a community college district, the grade given to each student shall be the grade determined by the instructor of the course and the determination of the student's grade by the instructor, in the absence of mistake, fraud, bad faith, or incompetence, shall be final."
This grievance procedure does not apply to the challenge process for prerequisites, corequisites, advisories, and limitations on enrollment; alleged violations of sexual harassment; actions dealing with student discipline; alleged discrimination on the basis of ethnic group identification, religion, age, sex, color, sexual orientation, physical or mental disability; or an appeal for residency decision;

or to eligibility, disqualification, or reinstatement of Financial Aid. Informal resolution is encouraged.
A written Statement of Grievance must be submitted to the Compliance Officer within thirty (30) instructional days of the incident or after the student(s) learns of the basis for the grievance.

Recording Devices in the Classroom

Section 78907 of the California Education Code prohibits the use of any electronic listening or recording device without prior consent of the instructor. Any student violating this section is subject to disciplinary action. Any non-student who willfully violates this section is guilty of a misdemeanor.

Standards of Student Conduct and Disciplinary Action

The Standards of Student Conduct and Disciplinary Action for violation of rules were established by the Board of Trustees of the Los Angeles Community College District on September 2, 1969. A student enrolling in one of the Los Angeles Community Colleges may rightfully expect that the faculty and administrators will maintain an environment in which there is freedom to learn. This requires that there be appropriate conditions and opportunities in the classroom and on the campus. As members of the college community, students should be encouraged to develop the capacity for critical judgment, to engage in a sustained and independent search for truth, and to exercise their rights to free inquiry and speech in a responsible, non-violent manner. Students shall respect and obey civil and criminal law and they shall be subject to legal penalties for violation of laws of the city, county, state, and nation. Student conduct in all of the Los Angeles Community Colleges must conform to District and college rules and regulations.
Violations of such rules are subject to the following types of disciplinary actions, which are to be administered by appropriate college authorities against students who stand in violation. Each of the Los Angeles Community Colleges shall establish due process of law for administration of the penalties enumerated here. Penalties are listed in degree of severity but not as chronological administration. College authorities will determine which type of penalty is appropriate.
1. WARNING – Notice to the student that continuation or repetition of specified conduct may be cause for other disciplinary action.
2. REPRIMAND – Written reprimand for violation of specified rules. A reprimand serves to place on record that a student's conduct in a specific instance does not meet the standards expected at the college. A person receiving a reprimand is notified that this is a warning that continued conduct of the type described in the reprimand may result in formal action against the student.
3. DISCIPLINARY PROBATION – Exclusion from participation in privileges or extra-curricular college activities set forth in the notice of disciplinary probation for a specified period of time. The imposition of disciplinary probation involves notification in writing of the reason for disciplinary probation to the student(s) or president of the student organization involved.
4. RESTITUTION – Reimbursement for damage or for misappropriation of property. Reimbursement may take the form of appropriate service to repair or otherwise compensate for damage.
5. SUMMARY SUSPENSION – A Summary Suspension is for purposes of investigation. It is a means of relieving the tension of the student body or individual class due to a serious infraction of student behavior standards, removing a threat to the well-being of the students, or removing for the good order of the college a student or students whose presence would prevent the continued normal conduct of the academic community. Summary Suspension is limited to that period of time necessary to insure that the purposes of the Summary Suspension are accomplished, and in any case, no more than a maximum of 10 school days. Summary Suspension is a type of suspension other than that ordinarily invoked by the instructor in the classroom. The College President, appropriate administrator, or other staff member designated by the President may summarily suspend a student when he deems it necessary for the safety and welfare of the college.
6. DISCIPLINARY SUSPENSION – Disciplinary Suspension follows a hearing based on due process of law. It shall be invoked by the College President, appropriate administrator, or other staff member designated by the President, upon students for misconduct when other corrective measures have failed or when the seriousness of the situation warrants such action.
7. EXPULSION – An expulsion is a long-term or permanent denial of all campus privileges including class attendance. The President of the college and/or the Board of Trustees may expel a student who has been convicted of a crime arising out of a campus disturbance or, after a hearing by a campus body, has been found to have willfully disrupted the orderly operation of the campus. The President shall submit periodic reports on all expulsion cases to the Superintendent and the Board of Trustees.
Violations of the Standards of Student Conduct are as follows:
9803.10 Willful Disobedience: Willful disobedience to directions of college officials acting in the performance of their duties.

IGETC - What is the Intersegmental General Education Transfer Curriculum?

The *Intersegmental General Education Transfer Curriculum* (IGETC) is a general education program that community college prospective transfer students may complete to satisfy the lower division general education requirements for either the UC (University of California) or CSU (California State University) system without the need to take additional lower-division general education courses after transfer.

All IGETC coursework must be completed with a "C" or better. Courses in which a student receives a "pass" grade may be used if the community college's policy states that a "pass" is equivalent to a "C" grade (2.00) or better. The UC system allows a maximum of 14 semester units (of the 60 required, transferable units) on a Pass/ No Pass basis. There is no CSU system-wide policy on limitations for a "pass" grade, therefore each CSU campus has its own established policy (please check with your CSU campus of choice).
Courses may only be used once to satisfy one IGETC subject area (even if listed under multiple areas), however, courses may be used to satisfy IGETC general education areas AND major preparation requirements. Major preparation requirements can be accessed on www.assist.org, the official source for California articulation and student transfer information.

The IGETC is NOT an admission requirement to the UC or CSU system. There is no connection between completion of the IGETC and eligibility for admission to the UC or CSU system, or admission to a specific campus or program. Existing segmental and campus-specific admission requirements for transfer students remain unchanged. Requirements for lower-division courses for admission to particular majors also remain unchanged. The IGETC plan will total approximately 34-37 transferable units. A recommended total of 60 units must be completed prior to transfer, for priority admission status.

If you are approaching readiness for transfer and are unable to complete one or two IGETC courses, you may be eligible for partial certification and complete IGETC after transferring. A student may only be granted IGETC certification once (either partial or complete) prior to their first semester at the 4-year university. Students receiving partial certification must ensure that admission criteria for the university has been met (IGETC areas I and II). Students may complete the necessary coursework at the transfer institution and may NOT return to the Community College for complete certification if partial certification was received. "Certification" means that LAMC has verified that a student has completed the lower division General Education requirements listed in each area of the IGETC. *Certification* does not guarantee admission or admission eligibility. *Certification is not required and is not automatic; it must be requested by the student at the time the final official transcript is sent.* Without certification, the student will be held to the specific general education requirements of the university campus of choice. *Please note, the UC Berkeley, College of Letters and Science does not accept partial Certification.*

Courses taken at several institutions may be used to fulfill the IGETC. Students should be aware, however, that placement of courses within IGETC subject areas may vary from college to college. Placement of a course will be based on the college of attendance and its IGETC pattern at the time the course was completed. Completion of the IGETC program may be certified by the last community college, which the student attends. Foreign coursework (from non-U.S. regionally accredited institutions) may not be used on the IGETC.

It is NOT advisable for ALL students to follow the IGETC. Some students may be better served by taking courses that fulfill the CSU General Education Breadth requirements or the general education pattern of the UC or CSU campus or college to which they plan to transfer. Students pursuing majors that require extensive lower division major preparation, (such as Engineering on all campuses or Business at UC Berkeley) may not find the IGETC option to be advantageous. *The Eleanor Roosevelt College and Revelle College of UC San Diego do not accept IGETC.* Additional lower-division general education requirements may be needed prior to transfer. **The IGETC will be most useful for students who want to keep their options open before making a final decision about transferring to a particular UC or CSU campus.**

CSU ADVISING FORM

IMPORTANT INFORMATION: Courses on this list are approved for a specific academic year, which begins with the Fall 2009 semester and remains valid through Summer 2010.

The general education courses listed for the CSU system are specified within subject areas that satisfy lower division general education requirements for the CSU campuses. Students wishing to use a course to fulfill a CSU General Education requirement must be sure that the course is approved for the academic year in which it is taken. The CSU general education form changes each year. It is advised that students meet with a counselor regularly to review any changes. A course must be on the CSU GE Breadth during the term in which it is taken. If a course is taken before it is approved for inclusion, or after it is removed from the list, it cannot be used to meet the area requirement.

CSU GE Breadth certification is available to community college transfer students who satisfy the general education requirements in each area. "Certification" means that LAMC has verified that a student has completed the lower division General Education requirements listed in each area of the CSU GE Breadth. *Certification* does not guarantee admission or admission eligibility. Students with full CSU GE Certification will only be responsible for an additional 9 semester units of upper division general education at the CSU campus. *CSU Certification is not required and is not automatic; it must be requested by the student at the time the final official transcript is sent.* Without certification, the student will be held to the specific general education requirements of the CSU campus of choice.

Students who have taken courses at other colleges can have these courses "passed along" in the certification process. Los Angeles Mission College will certify courses taken at other California Community Colleges in the areas designated by the offering college. Courses taken at California four-year colleges, or accredited out-of-state two-year, or four-year colleges, will be certified if they are equivalent to courses on LAMC's CSU GE course list. Courses from foreign institutions cannot be used in the certification process. Students requesting CSU GE "pass along" certification must complete at least 12 units in residency at Los Angeles Mission College.

ADDITIONAL INFORMATION

1. A course cannot satisfy more than one General Education area requirement (even if listed under multiple areas).
2. Courses used to satisfy General Education requirements may also satisfy Major Preparation requirements.
3. LAMC recommends that students complete the lower division requirements for the major before transfer. Major preparation requirements can be accessed on www.assist.org, the official source for California articulation and student transfer information. Completion of these requirements may not guarantee admission into the major, but can increase the student's chances for acceptance. Other lower division courses that are not offered at LAMC may be required for the major after transfer.
4. Students who transfer to CSU may also complete an Associate degree by completing courses in the major (please see a counselor for major-specific information), a Health and a P.E. course to satisfy the General Education requirements for the Associate degree, along with a total of 60 transferable units completed.
5. Completion of the General Education requirements will not guarantee admission into a university but can increase the student's chances for acceptance.
6. Areas A1, A2, A3 and B4 must be completed with a "C" or better for admissions eligibility to a CSU campus.
7. All coursework must have a cumulative GPA of 2.00 ("C") or better.
8. This advising form may not be the best general education preparation pathway for ALL majors (such as Engineering, Computer Science and Liberal Studies – Teacher Prep). Please consult with a counselor to determine the best plan to meet your educational goals.

Do you need assistance paying your enrollment fees?

The Board of Governors Fee Waiver Program (commonly referred to as BOG) is a California state program that waives enrollment fees. This waiver does not have to be repaid.

Eligibility: Students must be residents of California and enrolled at Los Angeles Mission College in at least one (1) unit. Fees for audited classes, though, cannot be waived through the BOG.

There are three ways to qualify for the Fee Waiver:

Method A: You are a recipient of benefits under TANF/CalWORKs Program, SSI (Supplemental Security Income), or General Assistance (also known as General Relief). You can also qualify for Method A if you meet one of the following criteria: you have certification from the California Department of Veterans Affairs or the National Guard Adjutant General that you are eligible for a Dependent's Fee Waiver, you are a recipient of the Congressional Medal of Honor (or as a child of a recipient), you are a dependent of a victim of the September 11, 2001 terrorist attack, or you are a dependent of a deceased law enforcement/ fire suppression personnel killed in the line of duty.

Method B: You meet the income standards as indicated below:

BOARD OF GOVERNORS FEE WAIVER PROGRAM (BOG-B)
20010-2011 INCOME STANDARDS

1	$16,245
2	$21,855
3	$27,465
4	$33,075
5	$38,685
6	$44,295
7	$49,905
8	$55,515
Each additional family member	Add $5,610

Method C: If you do not qualify based on Method A or Method B, you may be eligible for Method C by completing the Free Application for Federal Student Aid (FAFSA). With this method, you may be eligible by demonstrating at least $1 of financial need. To qualify under this criteria, you must complete the FAFSA at www.fafsa.gov. Our Federal School Code is 012550.

How to apply: To qualify for Method A and Method B, you must complete the Board of Governors (BOG) Fee Waiver Application. You may pick up the BOG application at the Financial Aid & Scholarships Office or you may download it from the web at www.lamission.edu/financialaid/FeeWaiver.aspx

Do you know that you may request for a refund of your enrollment fees? If you have already paid your enrollment fees for Summer 2010, Fall 2010, Winter 2011 and/or Spring 2011, you may be eligible for a refund. Just complete the BOG Fee Waiver Application and let the Financial Aid Office determine whether you qualify.

Getting a college education is an investment in your future! We want your educational experience at Los Angeles Mission College to be challenging, rewarding and supportive; therefore, we are pleased to provide you with the information and tools to assist you in completing your educational goals. Read through the information below about the financial aid process, and check out the links to our website and other websites to find updates and new information to assist you.

What is Financial Aid?
Financial Aid is funding provided by the federal and state governments, the college, and private entities, to assist students with their educational expenses and is available in the form of grants, scholarships, employment and loans. Financial aid is meant to supplement the family's existing resources in funding the costs of a college education.

How To Apply for Financial Aid:
To apply for federal and state financial aid, you need to complete a Free Application for Federal Student Aid (FAFSA) every year of college. The FAFSA can be easily completed online at www.fafsa.gov. The form is available annually, starting January 1st, for the following academic year. We encourage students to apply early, as some financial aid sources are limited and awarded to students who apply early and have financial need. To have your FAFSA information sent to Los Angeles Mission College, make sure to use our Federal School Code: 012550.

To apply for scholarships through the Financial Aid Office at Los Angeles Mission College, check out our website at www.lamission.edu/financial aid and select the "Scholarships" link on the left.

When Do I Apply?
