Message from the President

Judith Valles

Welcome to Los Angeles Mission College! Mission is more than just one of the nine Los Angeles Community Colleges in the District. We are the showcase of the future and the best educational venue for the San Fernando Valley.

I invite you to glance through our 2009 Summer/Fall Schedule of Classes and learn about the variety of programs and services we offer. Whether you're interested in a vocational degree, preparing to transfer to a four-year institution, or developing skills for immediate employment – Mission can help. We have flexible scheduling and offer a variety of courses to fit your needs such as online, weekend, evening, and television courses.

Mission College offers an array of programs of study that transfer to a four-year institution, and our students successfully transfer to the UC and CSU campuses as well as other universities throughout the state. Our courses are taught by instructors with graduate degrees in their fields who are committed to providing academic opportunities that will help you succeed and grow academically.

Our vocational, professional and career training courses are designed and taught by professionals in the field. Advisory committees from industry work closely with college instructional staff to develop relevant and effective educational and training courses, to better prepare our students to fill the high-skill/high-wage jobs in today's global economy.

Whatever your reasons are for attending Mission College, you will be provided with a quality education.

The college is changing and growing dramatically with the completion of the new buildings and parking structure. We recently celebrated the grand opening of our new Center for Child Development Studies building and look forward to the opening of our state-of-the-art Health, Physical Education and Fitness Center this summer. Our future expansion plans include a culinary arts building, media arts facility, and center for applied sciences and technology building.

I encourage you to learn more by visiting Mission College and invite you to take a tour of our campus in person with one of our friendly staff members. Our dedicated instructional staff and counselors are always available to assist you. For more information about enrolling at Los Angeles Mission College call (818) 364-7792.

You'll enjoy getting to know Mission and we look forward to getting to know you.

Best wishes,

Student Explores Medical Field

*For **Zeshan Khokher**, the answer to the question,*
Why do you want to study medicine? is a simple one:
"I truly care about people."
Over the past year, Khokher has become an experienced biomedical researcher while studying biology at Los Angeles Mission College. Among other techniques, he has become an expert in tissue culture. This is a technique in which unique animal cells are transferred to a special environment so they can grow and divide for research experiments. His research may someday help slow the progression of Hereditary Inclusion Body Myopathy (HIBM), a genetic disorder and form of cancer, with only 200 cases reported worldwide.

"... Mission College has provided me with the foundation I need to pursue my degree in biology."

In January 2009, Mission College embarked on a partnership with HIBM Research Group (HRG), a non-profit biomedical research organization in Encino, California. HRG's mission is to develop treatment for HIBM utilizing current medical technology. Mission College Life Sciences Chair Mike Reynolds has identified outstanding science students at Mission to intern at HRG, Mannkind and CSUN to gain hands on experience and an opportunity to learn more about the biomedical field. In January, student Zeshan Khokher began working part-time at HRG. His research involves taking live mammalian cells and injecting these cells with GNE (Glucosamine (UDP-N-acetyl)-2-epimerase/N-acetylmannosamine kinase), which is known to cause HIBM. Khokher then takes the gene that causes HIBM, transfers it to a Chinese hamster ovary cell, and studies the effects.

Zeshan is pursuing an associate degree in biology at Mission College. In summer 2008, he was invited by MannKind Corporation to take part in a research and development program. He competed with science students from other colleges such as USC and UCLA, was interviewed by seven scientists, and landed the 12-week internship at MannKind. Khokher was thrilled at the opportunity to intern with the biopharmaceutical company because he knew he would be doing something he's passionate about. "If you really want something, you'll always find ways to learn and make it easier for yourself," says Khokher. The work is focused on the development of therapeutic products for cancer patients.

Zeshan would like to become a physician and specialize in oncology. He finds it fascinating the way the body and genetics work and says "science allows you to learn about yourself and everything around you." He credits his success to Mission College. "Attending Los Angeles Mission College has provided me with the foundation I need to pursue my degree in biology. The instructors are wonderful and will go out of their way to assist those who are passionate about their dreams," says Khokher.

Zeshan is 22 years young, married to Joeanaliza, and has a pet dog and cat. He is family oriented and plans on having children someday – but for now, studying is his priority.

Khokher plans to attend UCLA for his undergraduate degree and the David Geffen School of Medicine for his graduate degree.

Changing Lives Through Education

"Every day I ask myself what can I do to make a difference in the lives of my students."

With a passion to motivate, encourage, and inspire, ***Child Development Instructor Janice Silver*** *has dedicated 25 years to teaching Child Development Studies at Mission College. Silver started her Early Childhood Education career in Canada, and shortly after arriving in California in 1980, she began her community college career at Mission.*

Janice has the ability to inspire students to stay focused on their goals and provide encouragement to overcome the many challenges they face. "I have tremendous respect for all of my students. So many of them are managing multiple challenges including jobs, families, English language learning, finances, school demands – and are still committed to making a difference in the lives of children and families," says Silver. Janice provides her students with the resources necessary and confidence they need to succeed. Each student learns through his/her own experiences and brings value to the classroom. It is without a doubt that her teaching skills and encouragement have inspired so many of her students to become teachers of young children. Silver is a true role model – someone who is constantly promoting education and is committed to teaching.

"We are here for the students and their success – it's that simple."

After several years of working with students and community outreach efforts in the sciences at USC, ***Life Sciences Professor Mike Reynolds*** *decided to begin his teaching career at Mission College in 1996. Professor Reynolds made a heartwarming decision to leave medical school to pursue his passion – a career in science education.*

"The greatest reward in teaching at Mission College is assisting students in reaching their potential both academically and personally," says Reynolds. Every student who reaches their specific goal is a joy to witness. The most special characteristic of working at Mission is the students. Students demonstrate a sincere desire to improve their lives – having to constantly balance external commitments such as family and work. They are the inspiration for Reynolds to come to class each day with as much energy and enthusiasm he could muster. Reynolds says that it would be a joy to retire and have one of his students come back to take his job.

Mission College is dedicated to providing you with a quality education. We offer a variety of classes in numerous formats to fit your needs and help you meet your goals.

PACE Director, Mark Pursley: 818.364.7677

New Pace Students: Attend the PACE Orientation the Saturday before classes begin! Call the PACE Office for more information. Located in the lower level of the Campus Center.

Who: PACE courses are offered in an accelerated format convenient to students' work schedules. Some students participate in the complete PACE program (see "Why" below for program features). However, PACE courses are open to ALL Mission College students, so anyone can sign up for a PACE course while taking traditional, online or other course formats.

Why: PACE offers convenient scheduling, quality instruction, and a supportive staff. PACE features collaborative learning, field trips, artistic performances, and social events to enhance your educational experience.

What: PACE has five tracks (Elementary Teaching, Business, Social Science, Health Science, and General Studies) to help students meet their transfer requirements while earning an A.A. degree. All PACE courses are fully transferable to CSU and UC.

Where: Currently all PACE courses meet on campus.

When: Most courses in PACE are offered in an accelerated eight week format. Students attend class one evening a week and every other Saturday for eight weeks. A student can earn 12 units per semester by taking two courses in the first eight week session and two more in the second eight week semester. Each PACE course is paired with another PACE course so that students may earn six units in session A, and six more in session B. (go to the college website for complete PACE schedule information)

A Sample Schedule For Paired 3-Unit Courses:
Course 1: Tuesday 6-8 PM and scheduled PACE Saturdays 8-12 (Student must attend both days. Courses do not meet on all Saturdays – see schedule.)
Course 2: Tuesday 8:10-10:10 PM and PACE Saturday 12:30-4:30 (Student must attend both days. Courses do not meet on all Saturdays – see schedule.) Students may take one or both courses.

4-Unit Science Courses and 5-Unit Business and Math Courses meet per the evening schedule indicated and *every* Saturday, and some are 16 weeks long.

Hybrid PACE Courses:
Students attend only four Saturday sessions and complete the remainder online.

PACE Basic Skills in Math and English: These courses (called bridge courses) are generally offered on Monday evenings or on Saturdays- see schedule)

These classes are also listed in the Summer and Fall schedules.

Orientation: Saturday, June 20, 9:00 am in CMPC 5

OPENING THIS FALL

Health, Fitness and Athletic Complex (HFAC)

The construction of the Health, Fitness and Athletic Complex is scheduled for completion this summer, just in time for the Fall, 2009 semester. The building will be part of the East Campus Complex located near El Cariso golf course, at Eldridge Avenue and Harding Street, west of Maclay. When completed, the 90,000 square foot two-story building will include a three-court multi-sport competition gymnasium, an elevated three-lane jogging track, an athletic training and hydro-therapy room, fitness and cardio area classrooms, multi-purpose fitness and dance studios, locker rooms and faculty offices.

The environmentally friendly building is LEED-certified (Leadership in Energy and Environmental Design), meeting the standards of the United States Green Building Council (USGBC).

In order for students, staff, faculty and community members to enjoy these new facilities, ALL must register for a course.

All students need to demonstrate meeting the prerequisite or corequisite requirement in order to enroll into the target course.

• If the student satisfies the requirement by completing a class with a grade of "C" or better at LAMC or through the assessment process, he/she will be cleared for registering into the target course.

• If the student has satisfied the prerequisite or corequisite and/or placement at another college or through another method, he/she must submit the appropriate documentation (i.e. an unofficial transcript and/or placement results) to the counseling office located in the Instructional and Student Services Building (818.364.7655).

Once a counselor reviews the documents and finds that the prerequisite or corequisite has been satisfied, the counselor will issue a course placement authorization form. This form, once signed by the counselor, needs to be turned into the Admissions office along with the necessary add slip by the student for processing.

Prerequisite Challenge

Students without transcripts or other proof of meeting the specified prerequisite or corequisite but believe that they have other clear and reliable evidence that they are adequately prepared to take the target course may go through the prerequisite or corequisite challenge process.

Prerequisite or corequisite may be challenged based on the following:

1. The student has the knowledge or ability to succeed in the target course despite not meeting the prerequisite or corequisite. (Criteria for challenging based on knowledge or ability to succeed will be determined by each Academic Department.);

2. The prerequisite or corequisite is not valid because it has not been established in accordance with the District's policy;

3. The prerequisite or corequiste is being applied in an unlawfully discriminatory manner; and

4. The prerequisite or corequisite has not been made reasonably available causing the student undue delay in completing his/her educational goal.

Prerequisite Challenge Process

1. Pick up the challenge form at the Counseling Office. It is recommended that a student seeking to go through the challenge process meet with a counselor to discuss the process in further detail.

2. All challenge forms must be processed prior to the add deadline as stated in the Schedule of Classes (please note: the challenge process takes five working days to complete). Challenges filed after this deadline will be considered for the following semester. If space is available in a course when a student files a challenge to the prerequisite or corequisite, the student will be allowed to enroll into the course during the challenge process. If the challenge is approved or the college fails to resolve the challenge within 5 working days, the student shall be allowed to remain in the course. If the challenge is denied, the student will be notified and dropped administratively. If no space is available in the course when a challenge is filed and approved, the student shall be permitted to enroll for the following semester.

3. Students need to complete the challenge form, attach appropriate documentation and take the form to the Chair and/or Vice Chair of the department through which the course in question is being offered.

4. The Department Chair and/or Vice Chair will approve or deny the challenge. If the Chair and/or Vice Chair is the instructor of the course that the student wishes to enter, then the Chair and/or Vice Chair will identify another faculty member in the discipline to review and approve the challenge form.

• Once the challenge is approved/denied and signed, the Chair and/or Vice Chair of the department or designated faculty member will return the form to the Matriculation Coordinator.

• The Matriculation Coordinator will contact the student of the results of the challenge.

• If the challenge is approved, the student will be given a course placement authorization that the student will take to Admissions along with the necessary add form for processing.

5. If the challenge is denied, the student may appeal the decision to the Vice President of Academic Affairs. Notification of the appeal decision will be sent to the student within 5 working days after its receipt.

ESL Program at Mission College

Levels and Classes

The ESL program at Mission College consists of seven levels of instruction. Research in language acquisition advises that skills not be taught in isolation. Consequently, some ESL classes are combined, and other ESL classes have co-requisites. Students receive maximum benefit by taking all classes in each level concurrently.

Level 1: ESL 1 integrated (combined skills) -12 units MTWTh
Level 2: ESL 2 integrated (combined skills) -12 units MTWTh
Levels 3,4,5 and 6 have A, B, and C components:
ESL 3A, 4A, 5A, 6A: Writing/Grammar, 6 units, MW
ESL 3B, 4B, 5B, 6B: Reading/Vocabulary, 3 units, TTh
ESL 3C, 4C, 5C, 6C: Listening/Speaking, 3 units, TTh
Level 7: ESL 8: Advanced ESL Composition—6 units, MW
ESL 8 is equivalent to English 28 and satisfies the prerequisite for English 101.

Assessment - Which Level Should I Take?

All new students must take the Mission College ESL Placement Test. The results of this test will indicate which level you should enroll in. Mission College does not accept assessment test results from other colleges or adult schools.

Once enrolled, students who believe they were incorrectly placed should confer with their instructor and the ESL Department Chair.

Students wishing to drop a class or withdraw from the college during the semester must do so through the Admissions Office or use the telephone system. Failure to withdraw officially may result in an "F" grade. Students must withdraw on or before the 11th week (75%) in order to receive a W. Students in short-term classes must withdraw before 75% of the course is completed. After the 11th week or 75% completion of the course, a student is assigned a letter grade (A through F). Instructors are not obligated to exclude a student for non-attendance.
IT IS THE STUDENT'S RESPONSIBILITY TO WITHDRAW OFFICIALLY.
HOW TO DROP CLASSES OR WITHDRAW FROM COLLEGE
1. Dropping classes or withdrawing from the college must be done by the drop date deadline.
2. To drop classes, use the STEP telephone system, or fill out a "Drop Card" and present it, with your registration Fee Receipt, at the Admissions Office. To drop ALL classes (withdrawal), use the STEP System or check item number one on the drop card.
3. The clerk processes the forms and gives you a receipt. Keep your receipt for your records.
4. Fees are not automatically refunded. Fee refunds must be requested from the Business Office if you drop classes or withdraw by the end of the second week.
5. In order to do a complete withdrawal by mail, your request must be sent by Certified Mail with a receipt.
6. You may also withdraw by using the telephone system on or before the 11th week or before 75% of the course is completed. Students in PACE or other special programs must check withdrawal deadlines with the appropriate program director.

Withdrawal from Classes

THROUGH THE 3rd WEEK: No notation ("W" or other) will appear on the student's record if the class is dropped during the first three weeks of the semester (or 30% of the class for short-term classes).
THROUGH THE 11TH WEEK: A notation of "W" (withdrawal) is recorded on the student's record for classes dropped during the 4th through the 11th week of the semester.
AFTER THE 11TH WEEK: Students who remain in class beyond the 11th week (or 75% of the class for short term classes) are given a grade by the instructor. THAT GRADE CANNOT BE A "W" (withdrawal).

Access to Records

The California Legislature passed S.B. 182 (Stull), which codifies provisions of the Education Code and the Federal statutes implementing the Family Education Rights and Privacy Act of 1974 (Buckley Amendment). This permits students to inspect their personally identifiable records maintained by the college, and permits access to these records only upon the student's request (other than to certain specified categories). Information on these laws and college procedures in implementing them may be obtained from the Associate Dean of Admissions, who serves as the College Records Officer. Copies of pertinent State and Federal legislation are available for inspection.
Los Angeles Mission College considers the following information relating to a student to be directory information: student's name, city of residence, date of birth, major field of study, participation in officially recognized activities and sports, weight and height of members of athletic teams, dates of attendance, degrees and awards received, and the most recent previous educational agency or institution attended by the student. Students who do not wish any or all of the above categories of information to be given out should so indicate on their application at time of enrolling. Students are asked to voluntarily provide their student identification number for this purpose.

Family Educational Rights and Privacy

Act (FERPA) Notification The Family Educational Rights and Privacy Act (FERPA) affords students the following rights with respect to their educational records:
1. The right to inspect and review the student's education records which includes discipline records, within 45 days from the date the College receives a request for access.
• Students may submit to the College Admissions Office written requests that identify the specific record(s) they wish to inspect. Within 45 days, the College Admissions Office will make arrangements for access and will notify the student of the time and place where the records may be inspected.

• Education records are those records that are directly related to students and are maintained by the College. Students may not inspect education records pertaining to parents' financial records and certain confidential letters or recommendations.
2. The right to request an amendment of the student's educational records which the student believes to be inaccurate, misleading or otherwise in violation of the student's privacy rights.
• With the exception of grade grievances which are handled through Administrative Regulation E-55, students may ask the College President, or his/her designee to amend a record that they believe is inaccurate, misleading, or in violation of their privacy rights. A student seeking to amend an educational record should write to the College President and clearly identify the part of the record he/she wants changed and specify why it is inaccurate, misleading, or in violation of his/her privacy rights.
• If the College President, or his designee, decides not to amend the record as requested by the student, the College, in accordance with section 99.21 of the Code of Federal Regulations and section 76232 of the Education Code, will notify the student of the decision and of his/her right to a hearing.
3. The right to consent to disclosures of personally identifiable information contained in the student's educational records, except to the extent that FERPA and California law authorize disclosures without consent.
• If a student authorizes the release of his/her education record to a third party, he/she shall provide a dated written consent to the College Admissions Office authorizing said release with a specific list of the information to be released.
• Federal and California law authorize certain disclosures of personally identifiable information without a student's written consent. One such exception is the disclosure of personally identifiable information to school officials with legitimate educational interests. School officials with legitimate educational interests are employees or agents of the Los Angeles Community College District who need to review educational records in order to fulfill their professional responsibilities.
4. The right to restrict disclosure of personally identifiable information that the College has designated as directory information which may be released without the written consent of the student.
• Directory information may be disclosed without a student's consent unless the student has notified the college that he/she does not want all or portions of the directory information released. To do so, the student must submit the appropriate District form to the College Admissions Office requesting that some or all of the categories of directory information not be released without his/her consent. This form must be submitted in accordance with College policy.
• Pursuant to Board Rule 5201.10, the Los Angeles Community College District has designated the following student information as directory information:
(a) the student's name, city of residence, participation in officially recognized activities and sports, weight and height of members of athletic teams, dates of attendance, degrees and awards received, and the most previous educational agency or institution attended by the student;
(b) student employee records may be released in order to comply with collective bargaining agreements;
(c) the names, addresses and telephone numbers of students or former students may be released to the foundation for each college for college-related activities at the discretion of the College President, unless the student or former student has informed the College that such information should not be released. The release of this information is conditioned upon the foundation's agreement that such information will be released in accordance with District policy and that information will not be released to third parties;
(d) at the discretion of the College President, the names, addresses and telephone numbers of students from the College may be released to heads of private and/or public institutions of higher education, or their designees, for the purpose of providing information to student regarding transfer opportunities to those institutions, unless the student has indicated that such information should not be released. The release of this information will be conditioned upon the institution's agreement that student privacy rights under federal and state law will be protected and that information will not be released to third parties.
5. The right to file a complaint with the U.S. Department of Education concerning alleged failures by the College to comply with the requirements of FERPA. The name and address of the office that administers FERPA is:

Student Right-to-Know Disclosure

In compliance with the Student Right-to-Know and Campus Security Act of 1990 (Public Law 101-542), it is the policy of the Los Angeles Community College District and Los Angeles Mission College to make available its completion and transfer rates to all current and prospective students. Beginning in Fall, 1996, a cohort of all certificates, degree, and transfer-seeking first-time, full-time students were tracked over a three-year period. Their completion and transfer rates are listed below. These rates do not represent the success rates of the entire student population at all California Community Colleges, nor do they account for student outcomes occurring after this three-year tracking period.
Based upon the cohort defined above, 28.2 percent attained a certificate, degree, or became "transfer-prepared" during a three-year period from Fall 1997 to Spring 2000. Students who are transfer-prepared have completed 56 transferable units with a GPA of 2.0 or better.
Based upon the cohort defined above, 29.8 percent transferred to another post secondary institution (CSU, UC, or another California Community College) prior to attaining a degree, certificate, or becoming transfer-prepared during a five semester period from Spring 1998 to Spring 2000.
Further information about Student Right-To-Know Rates and how they should be interpreted can be found at the California Community Colleges Chancellor's Office Student Right-To-Know Disclosure Website located at http://srtk.cccco.edu/index.asp

Student Grievance Procedure

The purpose of the Student Grievance Procedure is to provide a prompt and equitable means for resolving student grievances. The grievance procedure may be initiated by a student or group of students who reasonably believe he/she/they have been subject to unjust action or denied rights that adversely affect his/her/their status, rights, or privileges as a student. It is the responsibility of the student(s) to submit proof of alleged unfair or improper action. Grievances pertaining to grades are subject to California Education

Code Section 76224(a) which states:
"When grades are given for any course of instruction taught in a community college district, the grade given to each student shall be the grade determined by the instructor of the course and the determination of the student's grade by the instructor, in the absence of mistake, fraud, bad faith, or incompetence, shall be final."
This grievance procedure does not apply to the challenge process for prerequisites, corequisites, advisories, and limitations on enrollment; alleged violations of sexual harassment; actions dealing with student discipline; alleged discrimination on the basis of ethnic group identification, religion, age, sex, color, sexual orientation, physical or mental disability; or an appeal for residency decision; or to eligibility, disqualification, or reinstatement of Financial Aid. Informal resolution is encouraged.
A written Statement of Grievance must be submitted to the Compliance Officer within thirty (30) instructional days of the incident or after the student(s) learns of the basis for the grievance.

Recording Devices in the Classroom

Section 78907 of the California Education Code prohibits the use of any electronic listening or recording device without prior consent of the instructor. Any student violating this section is subject to disciplinary action. Any non-student who willfully violates this section is guilty of a misdemeanor.

Standards of Student Conduct and Disciplinary Action

The Standards of Student Conduct and Disciplinary Action for violation of rules were established by the Board of Trustees of the Los Angeles Community College District on September 2, 1969. A student enrolling in one of the Los Angeles Community Colleges may rightfully expect that the faculty and administrators will maintain an environment in which there is freedom to learn. This requires that there be appropriate conditions and opportunities in the classroom and on the campus. As members of the college community, students should be encouraged to develop the capacity for critical judgment, to engage in a sustained and independent search for truth, and to exercise their rights to free inquiry and speech in a responsible, non-violent manner. Students shall respect and obey civil and criminal law and they shall be subject to legal penalties for violation of laws of the city, county, state, and nation. Student conduct in all of the Los Angeles Community Colleges must conform to District and college rules and regulations.
Violations of such rules are subject to the following types of disciplinary actions, which are to be administered by appropriate college authorities against students who stand in violation. Each of the Los Angeles Community Colleges shall establish due process of law for administration of the penalties enumerated here. Penalties are listed in degree of severity but not as chronological administration. College authorities will determine which type of penalty is appropriate.
1. WARNING – Notice to the student that continuation or repetition of specified conduct may be cause for other disciplinary action.
2. REPRIMAND – Written reprimand for violation of specified rules. A reprimand serves to place on record that a student's conduct in a specific instance does not meet the standards expected at the college. A person receiving a reprimand is notified that this is a warning that continued conduct of the type described in the reprimand may result in formal action against the student.
3. DISCIPLINARY PROBATION – Exclusion from participation in privileges or extra-curricular college activities set forth in the notice of disciplinary probation for a specified period of time. The imposition of disciplinary probation involves notification in writing of the reason for disciplinary probation to the student(s) or president of the student organization involved.
4. RESTITUTION – Reimbursement for damage or for misappropriation of property. Reimbursement may take the form of appropriate service to repair or otherwise compensate for damage.
5. SUMMARY SUSPENSION – A Summary Suspension is for purposes of investigation. It is a means of relieving the tension of the student body or individual class due to a serious infraction of student behavior standards, removing a threat to the well-being of the students, or removing for the good order of the college a student or students whose presence would prevent the continued normal conduct of the academic community. Summary Suspension is limited to that period of time necessary to insure that the purposes of the Summary Suspension are accomplished, and in any case, no more than a maximum of 10 school days. Summary Suspension is a type of suspension other than that ordinarily invoked by the instructor in the classroom. The College President, appropriate administrator, or other staff member designated by the President may summarily suspend a student when he deems it necessary for the safety and welfare of the college.
6. DISCIPLINARY SUSPENSION – Disciplinary Suspension follows a hearing based on due process of law. It shall be invoked by the College President, appropriate administrator, or other staff member designated by the President, upon students for misconduct when other corrective measures have failed or when the seriousness of the situation warrants such action.
7. EXPULSION – An expulsion is a long-term or permanent denial of all campus privileges including class attendance. The President of the college and/or the Board of Trustees may expel a student who has been convicted of a crime arising out of a campus disturbance or, after a hearing by a campus body, has been found to have willfully disrupted the orderly operation of the campus. The President shall submit periodic reports on all expulsion cases to the Superintendent and the Board of Trustees.
Violations of the Standards of Student Conduct are as follows:
9803.10 Willful Disobedience: Willful disobedience to directions of college officials acting in the performance of their duties.
9803.11 Violation of College Rules and Regulations: Violation of college rules and regulations, including those concerning student organizations, the use of college facilities, or the time, place, and manner of public expression or distribution of materials.

• Students and employees are prohibited from unlawfully possessing, using or distributing illicit drugs and alcohol on District premises, in District vehicles, or as part of any activity of the Los Angeles Community College District.

On April 20, 1989, the Los Angeles Community College District Board of Trustees adopted Rule 9803.19, which prohibits:

• Alcohol and Drugs. Any possession of controlled substances which would constitute a violation of Health and Safety Code section 11350 or Business and Professions Code section 4230, any use of controlled substances, the possession of which are prohibited by the same, or any possession or use of alcoholic beverages while on any property owned or used by the District or colleges of the District. Mission to Success -

The Mission to Success Matriculation program helps students reach their goals at Los Angeles Mission College.

Steps to Success:

Step 1: Assessment

The English as a Second Language (ESL), English and Mathematics assessment process helps to place students in classes where they are most likely to succeed. Complete the college application form and assess for ESL or English and Mathematics.

Step 2: Orientation

Important information about the college, educational programs, requirements and services is presented during orientation. When students attend orientation, they will receive their assessment results.

Step 3: Counseling

Meet with a counselor and clarify one's educational goals and the courses one plans to take at Mission College.

Step 4: Follow-Up

Meet with a counselor once a semester to review progress towards an educational goal and necessary requirements.
All new and returning students should complete steps 1, 2, and 3 before registering for classes at Mission College.

Matriculation Exemptions

At the time of application, all students are classified as Exempt or Non-Exempt from various matriculation components. Exempt students are those who: 1) have already earned an Associate Degree or higher, or 2) plan to enroll in a personal interest P.E. class. Some students may be exempt from only one or two of the individual components listed above. Exempt students may participate in all matriculation programs. All other students are coded as non-exempt. Non-exempt students are expected to complete orientation, assessment and counseling components during their first semester at Mission College.

Student Responsibilities

Matriculation is a program that creates an agreement between the college and the student. This agreement helps students meet their educational goals. Students are required to:
1. express at least a broad educational intent upon admission,
2. declare a specific educational goal after they have completed 15 units of degree applicable classes,
3. attend all classes and complete all assignments,
4. complete courses and make progress towards an educational goal, and
5. work with a counselor to develop an educational plan.

Mision Hacia el Exito - La Misión del Programa de Matriculación Hacia el Exito ayuda a los estudiantes a alcanzar sus metas aquí en Los Angeles Mission College.

Pasos Hacia el Exito:

1. Evaluación

El examen para evaluar el nivel de inglés y de las matemáticas ayuda para ubicar a los estudiantes en las clases donde se pueda esperar mejor desarrollo. Haga y entregue un formulario a la Oficina de Admisiones y fije su cita para tomar el examen de evaluación de inglés y de matemáticas.

2. Orientación

La orientación presenta información importante acerca del colegio, programas de estudio, requisitos y servicios estudiantiles. Durante la orientación se le informará de los resultados de su evaluación.

3. Asesoramiento

Reúnase con un consejero para aclarar sus metas y su plan educativo, al igual como los cursos que espera seguir mientras asiste a Los Angeles Mission College.

4. En Continuación

Reúnase con un consejero cada semestre para reevaluar su progreso hacia sus metas educacionales y los requisitos necesarios. Los nuevos estudiantes así como los estudiantes que continuan después de haberse ausentado deben cumplir con los pasos 1, 2, y 3 antes de matricularse para tomar clases aquí en Los Angeles Mission College.

Exención de Matriculaciones

Los estudiantes que ya hayan recibido el Grado Universitario de Asociado o grados superiores, o quienes piensan tomar clases de interés personal quedan exentos de los cuatro pasos anotados arriba, aunque sí se les aconseja que pueden participar en ellos. A todos los demás estudiantes se les requiere que cumplan con los pasos 1, 2, y 3 (evaluación, orientación, asesoramiento) durante su primer semestre.

La Responsabilidad del Estudiante

El programa de Matriculación provee un entendimiento entre el colegio y el estudiante. Este entendimiento le ayuda al estudiante a realizar sus metas educativas.
Al estudiante se le requiere que:
1. declare, en general, las razones por las que se quiere inscribir,
2. fije su meta educativa específica después de haber cumplido con 15 unidades de grado universitario,
3. asista a clase todos los días y cumpla con todas las tareas asignadas,
4. termine los cursos y progrese hacia la meta educativa propuesta,
5. solicite la ayuda de los servicios de asesoramiento para finalizar el desarrollo de un plan educativo.

IGETC - What is the Intersegmental General Education Transfer Curriculum?

The Intersegmental General Education Transfer Curriculum (IGETC) is a general education program that community college prospective transfer students may complete to satisfy the lower-division general education requirements for either the UC (University of California) or CSU (California State University) system without the need to take additional lower-division general education courses after transfer.

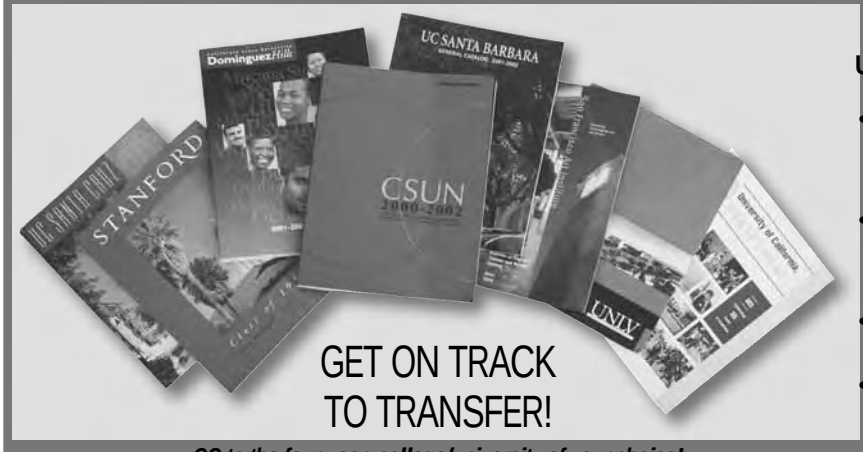
All IGETC coursework must be completed with a "C" or better. Courses may only be used once to satisfy one IGETC subject area (even if listed under multiples areas), however, courses may be used to satisfy IGETC general education areas AND major preparation requirements. Major preparation requirements can be accessed on www.assist.org, the official source for California articulation and student transfer information.

The IGETC is *NOT* an admission requirement to the UC or CSU system. There is no connection between completion of the IGETC and eligibility for admission to the UC or CSU system, or admission to a specific campus or program. Existing segmental and campus-specific admission requirements for transfer students remain unchanged. Requirements for lower-division courses for admission to particular majors also remain unchanged. A recommended total of 60 units must be completed before transfer, for priority admission status.

It is NOT advisable for *all* students to follow the IGETC. Some students may be better served by taking courses that fulfill the CSU General Education Breadth requirements or or the general education pattern of the UC campus or college to which they plan to transfer. Students pursuing majors that require extensive lower division major preparation, (such as Engineering on all campuses or Business at UC, Berkeley) may not find the IGETC option to be advantageous. The Eleanor Roosevelt College and Revelle College of UC San Diego do not accept IGETC. Additional lower-division general education requirements may be needed prior to transfer. The IGETC will be most useful for students who want to keep their options open before making a final decision about transferring to a particular UC or CSU campus.

If you are approaching readiness for transfer and, for good cause, are unable to complete one or two IGETC courses, you may be eligible to complete IGETC after transferring. To file for partial certification of IGETC you must fill out a Petition for Exemption Academic Requirements. Please note: IGETC areas I and II must be completed AND admission criteria for the university must be met.

Courses taken at several institutions may be used to fulfill the IGETC. Students should be aware, however, that placement of courses within IGETC subject areas may vary from college to college. Placement of a course will be based on the college of attendance and its IGETC pattern at the time the course was completed. Completion of the IGETC program will be certified by the last community college, which the student attends.



GO to the four-year, college/university of your choice!

CSU ADVISING FORM

IMPORTANT INFORMATION: Courses on this list are approved for a specific academic year, which begins with the Fall 2008 semester, and remains valid through Summer 2009. The general education courses listed for the CSU system are specified within subject areas that satisfy lower division general education requirements for the CSU campuses. Students wishing to use a course to meet a CSU General Education requirement must be sure that the course is approved for the academic year in which it is taken. The CSU general education form changes each year. It is advised that students meet with a counselor regularly to review any changes. A course must be on the CSU GE Breadth during the term in which it is taken. If a course is taken before it is approved for inclusion, or after it is removed from the list, it cannot be used to meet the area requirement.

CSU GE Breath Certification is available to community college transfer students who complete the majority of their lower-division units at the community college and satisfy the general education requirements in each area. "Certification" means that LAMC has verified that a student has completed the lower division General Education Requirements listed in each area of the CSU GE Breadth. Students with full CSU GE Certification will only be responsible for an additional 9 semester units of upper division general education at the CSU campus. CSU Certification is not required and is not automatic; it must be requested at the time the final official transcript is sent. Without certification, the student will be held to the specific general education requirements of the CSU campus of choice.

Students who have taken courses at other colleges can have these courses "passed along" in the certification process. Los Angeles Mission College will certify courses taken at other California Community Colleges in the areas designated by the offering college. Courses taken at California four-year colleges, or accredited out-of-state two-year, or four-year colleges, will be certified if they are equivalent to courses on the LAMC's CSU GE course list. Courses from foreign institutions cannot be used in the certification process. Students requesting CSU GE "pass along" certification must complete at least 12 units in residency at Los Angeles Mission College.

ADDITIONAL INFORMATION

1. Courses that are required for the major may also be used for General Education.
2. A course cannot satisfy more than one General Education requirement.
3. Students who transfer to CSU may also complete the Associate degree in Liberal Arts by completing Health and P.E. courses to satisfy the General Education requirements for the Associate degree, having completed a total of 60 transferable units.
4. Completion of the General Education requirements will not guarantee entrance into a university, but can increase the student's chances for acceptance.
5. LAMC recommends that students complete the lower division requirements for the major before transfer. Major preparation requirements can be accessed on www.assist.org, the official source for California articulation and student transfer information. Completion of these requirements may not guarantee entrance into the major, but can increase the student's chances for acceptance. Other lower division courses that are not offered at LAMC may be required for the major after transfer.
6. All coursework must have a cumulative GPA of 2.00 ("C") or better.

Do you need assistance paying your enrollment fees?

The Board of Governors Fee Waiver Program (commonly referred to as BOGG) is a California state program that waives enrollment fees. This waiver does not have to be repaid.

Eligibility: Students must be residents of California and enrolled at Los Angeles Mission College in at least one (1) unit.

There are three ways to qualify for the Fee Waiver:

Method A: You are a recipient of benefits under the TANF/CalWorks Program (formerly AFDC), SSI (Supplemental Security Income), General Assistance (also known as General Relief). Or you have certification from the California Department of Veterans Affairs or the National Guard Adjutant General that you are eligible for a dependent's fee waiver. Or you are a recipient of the Congressional Medal of Honor or as a child of a recipient, or dependent of a victim of the September 11, 2001 terrorist attack. Or a dependent of a deceased law enforcement/fire suppression personnel killed in the line of duty.

Method B: You meet the income standards as indicated below:

BOARD OF GOVERNORS FEE WAIVER PROGRAM (BOGFW-B)
2009-2010 INCOME STANDARDS

Number in Household (Including Yourself)	Total 2008 Family Income (Adjusted Gross Income and/or Untaxed Income)
1	$15,600
2	$21,000
3	$26,400
4	$31,800
5	$37,200
6	$42,600
7	$48,000
8	$53,400
Each additional family member	Add $ 5,400

Method C: If you do not qualify based on Method A or Method B, you may be eligible for Method C by completing the Free Application for Federal Student Aid (FAFSA). With this method, you may be eligible by demonstrating at least $1 of financial need. To qualify under this criteria, you must complete the FAFSA at www.fafsa.ed.gov. Our Federal School Code is 012550.

How to apply: To qualify for Method A and Method B, you must complete the Board of Governors (BOG) Fee Waiver Application. You may pick up the BOG application in the Financial Aid & Scholarships Office or you may download it from the web at www.lamission.edu/financialaid/FeeWaiver.aspx

Note: Audited classes are not covered by the BOG Fee Waiver program. Students are solely responsible for payment of enrollment fees for audited classes. No exception to this policy can be made.

Do you know that you may request for a refund of your enrollment fees? If you have already paid your enrollment fees for Summer 2009, Fall 2009, Winter 2010 and/or Spring 2010, you may be eligible for a refund. Just complete the BOG Fee Waiver Application and let the Financial Aid Office determine whether you qualify.

Financial aid is made available by federal, state and private sources in the form of grants, scholarships, loans, and employment. Financial aid resources are intended to supplement, not replace, the financial resources of the family to help pay for the cost of college education.

The Financial Aid Office offers many services to our students including financial aid awareness and FAFSA hands on workshops. Financial Aid counseling is available by appointment with the Financial Aid Director. Our staff will answer your questions in person and over the phone (with consideration for student privacy as provided through FERPA regulations). We are here to help you fund your cost of education. Stop by the Financial Aid Office or visit the Financial Aid website at www.lamission.edu/financialaid. Remember that you are in charge of you education; we are here to help you finance it.

How To Apply for Financial Aid:

Applying for financial aid is in two easy steps:

Step 1: Apply for a Personal Identification Number (PIN) at www.pin.ed.gov. If you already have a PIN assigned to you by the United States Department of Education, go to Step 2.

Step 2: Apply for financial aid at www.fafsa.ed.gov. Our Federal School Code is 012550.

Students are encouraged to apply for financial aid on-line because the processing time is shorter and the FAFSA website will edit your work, helping you minimize errors before submitting your information.

When Do I Apply?

We encourage our students to apply as early as January 1, 2009 and apply before March 2, 2009 for the 2009-2010 academic year.

Our priority deadline for to submit all required documents is May 1, 2009. Students who miss the priority date should still apply as financial aid funds may still be available. If in doubt, please visit our Financial Aid Office. Staff members are available during regular office hours to answer your questions and assist you in completing any of the forms.

If you will be continuing your education for the Fall 2010, you must reapply for financial aid by completing the 2010-2011 Free Application for Federal Student Aid (FAFSA) before March 2, 2010. The 2010-2011 FAFSA is available online at starting January 1, 2010 at www.fafsa.ed.gov
